Duplin Country Club, Inc. To Open Swimming Pool & Tennis Court Ready

The long awaited day is about to arrive for members of the Duplin Country Club, Inc. President Hugh Carlton stated this morning (Saturday) that the Swimming Pool and Tennis courts will be opened next week, it is

hoped by July 4, and members anticipate that the golf course will be ready for play, August 1. Construction has been started on the Golf Shop and it is expected to let the contracts on the club house within the next week or ten days.

The Duplin Country Club, Inc. was a dream which was started about a year ago. Now it is nearing completion. The membership of the club is composed of families from Warsaw, Kenansville, Pink Hill, Magnolia and Faison.

Production Credit Assn. Directors Attend Annual Conference In Asheville

"The need for more capital in agriculture is continuing," according to Eugene R. Carlton, president of the Duplin Production Credit Association, who has just returned from Asheville, N. C. where he attended the annual conference for directors of production credit associations on June 17 and 18, 1963. Reports at the conference indicated that the use of capital using technology and reorganization of farm units for efficiency is continuing. This continues to increase the size of farms, and change the structure of agriculture and the character of individual farm units in many ways.

Other officials of the Duplin Production Credit Association attending the conference included Mr. Arthur Kennedy, vice president of Beulaville, N. C.; for Mr. Woodrow W. Maready, director, of Chinquapin, N. C.; Mr. L. P. Wells, director, of Mt. Olive, N. C.; Mr. Taft Herring, director, of Mt. Olive, N. C.; Mr. Garland P. King, Secretary-Treasurer, of Kenansville, N. C. and Mr. Fred Albertson, Assistant Secretary-Treasurer of Beulaville, N. C.

The beautiful wooded area on which the country club is located is on rural paved road between Kenansville and Unity Church and is easily reached by all of the communities. The land was donated by Davis Evans. The finished club will have a nine hole golf course, a large and small swimming pool, tennis courts and the club house will soon be started.

Lauren Sharpe Completes Course Municipal Fire

LAUREN Sharpe, chief of Kenansville Fire Department has completed a two-week training course on Municipal Fire Administration at North Carolina State College.

The course, conducted by the Fire Service Training Division of the North Carolina Department of Insurance in cooperation with State College's Division of College Extension, covered a variety of problems which are of particular interest to municipal fire departments.

Hospital Installs New Generator

The Duplin General Hospital has recently purchased a 30 kilowatt gasoline-powered generator through Government Surplus program of North Carolina.

It is expected that this generator will be used to power the hospital elevator in times of emergency. The present generator has only sufficient power for the emergency room, the operation room and various lights throughout the hospital. With this new installation, the hospital will be almost self-sufficient during emergencies such as storms and hurricanes.

Beulaville National Guard Unit Returns From Two Weeks Training

The history of the National Guard and its annual two weeks of active duty training has changed drastically in the past 20 years. Oldtimers who served in the Tar Heel Guard prior to World War II often express disbelief at the tales told by the modern Guardsman who returns from Front Bragg. They recall, too well, their 15 days of leisure training, recreation, fellowship, and an enjoyable time had by all.

Today's counterpart finds time for some recreation but for the most part it comes late in the afternoon. The individual often chooses to relax and rest from the day's hard training. By the time he is ready for organized games - horseshoes or volleyball - the daylight is fast leaving and he prepares for the next day's training.

With the 15 day training now past its halfway mark the company will continue to seek high inspection grades on its administration, kitchen, training, and all phases of duty.

Warsaw AA Changes Meeting Night

The Alcoholics Anonymous organization was organized in Warsaw in November 1954. It has met since continuously on Tuesday night. There are four original chartered members still in the group and all four have continued sobriety.

Overlooked, but certainly not forgotten by the 69 members of the company, will be pay call. They will receive full pay and allowances equal to Regular Army for their two weeks. It will be a very small number who present themselves, collect the dollars and silver, and walk away telling himself how easy it was to earn the money.

The rifle platoon, under the direction and leadership of Lt. Richard McDowell, patrol the trails in a surprisingly realistic manner, being attacked by guerrillas fighting a small brush battle and either losing or winning depending upon the events of each fight.

Kenansville Gets Zip Code Number

Our five-digit ZIP Code is 28349, Postmaster A. C. Holland announced today.

"Everyone in Kenansville, N. C. will use this ZIP Code on all their correspondence to speed mail deliveries and reduce the chance of misdirected mail," Postmaster Holland said.

Postmaster Holland stressed the importance of all citizens of Kenansville, N. C. learning this city's ZIP Code and using it in their return address on all correspondence. In answering mail, he said, ZIP Codes taken from return addresses on incoming mail should be used.

Johnson Attended Annual Meeting Technologists

Mr. Cordell Johnson, President N. C. State Society affiliated with Duplin General Hospital is one of 650 registered medical technologists receiving latest advances in laboratory techniques at the 25th Annual Convention of the American Medical Technologists here.

The theme of this Silver Anniversary meeting is "Medical Technology and the American Medical Technologist". With Education being the Key to A. M. T. Progress, the Scientific Seminar features noteworthy scientists, whose contributions to the health of humanity have been hailed universally.

William Boyd, M. D., author of numerous textbooks, will outline the development of knowledge of Cellular Pathology; I. Newton Kugelmas, M. D., Ph. D., Editor of "American Lectures in Living Chemistry and Biochemical Clinics" will present "Mechanisms of Hemorrhagic Disorders in Children." Gerald R. Cooper, Ph. D., M. D., of Communicable Diseases Center in Atlanta, Ga., was the recipient of the American Medical Association's Hektorn Award in 1962 and the Billings Award in 1963. His subject will be "Clinical Electrophoresis." Morris Goldman, M. D., 1962 winner of the Kimble Fellowship award, will speak on "New Techniques in Hematology."

Industrial Growth Reported Steady

Industrial expansion announced during the first half of the year reflects a "steady economic growth" in the two-state area served by Carolina Power and Light Company, according to Dan E. Stewart, CP&L vice-president in charge of area development.

Since January, industries have announced plans to spend more than \$44½ million on new and expanded plants in the company's 30,000-square-mile system. This growth is expected to create 5,770 new jobs and \$16,836,700 in new annual payroll, Stewart said.

"While figures for this year are running below last year's record (Continued on Page 2)

Freedom Is A Hallowed Cause

(Reprinted from the FBI Law Enforcement Bulletin, July, 1963)

IN OUR NATION, freedom is a hallowed cause and rightly so. It is the topic of high-level conference Congress enacts legislation to protect and preserve it. High school students write essays on it. Most Americans can tell you what it is. Few, however, stop to consider the one thing it is not. It is NOT FREE.

Since 1776, thousands of Americans have paid the supreme sacrifice bravely and without question so that freedom might reign in our land. Our country has never failed to meet the price demanded of a nation besieged from within or without by enemies of democracy. For true Americans, the cost of freedom is never too high.

Sacrifices which citizens are called upon to make today are small indeed when compared with those of our forefathers assembled in Philadelphia 187 years ago. Yet, we see "patriotic" backsliders shirk their responsibilities to their country at every opportunity. Through lethargy or indifference or because it is considered "boorish" in some circles, certain segments of our society ignore civic obligations, nimbly skirt jury duty, snub public service and avoid situations which require their participation as witnesses. They "stand" for, or against, many things, but are responsible for none. They are deadheading on democracy at the expense of their fellow man.

Ours is a system of government by law. The Nation's welfare, progress and security depend on effective enforcement of law. Presumably, there should be no question as to where the public's sympathy lies. However, many local law enforcement officers and representatives of Federal investigation agencies daily feel the sting of citizens' refusals to help in matters involving the safety of their own communities or the security of the country. Some so-called intellectuals and misguided theorists, who view the world through a rosy haze, are affronted when approached by representatives of duly authorized governmental organizations carrying out their proper functions. Contemptuous and uncooperative, these persons consider investigative and security inquiries to be ridiculous. Their sense of duty is contaminated.

When the ranks of decency and morality in America grow thin and listless, crime and other sinister forces flourish. During 1962, over 2 million serious crimes were reported to police, a 6 percent increase over 1961. A major cause of this increase is public apathy, a refusal by our society to face reality. The time may be near when the public must actively support adequate and effective law enforcement or be overwhelmed by a criminal jungle. Mere lip service will not suffice.

The path of patriotic and civic duty leads to personal glory for only a few, but it does lead to the survival of the American way of life - liberty, freedom and the pursuit of happiness. The task is a common cause. There can be no exception for special interest groups or laggards.

As we observe Independence Day, Americans who are prone to shirk their responsibilities to our great Nation might think about these things - to oppressed people who cry out for freedom, the responsibility of preserving it would be a privilege, not an inconvenience.

Car Lands In Used Car Lot, Damages New Car And Four Used Cars

One new car and 5 used cars were damaged on the Used Car Lot of Duplin Motor Company in Warsaw Friday afternoon by a car owned and operated by Charles Durewood Dempsey of Wallace.

Dempsey was operating a 1963 Pontiac, driving North on U. S. Highway 117 in the edge of Warsaw. According to reports he applied the brakes to one side and the car skidded from one side of the road to the other before landing in the used car lot. As he went on to the lot, the car pulled poles out of the ground and knocked wires and signs down. Dempsey was charged with careless and reckless driving.

Dempsey was arrested for disturbing the peace and put in the Warsaw jail where he was later released under bond. Damage to the cars at Duplin Motor Company was estimated roughly at \$5000.

Trial & Error

CHANGING TIMES says "This world won't be quite perfect until the man who builds up the jackpot gets as much publicity as the fellow who hits it." Also "If the best things in life are free, how come we have to pay so much for less than the best?"

The N. C. State Motor Club predicts that at least 20 persons will meet sudden death in traffic accidents on North Carolina streets and highways during the long July Fourth holiday, which signals the start of an "open season" for highway slaughter that has been increasing each year.

During the 1962 summer season, July, August and September - 362 motorists were killed on the state's highways during the three month period as compared with 314 in 1961, an increase of 48 or 15 per cent, while 9,648 were injured in 1962 as against 9230 in 1961, up 418 or 5 per cent.

The state will count its highway fatalities from 6 p. m. Wednesday July 3, through midnight Sunday July 7, to conform with the National Safety Councils practice of counting it a four-day period when the holiday falls on Thursday.

Well my grandson will be here for the holidays. I will try not to act like Alice Elks and spoil him rotten - you should hear the things she says her grandson can do. And I couldn't brag a bit as mine is coming home and might show me up to be a real grandma, who tells tales.

Public Speaking: Lois Ward, white ribbon. Anthony Westbrook, red ribbon. Tractor operator: Frederick Rouse, red ribbon. Wildlife Demonstration: Anthony Westbrook, blue ribbon.

At District Demonstration Day

Duplin County 4-H'ers had three district winners at the Southeastern District Demonstration Day on Wednesday at Raeford.

Mary Alice Thomas of Magnolia won two of them. They were the District Dress Revue and the District Sewing Demonstration. Linda Dianne Smith won the District talent award.

Mary Alice Thomas Wins 2 District Awards; Linda Smith Wins One

They will compete for state honors during 4-H Club Week at State College during the week of July 22-27. Competition will be with 59 other district winners.

49 4-H'ers and parents attended District Demonstration Day as also did Mrs. Lois Britt, Mr. Marion Griffin, and Mr. Snodie Wilson. Other participants from Duplin and awards won were: Dairy Food Demonstrations: Martha Bradshaw and Stella Wells, second in District. Dairy Management Demonstration: Tony Wilson, red ribbon. Entomology Demonstration: Anna Lee Hawes, red ribbon. Farmer Cooperative Demonstration: Pat Rouse and Martha Bradshaw, blue ribbon. (These demonstrators were coached by Garland P. King.) Fruit and Vegetable Marketing: Bobby Goodson, second place in district. Poultry Barbecue: Clara Bell Dunn, red ribbon.
