HELPFUL INFORMATION
How To Prepare Your INCOME TAX RETURN on Form 1040 for 1962

Letter to Taxpayers
If you are one of our Nation's present taxpayers, you know you pay for the services you receive. You also know that the Government is the largest employer in the world. It is our duty to pay our share of the cost of the services we receive. We must pay our share of the cost of the services we receive. We must pay our share of the cost of the services we receive.

SUPPOSE YOU COULD DECIDE, TONIGHT, just how the government should spend your tax money. You would certainly want it used to keep America's defenses strong. But is there any point in having it spent needlessly, in other fields? Some people want the federal government to pour a lot of your tax money into more electric plants and lines. This is unnecessary, because the investor-owned electric light and power companies—like this one—can supply all the additional electric power a growing America will need. Why should anybody insist on using your money for a job that can be done without tax spending?
