

## Welfare Commissioner Places Emphasis On School Attendance

Welfare, along with public health, social agencies, churches, churches, and other groups, are gravely concerned about school attendance," stated R. Eugene Brown, State Commissioner of Public Welfare. "We consider as one of our major responsibilities the ensuring of young people to continue their education."

In order to give special emphasis to the need for young people to return to school this Fall, Commissioner Brown has asked county director

## Relieves Hemorrhoids Without Surgery

...the first time science has found a substance with the ability to shrink hemorrhoids and relieve pain — without surgery. In case after case, while relieving pain, actual reduction (shrinkage) took place. Most surprising result — results were so thorough that doctors made astonishing statements like "Piles have ceased to be a problem!" The secret is a new shrinking substance (Bio-Dyne®) — discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug stores.

## August 24 At Fort Fisher "Hebe Skirmish To Be Commemorated"

On August 18, 1863, the Confederate blockade-runner "Hebe" was forced aground at what is today the town of Carolina Beach. Men from the Federal blockading fleet were sent out in gunboats to set fire to the "Hebe" and thus prevent her capture by the garrison at Fort Fisher. On shore a lone Whitworth cannon was fired repeatedly at the "Hebe" and succeeded in only partially destroying the blockade-runner.

Several days later, on August 23, the blockade returned to finish the burning of the "Hebe". Captain Daniel Munn of Fort Fisher, who manned the Whitworth, again exchanged fire with the gunboats, but he was at last forced to give way when his ammunition was exhausted. Over 12 tons of shot and shell had been used to drive him from his gun.

The Whitworth was captured and taken aboard the "Minnesota." Later it was taken to the Naval Armory in Washington, D. C., where it has been for the past 100 years.

On August 24, 1963, 100 years and a day later, the Whitworth captured in 1863 will be returned to historic Fort Fisher.

A spectacular display of fireworks and the firing of Civil War artillery will commemorate the "Hebe" skirmish at Fort Fisher on August 24 at 8:30 p. m. The display will be part of a 4-hour program observing the return of the Whitworth and featuring groundbreaking ceremonies for the new Visitor Venter-Museum.

The gun is being temporarily loaned to the Fort Fisher State Historic Site by arrangement with Admiral E. M. Eller of the U. S. Naval History Department.

Beginning at 4:30 p. m., the program will feature a band concert by the 2nd Marine Division Drum and Bugle Corps, followed by military exhibitions and drills by some 100 members of reactivated Civil War units.

A team of M-1 riflemen from Fort Fisher Air Force Base will pit their skill against a squad of muzzle-loading riflemen from the 6th Regiment as each tries to cut down a 2"x6" plank.

Cannoneers from reactivated artillery units in North Carolina, South Carolina and Virginia will attempt to sink a floating target some 500 yds. off Battle Acre. Sponsors for the program are the New Hanover County Confed-

PVT. LONNIE F. RIVENBARK, SPARTANBURG, S. C., Army Pvt. Lonnie F. Rivenbark, 24, whose wife, Taffy, lives on Route 2, Rose Hill, N. C., is participating in Exercise SWIFT STRIKE III, a U. S. Strike Command exercise in Georgia and North and South Carolina, involving more than 75,000 armed forces personnel.

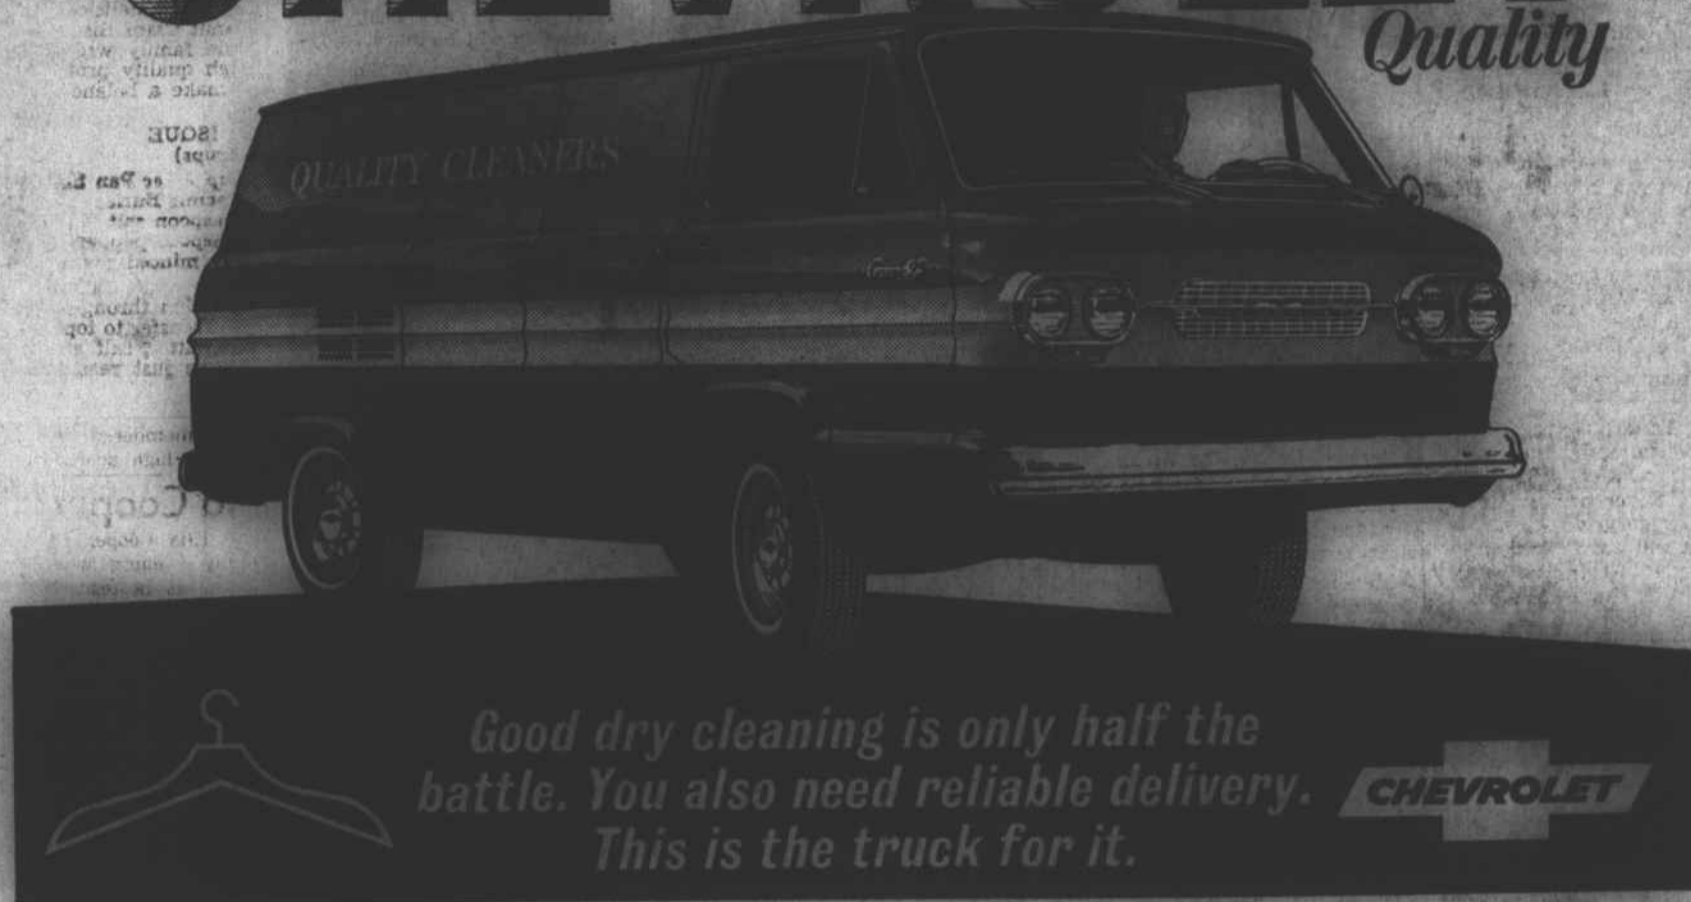

SWIFT STRIKE III pits two task forces against each other in a four-week mock war ending Aug. 18, and includes airborne maneuvers, long distance flights, air-ground support missions and counter-guerrilla operations.

Rivenbark is a supply specialist in Company A of the 34th Quartermaster Battalion at Fort Bragg, N. C. He entered the Army in December 1962 and received basic training at Fort Jackson, S. C. His parents, Mr. and Mrs. Radie Rivenbark, live on Route 1, Wallace.

# DID YOU KNOW

That Wayne Dairy Producers-Owners, back last fall, voted to merge with Coble Dairy Producers-Owners, thus becoming one of the largest dairy farmer-owned organizations in the Southeast?

That one of the prime considerations in making such a move was the Wayne Dairy was a small organization, compared with other competitors in dairy distribution in this area, and Wayne owners soundly believed such a move would mean more economic security?

That so far their return, per hundred pounds, on milk produced has been greater than last year, and this in spite of the fact that other N. C. producers, including many here in the east, have been receiving less?

That Wayne Division of Coble Dairy is still locally owned, with local members of the Board of Directors?

That the same management same personnel, same plant, same high quality of milk is still serving and being served to you?

That due to Wayne division becoming the processing and bottling operation for the Coble operation, from Durham to the coast, it has more than tripled Wayne operations? This means larger producer payrolls, And larger employee payrolls.

That Wayne Division of Coble Buys More Milk From Duplin County than any other Dairy. Please check the list of your neighbors below, who are vitally interested in the continued growth of Duplin County, and your community, because they live here, pay taxes here, and keep their money at home. If YOU PURCHASE DAIRY PRODUCTS FROM OTHER SOURCES, at least 80c of each dollar goes out of the county.

That the dairy products of Wayne Division of Coble, and the Coble Association carry one of the highest ratings by local, State and U. S. Public Health Service granted to any dairy in North Carolina?

That during the past seven years the Coble Organization was purchased, and is now entirely owned by the milk producers?

That the personnel in charge of this organization are all college-trained, and most of them by our own N. C. State College, and with most of them having had many years of experience?
