## Gowns of American Design

IF the new spring styles in gowns are strictly of American design, there is every reason to congratulate their creators. After a study of them one might be pardoned for quoting from the song which bids us heartily rejoice in the strength of our salvation and adding "from foreign-made modes" thereto.

The street costumes are cleverly shaped, comfortable, and clean cut. Their tailoring is a thing of faultless beauty. Skirts are short and just wide and flaring enough for comfort in walking and for style. Jackets and coats are easy and smart, improving the figure which wears them properly. One may have a choice as to length, as they are shown in both long and short models.

Materials are durable, old favorites being to the fore in the smartest garments. Decorations are few and elegant, buttons and straps and the introduction of outside pockets providing most of them. But it is in amazing cleverness in cutting both skirts and coats that this season has distinguished itself above others.

In party gowns skirts are more ample, but made of the airiest fabrics over satin foundations. Bodices are modestly high, and satin bindings are used to finish the flounces and overdresses of net or crepe or chiffon. With all this fluffiness there is a little touch of the austere in the bodice usually.

In the picture given here a street suit of swell shepherd's plaid is shown. Plaits at the sides of both front and back produce slightly flaring panels, the skirt being made up of four of these.

The jacket opens in a "V" at the front, with revers terminating at the bust line and an inlay of velvet which is carried to the high turnover collar.

A strap at each side of the back is finished with a simulated buttonhole and set, with a lone button, to the narrow, shaped belt which defines the slightly high waist line. The cuffs are odd, with the sleeve turned back from a band of velvet and fastened down with a button. The front of the jacket is almost straight, and cut with a dip.

## The Motor Bonnet of Silk

THE motor bonnet of silk continues to stand at the head of the list as the most practical of things designed for the headwear of autoists. From the standpoint of comfort, service, low cost, becomingness, and the ease with which it can be made, the silk motor bonnet has no rival possessing all of its advantages.

There are, however, many bonnets that combine the soft millinery braids, like those of hemp or silk fiber, with silk in their construction, that are just as durable and becoming. By means of the braid the element of novelty in design enters into their composition, but they are less simple to make than the silk bonnets. The latter will not tax the ingenuity of the home milliner at all.

Taffeta silk is the most satisfactory weave to use. Its body gives the bonnet a chance to remain shapely; it sheds the dust easily and it is made in most appropriate and pleasing colors. Patterns by which to cut the body of bonnets are furnished by any of the standard pattern companies. Usually only about a yard of taffeta and a small strip of crinoline are needed, except when plaitings of the silk are used for trimming. An extra allowance must be made for this. Machine stitching, with silk thread, helps out in the finish and decoration of the all-silk bonnets.

The veil of washable chiffon holds its own with the silk bonnet as the best friend of the motorist. Chiffon veils are so essential that they form a part of the design in most bonnets and are always reckoned with, either as a part of the decoration or an accessory.

Several special kinds of hats appear among the spring showings of motor headwear, among them exquisite crocheted hats of silk fiber braid, and patent leather hats. The last are wholly rainproof. But the crocheted hats, and silk bonnets like those pictured here, are not much damaged by rain. When the silk bonnet has served its day it can be replaced for so little money and is altogether so attractive that it is likely to remain a favorite.

**Velvets for Little Girls.**  
Girls from twelve to sixteen are following the example of their elders for afternoon in the wearing of velvet frocks. These usually have overblouses or long-waisted effects, with the top skirt of velvet and the short underskirt of satin or plaited chiffon. A collar of real lace and a satin belt or sash completes a very smart little costume which can be worn without a coat as warmer weather approaches.

**Rice in Pincushion.**  
Rice makes an excellent filling for a pincushion. Take a yard of five-inch dresden ribbon, double and sew into a bag, stitching a quarter of an inch back from the edge along the sides, to leave for a finish. Fill it snugly with rice grains and you will find it keeps its place; even heavy hatpins do not turn it over.

**Soiled White Inexcusable.**  
Clean white will cover a multitude of faults in style and material, but soiled white on a woman is quite as inexcusable as on a man.

## The Shot That Missed.

In controversy it is better to be intellectually honest than to be consistent. In an ecclesiastical discussion that occurred at one of the general assemblies of the Presbyterian church in the United States Doctor Krebs was pressing his antagonist, Doctor Breckinridge, hard with his authorities, and at last, as the New York Times relates, came down on him with this: "And now I will proceed to quote Breckinridge against Breckinridge."

Without rising from his seat, Doctor Breckinridge instantly retorted, "And you could not possibly cite an authority that would have less weight with me!"

**From Mrs. Hornung, Buffalo, N. Y.**  
BUFFALO, N. Y.—"I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak."

"I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day. Everybody is asking me what I am doing and I recommend Lydia E. Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and get health from your medicine as I did."—Mrs. A. HORNUNG, 91 Stanton St., Buffalo, N. Y.

**Made Me Well and Strong.**  
MACEDON, N. Y.—"I was all run down and very thin in flesh, nervous, no appetite, could not sleep and was weak, and felt badly all the time. The doctors said I had poor blood and what I had was turning to water. I took different medicines which did not help me, but Lydia E. Pinkham's Vegetable Compound made me well and strong, and I am recommending it to my friends."—Mrs. FRED CHACE, R. No. 2, Macedon, N. Y.

**The Change of Life.**  
BELTSVILLE, Md.—"By the use of Lydia E. Pinkham's Vegetable Compound I have successfully passed through a most trying time, the Change of Life. I suffered with a weakness, and had to stay in bed three days at a time. Lydia E.
