Mrs. Zannie Mae Cottle

PERSONALS

Mrs. Zannie Mae Cottle is spending this week in Richmond, Virginia visiting her children Mr. and Mrs. Gerald Haywood Cottle.

Mrs. Ruth Harris of Greenville visited Mrs. Mina B. Kennedy Tuesday night.

Mr. and Mrs. Jimmy Williams and children Hank and Sherry of Jacksonville were supper guest of Mr. and Mrs. Silas Whaley Monday night.

Mrs. Zannie Mae Cottle and Mrs. Lewis George Whaley made a business trip to Kinston Tuesday.

Mr. Hermon Gore and Mr. H. J. Brown attended a Civil Defense Meeting in Wilmington Wednesday.

Mr. and Mrs. Gerald Haywood Cottle of Richmond, Virginia spent the weekend visiting Mrs. Zannie Mae Cottle and Mr. and Mrs. A. K. Dunn of Albertson.

Mr. and Mrs. June Thomas and sons Jimmy and George Byron spent last week end in Norfolk, Virginia visiting Mr. and Mrs. B. J. Blackburn and children.

Mrs. Brenda Nelson of Morehead City spent a few days last week with her grandmother Mrs. Mamie K. Thomas.

Mr. and Mrs. D. C. Fussell and children Wanda and Kent of Wilmington, Mr. and Mrs. Milton Cottle and Mr. and Mrs. Marion Edwards and children Elaine and Kay were dinner guest of Mr. and Mrs. A. R. Mercer Sunday.

Friends of Judy Edwards are glad to know that she has returned to her home after having been a patient in Lenoir Memorial Hospital, Kinston.

Friends of Mrs. Silas Whaley are sorry to know that she is a patient in Lenoir Memorial Hospital, Kinston.

EAST DUPLIN STUDENTS ENJOY ICE CAPADES
The Spanish and Algebra classes of East Duplin High School attended the Ice Capades in Raleigh on Thursday.

The following went, Dempsey Alphin, Helen Alphin, Annette Andrews, Sherry Albertson, Donald Atkinson, William Andrews, Joey Brinkley, Gary Butler, Brenda Blizard, Rachel Brown, Faye Ball, Kathy Batts, Phill Brown, Jackie Brown, Jewell D. Bostic, Margaret Brown, Barbara Brown, Patricia Brown, Iris Brown, Laurie Brinkley, Donna Callahan, Regina Chambers, Earl Cavenaugh, Geraldine Duff, Linda Daughtry, Glenda Dall, Polly Evans, Gall Edwards, Donnie Edwards, Annette Fountain, Edward Foster, Sammy Forres, Connie Gambrell, Richard Gore, Jerry Grady, Coy Guy, Judy Gore, Donald Gurganus, Haywood Houston, Mary Beth Hunter, Hilda Houston.

Sherry Hansley, Emily Herring, Shelton Hardy, Elton Hatcher, Jimmy Herring, Alex Houston, Yvonne James, Connie J. Jackson, Betty Lou Jenkins, Betty Lou Jones, Diane Jackson, Joyce Jenkins, Donald Kennedy, Carl Kornegay, Eugene Kornegay, Andy Keathley, Lewis Keathley, Ronnie Kennedy, Sharon Kennedy, Vicky Kennedy, Donald Kennedy, Pat Lanier, Harold Lanier, Craig Lanier, Wanda Mercer, Harry Miller, Kay Miller, Linda Mobley, Donald Mercer, Frank Norris, Henry Noble, Ann Pruitt, Wanda Potter, David Quinn, Judy Raynor.

Silvia Mercer, Thomosene Sanderson, Butch Smith, John Simmons, Linda Sutton, Donnelle Stroud, Nora Sumner, Julia Sutton, Dianne Southland, Rod Kennedy, Jerry Sanderson, Keith Turner, Tom Thigpen, Charles Turner, Lonnie Thigpen, Estalleta Williams, Larry Westbrook, Ahelton Williams, Glenda Williams, Jerry Williams, Wilda Worley. Chaperones for the trip were, Mr. and Mrs. Larry Stewart, Mr. and Mrs. H. J. Brown, Miss Linda Cherry and Mrs. Anna B. Guy.

PRESBYTERIAN CIRCLES MET LAST WEEK
The women of the Beulaville Presbyterian Church Circles no 1 met with Mrs. Pheobe Pate. Mrs. Grace Clark had charge of the Bible study. After the meeting the hostess served cookies, ice cream and Coco Cola to the following: Mrs. Scott Smith, Mrs. Emmett Clark, Mrs. Peannie Blizard, Mrs. Foy Jones.

Circle No. 2 met with Mrs. Russell Bostic. Mrs. Pheobe Pate had charge of the Bible study. There were 8 members

HEALTH CAREER'S CLUB MEETS
The East Duplin Health Career's club met at the school on Wednesday, April 8, The main item of business was the pre sentation and adoption of the constitution.

The club with the co-operation of the Home Economics girls, is getting cobbler aprons made to be served by the candy strikers at the Duplin General Hospital.

The business meeting was presided over by tre president, Hilda Mobley.

ATTEND HEALTH FAIR
Several members of the East Duplin Health Career's Club attended the Health Fair in Durham on Thursday, April 2, The Health Fair, which was the first to be held in North Carolina was at Duke Indoor Stadium. While there, the group toured more than 100 displays and exhibits which covered all phases of health, medicine, and medical research. Each display and exhibit was manned by a professionally qualified person.

The group enjoyed a tour of Duke campus before attending the Health Fair.

Club members attending were Gloria Albertson, Hilda Mobley, Betty Rose Rouse, Marilyn Denny, Bobbye Anne Miller, and Ricky Brown. Accompanying the group were Miss Grace Kennedy, Mary Frances Harper and Miss Mary Anna Grady, class sponsor.

Rebecca Raynor Reporter

There is an old age of the heart, and a youth that never grows old.

Mary Baker Eddy Heart, be thou the sunflower, not only open to receive God's blessing, but constant in looking to Him.

Jean Paul Richter

National Geographic Creates Museum Of Science, Discovery

A newly designed museum of science and discovery called Explorers Hall shines as the showcase of the National Geographic Society's new headquarters.

The museum - a window on the world and a look to the future - spreads over the high-ceilinged first floor of the 10-story, white-marble building at 17th and M Street N. W. in Washington, D. C. It was opened to the public on weekdays January 20, 1964.

Striking new life-size displays and historic mementoes include a brooding stone head from a lost American civilization, a cosmic-ray spark chamber, Robert E. Peary's sledge, and a stratosphere balloon gondola.

The hall is designed to take visitors to the ends of earth, the edge of space, and the buried past with National Geographic expeditions. Since its founding in 1888, the National Geographic Society has supported more than 200 explorations and research projects.

Performing Globe
The world's largest unmounted globe is the centerpiece of the Hall. Cradled on eight rubber wheels or rotating on a spindle, the globe spins over a black-granite reflecting pool. The sphere weighs about a thousand pounds; it measures 11 feet from Pole to Pole and 34 feet around the Equator.

The globe normally rotates on a north-to-south pole spindle tilted at an angle of 23° 27', the same as the earth's plane. For special effects, the spindle can be lowered by remote control. An operator at the console can then manipulate the globe in the cradle formed by the wheels, rotating it in any direction.

Three maps on 10-by-15-foot panels greet visitors. The maps alternately turn into view as a recorded narration describes features. One depicts the world as shown in 1651, another is a relief map of the world today, and the third is a colorful world map with blinking lights locating National Geographic expeditions.

Eighty of National Geographic's famous color photographs are mounted on a slowly revolving "kaleidoscope." The dice juxtaposes striking contrasts and similarities: a beehive and an apartment building, a volcano and an ice cave, a honey ant and a brewer, a galaxy and an atom.

A diorama depicts Dr. Louis S. B. Leakey, the famed anthropologist, working in Olduvai Gorge, Tanganyika, where he found the skull of Zinjanthropus, an early form of near man who lived 1,750,000 years ago.

A plastic sculpture over the skull suggests Zinjanthropus' facial contours. Soil for the exhibit came from Olduvai.

KIVA DEPICTED
A full-sized model of a smoke-stained kiva evokes the ritual life of the Indians of Wetherill Mesa, Colorado. They vanished about A. D. 1300 after living there some 600 years.

The Pueblo kiva was an underground ceremonial chamber restricted to male tribesmen. One lifesize figure in the display weaves a basket while a boy watches. Outside the kiva the skeleton of a cliff dweller lies on a bed of clay.

A cast of a giant stone head from Mexico's ancient Olmec culture peers from a jungle setting in a corner of Explorers Hall. The original carving was uncovered in Tabasco, Mexico, by a National Geographic Society-Smithsonian Institution expedition in 1939.

The Olmec head can easily be seen through large windows from the promenade outside the new National Geographic building. Several other exhibits are designed and lighted for viewing from the outside when the museum is closed.

In the polar section of the hall is a sun compass invented for Richard E. Byrd by Albert Bumstead, the late Chief Cartographer of the National Geographic Society. Byrd said he could never have made man's first flight over the South Pole without the compass.

A model of Captain Jacques-Yves Cousteau's ingenious Diving Saucer highlights an exhibit describing the work of the undersea pioneer. His explorations have been supported by the Society for more than a decade.

FRIENDSHIP News

PERSONALS
Mrs. Frank Langston and Mrs. Bill Grady and children visited Mrs. Pete Henderson and Mrs. Ida Wagstaff at Wallace on Thursday.

Mrs. Annie Brock of Warsaw and Miss Jeanette Brock of Greenville, N. C. visited, Mr. and Mrs. Odell Brock and children on Saturday night. Visiting on Sunday were Mr. and Mrs. Dan Wallace, Angela and Danny of Albertson.

Friends of Mrs. Emma Potter are sorry she is still a patient in Duke hospital in Durham.

Mr. and Mrs. Ben Whaley and children of Kenansville visited Mr. and Mrs. J. H. Whaley on Sunday.

Visiting Mr. and Mrs. George Pridden and Mack on Sunday were Mr. and Mrs. John Royal, Carson and Kathy and Mrs. Gray Ezzell and 4 children of Clinton. Shirley and Larry Matthews of Turkey, Mr. and Mrs. Roy McNeil of Faison and Barbara McNeil of Warsaw.

Mrs. Ben Swinson is staying in Durham with Miss Margaret Swinson to be near her mother Mrs. Emma Potter who is a patient in Duke hospital.

Mr. and Mrs. Glenwood Sanderson visited A-C and Mrs. Sam Kornegay and boys of Washington, D. C. over the weekend. While in Washington they saw the cherry trees in bloom, White House, the Capitol, Lincoln Memorial, Museum of Arts and the Space Capsule in which John Glenn was in, Mr. and Mrs. Sander-

The Everest exhibit includes clothing and tents of the climbers, spectacular summit scenes photographed in color by the National Geographic's Barry Bishop, and a relief model of the awesome Himalaya range.

At rest in a corner of the hall is the balloon gondola that carried Army Air Corps Captains A. W. Stevens and O. A. Tinderson to 72, 395 feet on November 11, 1935 - a record for manned flight that stood for 31 years.

A section on space exploration shows, among other exhibits, an orrery, or working model of the solar system.

Visitors depart from Explorers Hall beneath giant color transparencies of galaxies and nebulae that give them an illusion of being in space.

TOBACCO GROWERS:

D-D° Soil Fumigant has boosted yields for 15 profitable years - and it's still the No. 1 fumigant in 1964!

MR. FARMER...

LIQUA-VITA

MANY OUTSTANDING TOBACCO GROWERS SAY LIQUA-VITA (10-20-10) IS "THEIR PREFERENCE BECAUSE IT PRODUCES FINER QUALITY AND MUCH HIGHER THAN AVERAGE YIELDS!"

With vegetable and tobacco growers, a quicker start and earlier maturity is the key to a profitable crop. For all users of Liquid Fertilizer and Starter Solution, LIQUA-VITA (10-20-10) is specifically designed and created to give your crops the quickest start possible and offers the very best in liquid feeding. Every possible advantage in scientific blending, coupled with quality materials and trace elements, goes into every gallon of LIQUA-VITA.

Experienced tobacco growers who use the latest in modern farming techniques are the ones who are proclaiming LIQUA-VITA the Starter Plant Food of "Their Preference Because It Out-performs All Others!"

Many leading tobacco growers have used LIQUA-VITA consistently for 10 years or more because they are quality minded and know that they obtain much higher than average yields by using it. "Top Quality" goes hand-in-hand with extra and impressive yields per acre. If you have not used LIQUA-VITA, now is the time to give it a trial. Use it in your transplanter for higher yields and finer quality tobacco. It has been tried, tested and proven the leading Liquid Fertilizer on the market today.

LIQUA-VITA Is Widely Imitated, But Thus Far It Has Not Been Duplicated! Do Not Be Misled With Cheap Substitutes! Insist On the Product Bearing The Genuine "LIQUA-VITA" Label.

LIQUA-VITA Is A Product of The American Liquid Fertilizer Company, Marietta, Ohio, and the result of more than a quarter century of research and testing in the liquid fertilizer field.

Mr. Farmer... For Your Tobacco TRANSPLANTER

WITH FERTILIZER EQUIPMENT

Eliminate fertilizer injury with the popular Powell "42" fertilizer-transplanting equipment. Precision-spaced plants are secured with uniform water output, PLUS accurate fertilizer placement. This will assure a faster start for plants, uniform growth, and higher yields.

Here's how it works: Fertilizer bands are placed 4" each side of the row of plants and 2" to 5" in depth. The fertilizer is covered with 2 covering blades or disks and the position of the bands is not disturbed. Plants cannot be placed in the fertilizer. The fertilizer hopper mounts directly on the transplanter. Useable on flat or previously bedded land.

"42" AF
One row, lift type, for 3 point hitch tractors. Barrel mounted on tractor. Ideal for lighter weight tractors.

"42" BF
One row lift type for 3 point hitch tractors with barrel mounted on transplanter. For larger tractors only.

"42" CF
For use with all tractors. One row pull type with hand lift.

"42" CF2
Two-row, pull type. For row widths from 36" to 60". Equipped with hand lift. For any two row tractor.
