

Ask Her This Question

"Do you know of any woman who ever received any benefit from taking Lydia E. Pinkham's Vegetable Compound?"

If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by Lydia E. Pinkham's Vegetable Compound, and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

Houston, Texas.—"When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisement of Lydia E. Pinkham's Vegetable Compound, and was advised to try it.

"My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman and enjoy the best of health.

"I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you."—Mrs. Bessie L. Hicks, 819 Cleveland St., Houston.

Any woman who is sick and suffering is foolish surely not to give such a medicine as this a trial. Why should it not do her as much good as it did Mrs. Hicks.

CUTICURA CURED HIS ECZEMA.

Humor Came on Legs and Ankles—Could Not Wear Shoes Because of Bad Scaling and Itching.

"I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds from the edge of a river and was constantly in the dust from the weeds. At night I cleansed my limbs but felt a prickly sensation. I paid no attention to it for two years but I noticed a scum on my legs like fish scales. I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks I was free from the confounded itching. Capt. G. P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, '07, and Sept. 24, '08.

Durham Negro Slowly Dying While Physicians Experiment.

Durham, Special.—The physicians treating the latest pellagra case say the negro here is daily growing worse and that he will die within two weeks. It was meant to experiment somewhat on this colored man, consent having been obtained of his brother to try pumping the blood of an entirely well man to the sick one. The patient was in so much worse condition than at first thought that he couldn't stand the operation. It is said that the method contemplated is the only one that has ever resulted in a cure.

There is some more experimenting. Dr. Booker has returned from Richmond and Baltimore with the hospitals' analysis of the blood sent. The bug was found in the blood, but what it means is another thing. The next work to be done is by inoculation of guinea pigs and the result of that experiment is eagerly awaited.

Davidson Students Agree Not to Haze.

Davidson, Special.—Last week the student body at Davidson took one of the most important steps in the history of the college. For a number of years every student was required upon entering to sign a pledge that they would engage in no hazing whatever. This pledge was not honored and half of the students went on with the hazing. It of course gave the college a black eye, so Mr. G. E. Wilson of Charlotte, Mr. Thos. W. Lingle of Davidson and Mr. W. J. Roddey of Rock Hill, all members of the executive committee, met with the student body and made an earnest appeal to them to do away with hazing. After their talks a vote was called and every student in the college voted to dispense with hazing. So the hazing here will be on the honor system.

Former Postmaster Held.

Dobson, Special.—Eugene C. Kapp, lately postmaster at Mount Airy, N. C., was arrested at that place Monday charged with violating the postal laws, and was tried here Tuesday before United States Commissioner Jackson. After a brief hearing the case was continued to September 16 at the defendant's request. The charges against Kapp are that while he was postmaster at Mount Airy he induced certain employees of the office there to sign pay vouchers in blank, afterwards filling out the vouchers to suit himself, charging the government with a larger amount than had actually been paid out for expenses.

Wilson News.

Wilson, Special.—Last Saturday night on the plantation of Haywood Lamin, Joe Nath Marlow and Frank Marlow became involved in a quarrel with Ruffin Woodward, cutting him in five places, across the breast, back and arms. The slayers were arrested Sunday morning and taken before Squire A. T. Barnes at Lucama, who bound them over in bonds of fifty dollars each for their appearance before Judge Cook.

Monday morning John D. Mercer, constable of Black Creek, arrested Eliza Grice and Daisy Sutton, on a warrant charging them with poisoning fifteen head of chickens and four geese—property of Ed Loens. The case was heard before J. H. Thompson, J. P., who bound them over to the Superior Court in the sum of one hundred dollars each.

Largest in the South.

Winston-Salem, Special.—This city is to have the largest knit goods bleachery in the South. Work was begun on the addition to the already immense plant of the Maline Mills. As soon as it is completed additional machinery will be installed sufficient to make it the biggest enterprise of the kind south of the Mason and Dixon line.

Oil Inspection Law is Declared Valid.

Raleigh, Special.—Judge Henry G. Conner, in the circuit court of the eastern district of North Carolina Tuesday handed down his decision sustaining the oil inspection laws of the State, passed at this year's session of the general assembly. He dismissed the bill of the Red C Oil company of Baltimore, which asked injunction relief and that the law be declared unconstitutional because of alleged excessive tax of half a cent a gallon, unjust regulations and delegated authority.

The oil company will appeal.

Express Office Robbed.

Rocky Mount, Special.—The railroad and express officials here received notice of a robbery of the station at Ayden on Thursday night and that between \$45 and \$50 in money that belonged to the Southern Express Company was stolen from the money drawer. The office was broken into through the warehouse, some time during the night. Certain parties are suspected.

STOMACH LIVER LUNGS

Each of the chief organs of the body is link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

WHAT IS PAINT?

The paint on a house is the extreme outside of the house. The wood is simply a structural under layer. That is as it should be. Unprotected wood will not well withstand weather. But paint made of pure white lead and linseed oil is an invulnerable armor against sun and rain, heat and cold. Such paint protects and preserves, fortifying the perishable wood with a complete metallic casing.

And the outside of the house is the looks of the house. A well constructed building may be greatly depreciated by lack of painting or by poor painting.

National Lead Company have made it possible for every building owner to be absolutely sure of pure white lead paint before applying. They do this by putting upon every package of their white lead their Dutch Boy Painter trademark. That trademark is a complete guarantee.

YEARS OF IT.

A Dark Picture to Look Back Upon.

John Corey, Constable, Attica, N. Y., says: "From September, 1896, to March, 1897, I was confined to the house, an invalid, from kidney trouble. For months I had tottered about on crutches, a discouraged and despairing man. I was practically crippled with

lumbago. I decided to try Doan's Kidney Pills and a short while after I began using them I was able to walk. After taking seven boxes I threw away my crutches and the lumbago has not returned from that day to this. Through using Doan's Kidney Pills I am to-day a healthy man."
