## BAPTIST HOSPITAL DAY

Next Sunday, Mother's Day, is the time set aside for a worthy offering to our Hospital. The charity work of this Institution, located at Winston-Salem is wholly supported by this once a year offering. So you come and bring or send a liberal amount for this. Every church member should feel it their duty to have a part in supporting the various

causes that arise from time to time, when it's so you can.

Help your unfortunate neighbor: on last Sunday we raised a goodly amount and gave to one of our families who recently had much hospital expense. We want to make up a liberal amount next Sunday for another of our families who need our help; in addition to the offering for our hospital.

J. Y. Lassiter, Extension horticulturist of State College, says that growers make more money when they produce quality products, and grade and pack them acceptably.

## Change In Gasoline Issuance Procedure

Beginning May 3, 1945, all gasoline rations, with the exception of medical and furlough rations, will be issued and mailed from a mailing center in North Carolina. Therefore, all applicants for gasoline must file their applications with the Local War Price & Rationing Board, Smithfield, North Carolina, at least 10 days in advance of the date the rations will actually be needed. This filing of applications in advance is necessary in order that the Board can process and send the necessary information for mailing to the mailing center. Otherwise, the applicant will be delayed in the receipt of his ration.

In order to assure correct mailing of rations, applicants should be sure the correct address is placed on the

Mileage Rationing Record sheet. The old 1944 license number should be marked through and the new 1945 number entered just above.

## CANNING SUGAR

Most of the canning sugar applications from the schools of Johnston County have now been received by the Board. Processing and issuance will begin immediately. This procedure will go on over a period of from three to four weeks. No applicant should make inquiry either by letter or in person during the next four weeks, as to why he hasn't received his ration. If applicants should make inquiries during this specified time, it would delay issuance.

Medium-sized eggs are as good a buy as large eggs of the same grade when they are one-eighth cheaper. Small eggs are as economical as large eggs when they are one-fourth cheaper.
