Mr. and Mrs. James Fredrick Albertson of Beulaville announce the birth of a daughter, Monday, December 23, at Lenoir Memorial Hospital in Kinston. Mrs. Albertson is the former, Faye Lanier of Chinquapin.

## E-D Library Club Enjoys Party

During the Christmas holidays, members of East Duplin High School Library Club enjoyed a "Stuff the Stocking" party in the home of Mrs. Virginia P. Quinn, librarian. Prior to the party, students had donated money to buy fruits, candies, toilet articles, etc. to place in stockings for students of East Duplin High School who had been out of school due to an extended illness.

Mrs. Quinn met the guests at the door and led the group in several games before the lovely red, felt stockings made by Miss Dillard's Home Economics girls were filled with goodies. Stockings were prepared for Sammy Alphin, Claudine Kornegay, Elizabeth Deaver, and Mr. Carl Gaskill of Morehead City, who is Mrs. R.L. Pruitt's father.

Students were then invited into the dining room for a social hour. A pink Christmas color scheme was carried out in the decorations and refreshments. The refreshment table was covered with a pink net cloth and centered with an arrangement of pink poinsettias, flanked with crystal candelabras holding pink burning tapers.

The living room was enhanced and other Christmas decorations.

Mrs. Mary B. Williams served punch and Mrs. Eleanor Norris assisted in serving decorated cake squares, nuts and mints to the following: Thresa Maready, Sharon Wood, Paula Wood, Carol Ann Quinn, Annette Fountain, Ronald Brown, Marie Thomas, Benetta Lanier, Dennis Harper, Jeff Landen, Billy Kennedy, Sue Jackson, Minnie Sumner, Rachel Brown, Mickey Woodward, David Quinn, and Elwood Quinn, husband of the librarian. Everyone agreed the refreshments were delicious especially the punch. By 10:00 p.m. the last student had said, "Good-bye, Mrs. Quinn. I enjoyed the party. The punch was good."

## Social Security

Have you filed your annual report of 1963 earnings with Social Security? Between the first of the year and April 15th every individual, except those who were age 72 or older -- during every month of the previous year, who is receiving social security benefits and who has earned over \$1200 during the 1963 calendar year, would complete a report on annual earnings. In addition, if you have been awarded a social security benefit which is being withheld because of your earnings, you should check with the social security office. It is possible you could be paid benefits for one or more months during the past year.

Individuals who have qualified for social security benefits and who earned \$1200 or less during the calendar year may receive benefits for each month in the year. Even if you earned over \$1200, only one dollar will be withheld from your benefits for each two dollars of earnings between \$1200 and \$1700. If your earnings were \$1700 for the year, an additional amount equal to your earnings which are over \$1700 will be withheld from your benefits. If there were any months in which you did not earn over \$107, you can be paid for these months, regardless of your yearly earnings.

If you are continuing to work you will need to furnish an estimate of your expected earnings for the present year as well as report on last year's earnings. If you need assistance, come into the social security office at 311 East Walnut Street in Goldsboro before the deadline of April 15th so you will not lose benefits by failure to make your report.

## ASCS

The flue-cured tobacco discount variety program will be continued for the 1964 crop. The objective of this program is to improve the quality of flue cured tobacco by encouraging farmers to plant varieties that produce high quality tobacco. The program is carried out by reducing the price support on 'discount' varieties to one-half the rate of comparable grades of acceptable varieties. The varieties on the discount list are ones that have been found to be unacceptable by both domestic and export companies.

This program is for the protection of all tobacco farmers. This program, along with better cultural practices by farmers, has done a great deal to upgrade the quality of our tobacco. All farmers are urged to get their tobacco seed from reliable sources. They should also carry out the fertilization and cultural practices that will produce quality tobacco. High quality tobacco is a must if we are to keep our domestic and export markets.

Farmers have until the end of January to file any applications for 1963 marketing year payments under the National Wool Act. Jan. 31, 1964 is the last day for accepting payment applications in connection with marketing of either wool or lambs during 1963.

Since this is several months earlier than under previous wool programs, producers are urged to avoid possible confusion by filing their application on completed sales as soon as possible.

## BASKETBALL LEAGUE

A basketball league comprised of teams representing four Beulaville churches played their first games Thursday night January 2, when the Beulaville Presbyterian five defeated the Bethel Presbyterian team and the Beulaville Free Will Baptist Church lost to the Beulaville Baptist Church team.

The schedule for the remainder of January includes games Thursday night January 16, when the Bethel Presbyterian Church meets the Baptist and the Beulaville Presbyterians play the Free Will Baptist.

Wednesday night January 22, the two Presbyterian teams meet, followed by a tilt between the Baptist and the Free Will Baptist.

Two games were scheduled each week through March 20, with playoffs to determine the league Championship planned for Friday night, March 27. Games are played on the court at the Beulaville Elementary School with the first game at 7:00 p.m. and the second starting at 8:30 p.m.

The 1963 marketing year under the wool program ended the last day of Dec. 1963. Future wool marketing years will be for 12 months and will coincide with the calendar year. The Jan. 31, 1964 deadline for filing 1963 applications is in line with normal program procedure of continuing to accept such applications for a month following the end of the marketing year.

The 1963 program payments which probably will begin in April will cover shorn wool and unshorn lambs marketed during the 9-month period of April 1, 1963 through Dec. 31, 1963. Later marketings will be eligible for payments for the 1964 marketing year, which began the first of the year.

The necessary sales records accompanying the application will be the basis for calculating the national average price received by farmers for wool during the 1963 marketing year. When the average price can be determined, the payment rates for shorn wool and unshorn lambs sold during the 1963 marketing year will be announced. Congress authorized the National Wool Act in order to encourage the domestic production of wool.

The U.S. Department of Agriculture has announced that all 1964-crop oats county support rates will be the same as for 1963.

The rates are based on the 1964 national average support price of 85 cents per bushel for Grade No. 3 oats. The method followed in determining rates is the same as in previous years.

County support rates have been established on the basis of

Grade No. 3 oats. Participation in the 1964 feed grain program for corn, grain sorghum, or barley will not be a condition of eligibility for price support on oats.

Premiums and discounts which are applied for grade and quality to determine individual producer support rates are unchanged from the 1963 program, except a discount of 7 cents a bushel will be made for badly stained or materially weathered oats grading No. 4. The discount for Grade No. 4 oats on the factor of test weight is 3 cents per bushel. The discount for garlicky oats is 3 cents per bushel. Premiums are 1 cent per bushel for Grade No. 2 or better, 1 cent for heavy test weight and 2 cents for extra heavy test weight.

Price support will be carried out through farm and warehouse stored loans and purchases. Support will be available from harvesttime through January 31, 1965.

## Beulaville Hogman Qualified Certified Meat Type Litter

J.W. Smith, Poland China Breeder of Beulaville, N.C., has qualified one Certified Meat Type Litter, during the past month, according to word received from the Poland China Record Association of Galesburg, Illinois.

Meat Type Certification is an all breed program designed to search out the meatier lines of breeding stock. To qualify, two pigs must be slaughtered tested from a Production Registry litter. Both must qualify on all four points to receive recognition--weight for age, carcass length, minimum backfat, and adequate meatiness as measured by a cross section of the large longitudinal muscle in the pork chop. A production Registry litter must contain at least eight pigs raised to a specified weaning weight.

The 2 pigs submitted for slaughter test averaged 30.12 inches in carcass length, 1.36 inches of backfat and 4.73 square inches of loin-eye muscle at an average weight of 204 pounds at 177 days of age.

The pigs are sired by Mr. Illini.

## Special Workshop For Area Ministers

A special workshop has been called of selected area ministers, (Duplin, Pender, Sampson) to join in a project aimed at uplifting the educational economic and social lives of the people of the three counties. The meeting is scheduled to be held at the Extension Office in Kenansville on Feb. 6, 1964.

Dr. S.C. Mayo, Head of the Department of Rural Sociology, North Carolina State College at Raleigh will participate in the morning session.

The one day meeting also includes R.E. Jones, Extension State Agent; and Cleo McKay, Director of Chapel, A & T College Greensboro. In the afternoon session, T.N. Hobgood, Community Development Specialist will appear on the program. This approach will accelerate the progress in all areas of Development if wide participation by Ministers is obtained according to R.E. Wilkins, Negro Extension Agent for Duplin County.

"This unique workshop has proved invaluable in the Charlotte and Durham areas," Wilkins said. "It's a great opportunity for them (Ministers) to gain knowledge in depth of the implication of population shifts, automation, new technology, and job training upon the area in which they serve," Wilkins added.

## Paper Company Offers Pine Seedlings

Once again Albemarle Paper Manufacturing Com. (formerly Halifax), Roanoke Rapids, in North Carolina, is inviting local participation in its cooperative pine seedlings distribution program. Over the years this Company has provided more than 16 million pine trees to woodland owners in its--pulpwood purchase area free on a matching basis.

The seedling distribution program is similar in operation to those conducted in the years past. The Company will provide up to 5,000 pine seedlings free, on a matching basis, to any adult landowner in this area. Up to 1,000 free seedlings will be given out-

right to 4-H, FFA and Boy Scout members, and members of other organized groups with conservative interests.

Seedlings will be delivered at the landowner's convenience by Albemarle foresters. In order that participants will have a good chance for success in their tree-planting venture, these foresters will provide on-the-ground instruction in seedling care and proper tree planting technique.
