# CORN GROWERS!

## Get sure control of BILLBUGS with aldrin

When billbugs attack—corn stands can be so reduced that there are no profits to pay for the seed. You can avoid serious billbug damage by knocking them out before they get started—with powerful aldrin.

At the first sign of infestation, simply broadcast aldrin on the soil, then disk it in. Or, you can combine aldrin with fertilizer and apply both in a time- and labor-saving application. Aldrin is economical too. Small dosages per acre give you outstanding control.

This season, beat billbugs to the punch. Use powerful aldrin. Be prepared—get your supply today.
