## Colored News

The Magnolia Colored Home Demonstration club was called to order, March 7, at the home of Mrs. Gertrude Pearsall by the president. The meeting opened by singing, "Let The Lower Light Be Burning" followed by the club collect in concert. Minutes of the previous meeting were read and approved. There were seven members present.

The treasurer reported a balance on hand of \$14.89. The meeting was then turned over to the project leaders.

Mrs. Mabel Raines gave a very helpful report on Gardens. Leaders to bring in reports next month will be Mrs. Gertrude Pearsall on Home Poultry and Mrs. Louise Bass on Foods and Nutrition. Some of the members brought some nice aprons they had made.

It was agreed to give two dollars to the Home Demonstration County Council for refreshments to be served at the dedication of the Extension Building, March 31st. Each member was also asked to have their money turned in by March 14 for the State Council meeting at Raleigh State Fair Arena March 27. Fare is \$2.50 per member.

The meeting adjourned the hostess Mrs. Gertrude Pearsall served tuna salad on lettuce, ritz crackers, daughts and coffee.

## A. S. C. S. NOTES

Newsletter No. 10 Duplin County ASCS Kenansville, N. C., March 22, 1963 To: Committeemen, Businessmen, Vendors, and Other Agricultural Agencies From: Rufus Elks, Jr., Office Manager

Wheat Program Offers Small Growers Choice

Farmers with allotments of less than 15 acres will continue to produce their historical share of wheat as provided by the 1964 wheat program according to O. L. Holland, Chairman of the Duplin ASCS County Committee. The new legislation enacted last fall recognizes the contribution of such growers to the Nation's supply of wheat. This legislation is of tremendous importance to North Carolina as practically all of the wheat grown has been on farms with allotments of less than 15 acres. In 1963 there were 24,330 wheat farms in North Carolina and only 2,261 of these farms had allotments above 15 acres.

As explained by Holland, each farm will have an allotment based on the larger of one computed from the avg. wheat acreage (up to 15 acres in the 3 years 1959-61 or the regular allotment. Wheat grown on farms without a wheat history in these 3 years will be subject to a marketing quota penalty in 1964.

The new wheat program will offer two choices to the farm operator with a 1964 wheat allotment of less than 15 acres:

(1) He may choose to participate in the program as an allotment grower, in which case he will be eligible to vote in the wheat referendum, will qualify for price support, and will receive his share of the marketing certificates. (The certificates will provide a higher rate of price support and will be available on about 80 percent of the normal yield on the allotted acreage. A lower rate of support will be available on the rest of the wheat produced on the farm.) A small grower will also have the opportunity to divert all his allotment to conserv-

ing uses at the high 50 percent rate. (2) He can stay out of the program, and plant wheat up to the larger of his 3-year base or his 1964 allotment. Marketing quota penalties will apply to wheat in excess of this limit. He will not be eligible to vote in the referendum. He will receive no price support. He can sell his wheat at the non-certificated wheat market price, or as seed or feed, or use it in any way that he likes.

Holland pointed out that these small operators with wheat allotments of less than 15 acres will be asked to register their choice at the ASCS county office at least 7 days prior to the time the wheat referendum is held. This will be within 60 days after proclamation of the National wheat marketing quota, which will not likely be announced until late March or early April. The program will become effective if at least two-thirds of the growers voting approve the program.
