Trial & Error

In running in and out of Duplin General hospital this week to see my mother, I have run into some lovely ladies, and have enjoyed talking with them. A Mrs. Thigpen of Beulaville went up there last week with pneumonia and while there a gall bladder disturbance occurred. Mrs. Kennedy told me that she is 79 years of age and she is very happy and spry. So I asked her what she did when the doctor told her she had to have a gall bladder operation? She answered promptly, "I told him to go ahead with it while I was young, I didn't wish to have to bother with it when I got old."

Also in the hospital was Mrs. Carl Sloan who was a lovely person from Chinquapin. She had been walking across a gully beside the

Return Library Books, Please!

By: Nell West

On one of my visits to Miss Dorothy Wightman, County Librarian, we discussed the issue of books being taken out and not returned. It seems that Miss Wightman, who is doing a wonderful job managing the Library, has cards of books that have been checked out for over a year. The longest period of time has been 10 years!

I want to take this opportunity to stress upon you the importance of returning the books on time. It is very inconvenient for Miss Wightman, and others who may be interested in a certain book, not to be able to find it in stock. So please return the books that you have borrowed from the County Library and give others the chance to enjoy them as you have.

Governor Sanford Urges Try For Understanding

I call on all citizens of all races to help avoid strife, ill will, danger to life and property, and damage to our State of North Carolina.

The Negro citizen by his demonstrations has delivered the message that he is not content, that he has a burning desire to break down the barriers which prevent his normal passage and patronage in places open to the public, that he has a determined discontent with a situation which denies him many of the opportunities, freedoms of choice, and privileges which are afforded as a matter of course to other citizens. Anyone who hasn't received this message doesn't understand human nature.

But we have had sufficient demonstrations.

I cannot and will not allow the situation to degenerate to the point of mob against mob, citizen against citizen, force against force.
