### Four County Refunds\$30,000

J.R. Powell, President, Four County Electric Board of Directors, announced today the mailing of checks in the amount of \$8,000 to deceased member's estates. This brings the total amount refunded to \$30,000 -since November, 1963. Refunds were about equally divided between the four main counties served by Four County Elec-tric-Duplin Sampson Bladen and Pender.

The Cooperative's Board of Directors authorized the payment of Capital Credits to the estates of deceased members by a policy which became effective in 1963. Pour County Electric operates on a non-profit basis, with its main objectives being the delivery of high quality electric service to its member-owners. The recent refund is in keeping with the non-profit operation of the Cooperative.

Four County Electric origin-ally financed its electric system through loans from R.E.A.; however, the By-laws provide that members will furnish additional capital. This capital is provided by the member through his power bill. This money paid in is used to pay for the actual electricity used, the operation of the system and to repay the principal and interest on loans from R.E.A. Any amount of money collected from the members over and above the cost of providing electric service is credited to the member's "Capi-tal Credit" account, and this money will be retuned to him when the Board of Directors determine a refund can be made. The Cooperative now is in the process of returning this capi-tal to the estates of deceased emebers as a first step.

### 5 TV's Taken

Again! For the fourth time since November, the Beulaville Farmer's Exchange on Highway 41 was entered Friday night. The burglary was through the front door and the intruders made off with four new television sets and one used one, valued at some \$850.

According to LELAND Grady, the burglary is being investigated by Beulaville police and the Duplin County Sheriff's of-

has never sought public office before, but that his many years of doing business with the peo-ple in Warsaw, Faison and Calypso areas have give him a wide knowledge of their needs and problems.

The only other commissioner race in Duplin this year could be in District 5, Rose Hill, Magnolia and Kenansville Townships, where the incumbent is J.B. Stroud. Interest there seems to be inert at present, but there should be plenty of activity in District I where rumor has it that even more than the three announced candidates will contend, compete, grapple and strive for the office.

## Two File For Senate Seats

The defeat of the ' little federal ' plan places 50 Senators in 36 districts, each Senator to represent approximately 91,000 persons. The relignment as passed by the Legislature changes the number of Duplin's district from the ninth to the tenth. No change was made in the boundary and the tenth will be composed of Duplin, Pender, New Hanover and Sampson, as was the ninth, Two Senators are allotted the district.

Under an agreement signed March 21, 1922, and still in effect, Duplin rotates with Pender and Sampson with New Han over. The agreement was signed for Duplin by James J. Bowden. This agreement provides that candidates will be selected from New Hanover and Duplin for one session and Sampson and Pender for the next.

Since the agreement is still in effect, Roy Rowe of Burgaw has filed for one Senate seat and Stewart B. Warren of Clinton for the other seat. Both men have served terms in the Legislature. Both names will appear on

the ticket in the general election in November, but in the primary in May Pender will vote for Rowe and Sampson for War en.

If the agreement can be broken each county can offer a can-didate for the State Senate.
