

THE ENDLESS CHAIN IN THE WAR REGION

This photograph taken along a road in Poland illustrates the dramatic tragedy that occurs every day in Europe—a divided road; on one side, ablebodied, vigorous men marching to the front; on the other, Red Cross ambulance trains toiling toward the rear laden with broken bodies. So long as the first line moves forward, the second line also moves—to the rear.

SHELLS FOR THE GREAT FRENCH OFFENSIVE

This photograph of great stores of shells, which has just reached America, gives some idea of the preparations made by the French for the recent offensive in the western war zone. The picture was taken near a hidden battery.

DISTINGUISHED GUESTS AT BALL GAME

President Wilson and Mrs. Galt, his fiancée, were given a great reception at the Philadelphia ball park when they appeared at the second game of the world's series. In the photograph at Mrs. Galt's left is Mayor Blankenburg.

WOMEN HELPING TO DEFEND RIGA

Russian peasant women digging trenches for the defense of Riga, the Baltic seaport which the Germans are trying hard to capture.

MEXICANS FORFEIT LIVES FOR ROBBERY

TEN BANDITS ARE KILLED BY CITIZENS WHO HUNT FOR MORE.

THREE CIVILIANS ARE KILLED

Passenger Train is Derailed by Seventy-Five Mexicans Who Shot and Robbed Passengers.

Brownsville, Tex.—Ten Mexicans paid their lives for alleged complicity in the wrecking of a St. Louis, Brownsville & Mexico passenger train on the outskirts of Brownsville, the killing of three Americans and the wounding of four others. Peace officers said they had clues to other Mexicans connected with the robbers. No secret was made that more would be killed if civilians possess catch them.

Several hundred civilians, county peace officers and United States troops continued in pursuit of other members of the band.

After wrecking the train the outlaws, said to number about 75 men, fired on the passengers and robbed them of their money and valuables. The passengers killed were:

Corporal McBee, Third United States Cavalry; shot.

Engineer H. H. Kendall, pinned beneath engine.

The injured were: Harry J. Wallis, Brownsville, shot in arm; R. Woodhall, fireman, scalded and bruised; Claude J. Brishear, Troop A, Sixth Cavalry, shot in the jaw; C. H. Lay, Troop D, Third Cavalry, shot in neck and leg.

Only meager reports of the killing of the Mexicans were available. One of the men was a passenger aboard the train and he is said to have revealed the hiding place of Dr. E. S. McCain. When the physician refused to leave the compartment in which he had taken refuge the bandits opened fire through the door, mortally wounding him. Sheriff Vann denied that the Mexican was killed, but it developed later that he was shot to death after the sheriff left the scene of the wreck. Four other Mexicans were hanged to trees at various points during the day and the others were shot.

The bandits removed the spikes from a rail and lying concealed in the nearby brush jerked this rail from under the nose of the engine with a long heavy wire. The engine, baggage and mail and express cars left the track. The day coach and smoking car remained on the rails. No Pullmans were carried and few passengers were aboard.

WOMEN LOOSE IN NEW JERSEY.

Suffrage Amendment Defeated By More Than 50,000 Majority.

Jersey City, N. J.—Indications based on unofficial returns shortly before midnight were that woman suffrage would be defeated in New Jersey by from 50,000 to 60,000. A majority of 23,671 was recorded on unofficial returns from 804 of the state's 1,891 districts, the vote being 56,676 for and 80,347 against the amendment.

The defeat of woman suffrage in New Jersey was conceded by Mrs. E. F. Feickert, president of the New Jersey State Woman Suffrage Association. Her admission was borne out by unofficial early returns from every section of the state which indicated that the majority against suffrage was decisive.

President Wilson's own precinct, the seventh election district of Princeton borough, voted against suffrage by a majority of more than 2 to 1, the figures being: For 64, against 150.

Seven Killed in Collision.

Oklahoma City, Okla.—Seven persons are dead, two fatally injured and about eight other badly hurt as the result of a head-on collision between Chicago, Rock Island & Pacific southbound train No. 11, and a northbound freight train 12 miles south of Chickasha.

Editor Kills Another.

Purris, Miss.—W. A. Blackburn, editor of The Star, was shot and killed here and Dr. Samuel E. Reese, editor of The Purvis Booster is held in the local jail charged with having murdered Blackburn. The shooting, it was said, followed an argument between the editors of the rival papers over the contract for printing election ballots for Lamar county. After the shooting which took place in the sheriff's office in the Lamar county court house, Reese surrendered to the authorities.

Wilson Votes For Suffrage.

Washington.—President Wilson returned to Washington from Princeton after casting the first ballot ever given a chief executive of the United States in favor of woman suffrage. The president's brief visit to his legal residence was marked by a more enthusiastic welcome from the Princeton students than ever before had been given him in any of his numerous trips there since he entered the White House. The young men gave noisy evidences of their approval of his stand on the suffrage question.

MEETS HIS SON AT FRONT

This photograph, taken within 700 yards of the German trenches, shows a chance meeting of General Dubail and his son, who commands a regiment of chasseurs.

Searchlight's Use in War.

The electric searchlight is now considered as essential to an army as a battleship, says the American Boy. All the armies of Europe have portable searchlights, the French having brought them to an especially high degree of perfection. The field searchlight is usually carried on one motor truck and the generator on another, a quick connection being made by means of wires. The searchlight may be placed in a most exposed spot and both operator and generator kept in a sheltered position. The light may be automatically controlled from a distance, and thus though the enemy center their fire on the light the operator is not endangered. These field searchlights are fitted with 38-inch reflectors and throw a beam of 7,000 candlepower. These searchlights will illuminate objects at distances of a mile and over.

Avoiding Melancholy.

Melancholy is due to a congested condition of the liver and other organs, depriving the brain of the blood necessary to keep up the normal balance of activity. When one is tired or feels the dejected feeling coming on, relief can be obtained by lying on the floor with a pillow under the middle of the back and taking a few long deep breaths.

If the arms are thrown over the head and a dozen deep breaths are taken, a new spirit will come into the brain. Sometimes this is done automatically as when we throw up the arms and straighten up after a crouching position at a desk.
