**INTRODUCES A NEW KIND OF VINYL FLOOR WITH THE FEEL OF FINE LEATHER LURAN REGENCY**

You won't believe it until you touch it yourself! A new luxury vinyl that feels like fine leather. Wonderfully warm underfoot, too.

Luran Regency can be installed in any room in your house, even on basement floors. What's more it's embossed to give it a lush luxury look that also conceals most accidental indentations... even high heel marks. Luran Regency costs less than many other luxury vinyl floors. Let us install your Luran Regency vinyl floor wall to wall with seams welded water tight, dirt tight, spill tight!

**Now is the time to get endrin for effective, low-cost control of all major tobacco foliage pests.**

**T**obacco foliage pests just don't have a chance when you use endrin. It gives you sure-fire control of hornworms, tobacco budworm, fleabeetles, grasshoppers, and cutworms. Here are the details:

**Powerful:** Endrin is so powerful, that less than a half pound per acre controls the toughest insects.

**Long lasting:** You can usually count on an endrin application to protect your tobacco for a week—sometimes longer. Growers find that with endrin, they make fewer applications, save time, labor and money.

**Easy to use:** Endrin is easy to use. It comes as spray and as dust. Both are applied with standard application equipment.

Be ready for foliage insects before they strike. Come in or call us for your supply of endrin today.

**TOTAL PERFORMANCE:**

**IF YOU KNEW WHAT HE KNOWS...YOU'D BE DRIVING THE 1963 TOTAL PERFORMANCE FORD**

Ford is traditionally the nation's Number One police car. The reason: Total Performance!

When it comes to cars the police don't take chances. Put yourself in a State Trooper's shoes. Every day you must patrol hundreds of miles in your cruiser. Mileage and time grind into a man and his machine, but when the bell rings you've got to be ready. Chase. Turn. Corner. Quick stop. You've got to be able to do it all if you're going to do your job.

Listen to a trooper list the reasons why he prefers a Ford and you realize how difficult it is for any car to measure up to his standards. The car must be strong... it has to stand up to big mileage. It must be silent... when you practically live in a car a rattle can sound like a kettle drum. It must be swift... powerful enough to catch any car on the road. It must be sure... dependable even in the face of the unexpected. Strong. Silent. Swift. Sure. A four-word outline of total performance. The police demand it. That is why they choose the total performance Ford. Why should you settle for anything less?

Whatever your special demands and needs, the total performance Ford is the car most likely to satisfy you all the way down the line. You can prove this for yourself.

First, look at Ford's astounding record in open competition this year in the grueling Daytona, Riverside and Atlanta 500's, and in the demanding Pure Oil Performance Trials. Only a car with total performance could roll up so many impressive wins.

Second, before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery—if it's built by Ford, it's built for performance... total performance.
