## Renfro, Barnes Say Liberty Is Ready

Carl B. Renfro, Owner and Operator, says that his Liberty Warehouse in Wilson has maintained a unique standard in sales and service to the many customers who patronize the business. To these good and faithful customers, he said the basis of this success, are good customer relations.

"ASK THE KNOWERS"

The warehouse has 291,970 square feet of selling space at the intersection of U. S. 301 and old BLACK CREEK road and is the largest single warehouse in Wilson.

Renfro says you don't learn tobacco from a book, you don't get it from a degree or a college diploma. You have got to take your experience from the seed bed in the manufacturer, we've been hearing that with a cigarette it's what's up front that counts. Well that is more than true in a tobacco auction. If you don't know what tobacco is worth, how are you going to make the opening or starting bid? You can have the finest firearm in the world but that doesn't make you a marksman. It is the man behind the gun. That is why it is so down right important to have men with great experience selling your most precious product, TOBACCO.

We at Liberty are proud and don't mind bragging that we are tobacco men. Tobacco is our business and we can sell it.

Renfro is a prominent tobacco farmer and an experienced tobacco man himself. He has many years experience in buying, packing and selling tobacco, both domestic and foreign types, in all Belts, including Burley and Maryland types.

He is assisted in the operation of the warehouse by Thurmasa Barnes, Sales Manager. Barnes is also a farmer and has much experience in the tobacco trade including, redrying, manufacturing, buying and selling, including Florida, Kentucky and Virginia Dark Fired Belts.

**SPECIAL FEATURE**

Lighting is a special feature of Liberty. It is one of the best lighted warehouses in the entire Eastern Belt, due in part to Renfro's insistence upon more than adequate skylighting when the structure was built. Engineers were instructed to cut additional skylights after construction was completed. You know the old proverb, "Don't shoot until you can see the white's of their eyes". That is true of tobacco buyers. They are not going to "shoot" or bid if they can't see what they are doing. They are instructed by their supervisors to buy the best leaves for the lowest possible price.
