## Plan Duplin To Vote On Will Spread Over State

(From Goldabere News-Argus) Duplin County voters on June 1 will vote on establishing a county industrial and agricultural develop-

The county will decide at the polls if a special levy not to exceed five cents of the \$100 property valuation is to be levied to finance promotion of agricultural, industrial and general development. In other words Duplin will decide at the polls if it shes to authorize a system which will inaugurate and continue permanently a system for industrial and agricultural progress.

The vote on June 1 was called for by leaders of the county who canvassed how to push their county -a head industrially as it has advanced in farming. The men from all sections of Duplin had agreed that the future requires more industrial jobs, more exable values on the books, more jobs, and a higher average pay if progress is to be made, if jobs are to be provided for those being dis-

placed by farm automation,
The study led to a petition to the
County Commissioners for an act in the Legislature authorizing the vote.

The action came quickly. It was only a few weeks ago that Commissieners asked the Duplin legislators to get a local bill passed. And even before the date for the vote had been

> Say Lady. . .

set Duplin had completed all details for holding the election and for im-plementing the plan if it gets ap-proval. A Council to go ahead immediately has been formed. Voters almost certainly will give broad approval at the polls.

Whether the system, a good one, brings new businesses will depend to a large extent on the man who is secured as executive director. Needed is one of experience and training in industrial development, one who has broad contacts in industry and one who can work well with people.

Union County was one of the first, if not the first, county to vote in the system now before Duplin. In the course of a few years Union brought in a number of new plants. Then a difference developed between the commissioners and the Development Council and the progress was handicapped. More recently differ-ences seemed to have been aired out and a new start made.

Several other counties already have adopted the plan by vote. One of these is big Robeson. Reports have told of new businesses going to Robeson as a result of the system.

It is only a matter of time before the county system of financing a development bureau will be the accepted system. Duplin is getting in on the ground floor.

A dishwasher cleanses and sanitizes all dishes far better than you china. Special cycles and controls
can do when washing by hand because the water used is much hotter than human hands can stand ter than human hands can stand 140" - 160" F. The powerful surge
of water, a detergent especially
made for the purpose and repeated
washings and rinsings plus drying
without the contaminating touch of
a dishtowel all combine to give
germ-free sparkling clean results.
The family's health is protected by
using a dishwasher because the a dishtowel all combine to give germ-free sparkling clean results. The family's health is protected by using a dishwasher because the dishes are close to 100% free from disease spreading bacteria. There's and elbow grease.

The more powerful water action make it unnecessary to pre-rinse dishes by hand, You merely scrape food off the dishes as if preparing them for hand washing, them put them in the dishwasher - it does the tense for the homemaker, for areas your energy, keeps you setting over-tired, nervous tense. This means you have tense to spend with your fammer time for dad, the child-hotbies or just those few prechainings. The modern dishwasher will hold approximately a dozen place settings-some as many as 14-which means that for daily use, the average family can wash the entire day's dishes in one load or it can handle all the dishes for a lorge minutes every homemaker party.

Pots and pans may be washed at the same time as china and glassware. When you have a large number of guests, the coking utensits can be washed during the meal and be ready to put up by the time the meal is finished, then the dinner dishes can go right into finish the job. You can be a cool, collected hostess, free from the thought of those dirty dishes that would be waitin gfor you if you didn't have

hext meal.

It can be a big time saver in percedure, but he was a little disother ways. Dishes which are selturbed that they didn't mention domused accumulate dust but the no mustard and catchup stored to dishwasher eliminates the problem. Just put them in dishwasher, set it on the last rinse cycle and they'll be rinsed and dried with never a worry about breaking since ther's no chance to slip through soapy hands

hands.

The new built-in undercounter dishwasher and the plug-in portables are better than ever, with many improvements that make them real worksavers. If there's no room for dishwasher installation, the new portable now comes in a wide choice, at lower prices then ever and requires no special plumbing. It's light in weight, rolls easily and does a washing job equal to any built-in model. It can be rolled to the table to cellect dirty dishes, then to the sink and attached faucets easily for washing and right to cabinets for putting away. The

HISTORIO PLANT STE-Site of Carolind Power & Light Company's proposed Raxboro steam-electric plant and lake is rich in history. At top left CRGL Raxboro Manager J. C. Maultsby and survey foreman D. B. Farlaw stand at the site of the plant near the Hyco River, a locale known in the early days as the "Big Woods." At top right, Mrs. Carolina Winstead, post-master, stands in the doorway of the log post office at Semora She is a fifth generation descendant of Presbyterian Missionary Hugh McAdes, identified in the marker at lower left. At lower right Farlow and Maultsby look at wooden gear, teeth at historic McGhee's grist mill, which began operation on the Myco prior to the Civil War.

for just recently I had the opportunity to see the last church he founded and to visit his grave nearby.

His grave is at the Red House Church near Semora in Person County. An historic marker identifies the location and cites his role January 20, 1781."

Solomon was a very wise man.
He was not "taken in" even by
the wiles of the beautiful Queen
of Sheba. There is as old story
about Solomon and the Queen,
not found in the Bible, but still
quite characteristic of the great
King.

It is said in the legends of the East that the Queen of Sheba once sent Solomon two huge bouquets sent Solomon two huge bouquets of roses (for once the woman sent flowers to the man). One buquet was made up of artificial flowers so cleverly formed and scented that it seemed no one could tell them from the genuine article. The other bouquet was the real thing. In her cry way, she defied the King to tell which was real

Solomon found a way to do it. He simply opened a window and let in a swarm of bees hunting honey in the palace garden. They buzzed into the room, and went at once to the real roses. They knew the difference between the real and the artificial.

Do you think God can be de-ceived in our worship, that he is less intelligent than the bees? Does He not know sincere wor-ship as destinct from the insincere? Do you every try to deceive Him as you pray? Did you ever try to hide anything? Ever put up a false front? Ever pretend? Do you think you ever fool him?

## Highway Bids To Be Received

RALEIGH-A total of twenty-three highway construction projects are included in the official call for bids issued by the State Highway Com-mission recently. Seeled bids on these projects will be received by the Highway Commission on Tues-day, May 29, at the Highway Audi-torium in Raleigh, no later than 10

Duplin projects are:
DUPLIN - 1,576 miles grading,
base course, concrete base, binder,
surface and structures on NCC 11
from US 117 at bridge over Rockfish Creek, northerly to a point south of NC at Tin City.

Deep callett unto deep, Ps. 42:7
Our religion can be deep and narnow like a river or it can be broad
and shollow like a swamp. It should
be deep and broad like the ocean.
A challow create produces to the land A shallow creek produces tadpoles

The Scripture calls on us to know the depth, the height and the bread-th of the love of God. We are sup-posed to know as much about the the wicked know about the cunning and the debauchery of the devil.

Sin is deeper than mere act and our religion must be also. Resentment, hate, envy, prejudice must be met with love, broad-minded sympathy, inspired imagnation and holy boldness.

We preachers baby our spiritual children so much that they are content to remain babes in Christ. Most of their religious language is a call for attention.

cording to the Law, his benefits will still continue another three months, this is, to the end of a 12-month period. This provision of the Law is intended to encourage disabled workers to attempt to resume working where possible, without a threat of losing their social security payments immediately.

For further information, contact your Social Security District Office at 311 E. Walnut Street in Goldsboro and ask for a copy of Booklet No. OASI-28, "If You Become Disabled." This pamphlet describes in detail your rights as well as the requirements necessady to quality for lenefits under the Disability Provisions of the Social Security Program,

More than 360,000 doctors, nurses and dentists were trained under the GI Bill of Rights, according to Veterana Admiriatration figures.

Of the six million GI home loans guaranteed by the Veterana Admiristration, more than 34 percent have been paid in full.

Deliverance Lesson for May 19, 1963

man in deen treatile and they you have a man in gence and prosperit and there you have a man of blameless life.

What and promises

There are places in the Old Testament (none in the New) where the idea just described seems to be found. But in the first place, this Paalm 21 which seems to promise a charmed life to God's people is a peem, and poets are never matter-of-fact. In the see ond place, this poet mast have been acquainted with some of the more ugly facts of life, and indee from his own writing we can a that he did not shut his eyes all the evils in the world, A paof this poem, often overlocked, at the end (verses 14-19). For the piled-up promises of God the spoken, three call for special
