F. JAMES RICE, POULTRY EX-PERT FROM CORNELL, WILL ADDRESS MEETING.

Review of the Latest News Gathered Around the State Capitol That Will Be of Interest to Our Readers over North Carolina.

Raleigh.

poultry raising is coming in for five whole periods of discussion at the North Carolina Farmers' Convention which takes place in Raleigh; August 14. 25 and 26. The program committee has devoted much attention to the topic and has secured Professor James Rice, a leading authority on poultry in the United States to preside in most of the discussion periods. Prof. Rice comes to Raleigh from Cornell University where he is in charge of all poultry work.

One especially interesting talk that Professor Rice will give is on "Marleting of Poultry and Poultry Prodnets." This question is a live one to the state just now. Then Mr., Allen a Oliver in charge of the Poultry clubs of the state will give a talk on How to Have Eggs and Poultry for the Table the Year Round." In addinon to other talks from practical politry raisers, one entire afternoon will be devoted to the dressing of carcasses and the cutting of meats. This will include the dressing of a beef. hor, sheep, calf and several fowls. The demonstration with the fowls will be conducted over at the poultry plant and will give every one an opportunity to see the work that is now being carried on there. While over there, a chicken will be dressed the mong way in which will be shown the cause of blood spots, bruises and torn places. The proper way will then be temonstrated in which the fowl is mek, bled and dressed as it should k. Time will then be given to the question of properly finishing off a hen in the table. A hen properly finisheland one not fattened will be shown. lifer that the difference in the table malities of the American breeds will be compared to that of the Meditermean in which the kinds and amounts of feeds and the costs of two weeks feeding will be given.

Sheriffs Don't Remit Promptly.

In the office of the state treasurer there is something of a marking of time in the matter of state finances. There is a falling off in remittances of state taxes by sheriffs of the countles and a wait for the corporation commission to certify its assements against the corporations. As soon asthis is done the treasurer will get right after the payment of these taxes. The statement is made that the sherills are not really any more behind with their remittances to the state treasurer than usually at this season

Doughton Will Not Enter Race.

Through friends in Raleigh R. A. Doughton of Alleghany county made the definite announcement that he would not be a candidate for attorney general of North Carolina in the next Democratic primaries. There was little surprise expressed here, where it has ben realized for some time that Mr Doughton did not want to make the race. He would nave had to make 10 small sacrifice to undertake the duties of a state officer and his family were all-strongly opposed to his doing so, insisting that his health would be impaired thereby.

State Campaign Against Hay Fever.

The state board of health has just issued a bulletin in which it espouses the crusade against rag-weed and goldenrod on the theory that the polen hay fever to those susceptible to the disease. The bulletin recommends that people who have a natural tendency for hay fever should stay away from neglected fields and places where these rag-weed and goldenrod grow.

Will Fight Tick With Bill Posters.

Special from Washington-The department of agriculture is beginning a bill-poster campaign against the catthe tick in the south. In every federal building throughout the tickridden territory colored posters crying "Dip the tick"-will greet the caller. "Dip the tick" signs will hang in postoffices, customs buildings and elsewhere. The purpose is to get rid of the little pest that causes the south an annual loss of \$50,000,000.

"'Dip the tick!' is the clogan which the department has adopted for a special campaign against the cattle tick in the south," said a bulletin issued this week. "Blazoned in big letters this legend will stand out in startling relief upon a two-color poster which the department proposes to display in every postoffice in the tickinfested country. It is intended to make this catch phrase as familiar and as effective in the South as the now famous slogan "Swat the fly."

"This poster is one of several novel features which the department is to employ to push its work for the eradication of the pest that costs the south \$50,000,000 a year. Various circulars and leaflets, profusely illustrated with half-tones, cartoons and diagrams, are being prepared to drive home to the farmer the damage the tick is doing and to preach the doctrine of the arsenical dip. Some of these are printed in two colors and all of them have more in common with the attractive circulars used by wide awake commercial firms in pushing their goods than with the quiet and often austere bulletins that ordinarily come from the government
