

THANK THEE, O GOD, for the return of the wondrous spell of this Christmas season that brings its own sweet joy into our jaded and troubled hearts.

Forbid it, Lord, that we should celebrate without understanding what we celebrate, or, like our Counterparts so long ago, fail to see the star or hear the song of glorious promise.

As our hearts yield to the spirit of Christmas, may we discover that it is Thy Holy Spirit who comes-not a sentiment, but a power—to remind us of the only way by which there may be peace on earth and good will among men.

May we not spend Christmas, but keep it, that we may be kept in its hope, through Him who emptied Himself in coming to us that we might be filled with peace and joy in returning to God. Amen.

A Christmas Prayer by Peter Marshall

The Best Christmas Gift - Stay Alive

The best Christmas gift you can give your family this year is a safe and joyous Yuletide, making sure that you don't become one of the 39 unfortunates who the N. C. State Motor Club predicts will be kil-

If you haven't seen Santa's lease ride down to Beulaville, turn right at the school house and go down about 1/2 mile, Santas workshop is sitting in the front yard at Gilbert Campbells and elves are buisly at work in the workshop. When your car stops to admire the scene, - Santa talks to the young boys and girls in the car. It is most amazing and well worth your time.

Bess Hines Harkins of Oxnard, California sent us a beautiful Christmas poem. ALLELUIA

Christmas . . . once more the

Approaches the sacred time Of carol and candle-light. Of clear, sweet temple chime; Once more the Star of the East Is beckoning to men To follow, as it did The ageless moment when The Hearld Angels sang . A golden, glad refrain, Triumphant down the centuries Rings out, "be born again!" Bess Hines Harkins

Each Christmas The Paul Gradys of Kenly send an ori-Christmas message. I fondly look forward to their Christmas Greeting, first to hearing from them and second to enjoy their originality. This year I would like to share their message with you.

"Christmas Greetings 1964. Christmas means different things to different people at different times, under different circumstances and in dif-

ferent places.
The Paul Gradys of Kenly count this not least among our blessings of this "HOLY SEA-SON; that it gives us the op-portunity to speak sincerely and from the innermost recesse of our hearts;

On Tis Day Of Days when the sunshine of friendship and mutual affection shines through the every day cares and duties of our busy lives; We Wish For You And Yours, all joy, peace, hope and happin and our earnest prayer is that you may store this away in your hearts so that you may know every day of the coming years trat our sentiments remain the same, our loyalty unchanged and our love, devo-tion and understanding increas-

tion and understanding increasing as the days go by.

Our Hope is that "we shall not be as ships that pass in the night" but that our paths may cross soon and often and that we may have the continued blessing of your friendship.

Our Prayer is that while we have no gold to give, and love must make amends, we pray

SPACE ADM. EXHIBIT. The N. C. Museum of Natural History at Raleigh will exhibit "Photography From Five Years of Space" begin-ning January 1. Director Harry T. Davis says that the NASA has now made available another exhibit to compliment this exhibit. School children planning to visit the museum in January will find the two exhibits coordinated in such a way that they can see these and the hundreds of other exhibits on the three floors of

While the club's estimate is based on past experience, the number of fatalities could be reduced if all motorists observe the basic safe driving rules

Accident records reveal that the Christmas season claims more lives on the highways than any other holiday period. Christmas Eve is the most dangerous day of the year, and December is the most dangerous month

During the short one day Christmas - New Year's hollday period last year, the state counted 19 traffic deaths 13 on Christmas and 8 on New Year's - and 429 injured in 700

Leading traffic violations were: speeding, 135; driving left of center 122; failure to yield right of way, 67; reckless driving, 50, and driving under the influence of alcohol, 45.

"The wives and husbands, the eager children, the sweethearts and friends and nelghbors - all of them care-care that the glowing spirit of Christmas shall not be darkened by an automobile accident," said Thomas B. Watkins, president of the N. C. State Motor Club and the National Automobile Association. "They care - so please take care when you drive."

Whitaker Named March of Dimes Director

Mr. Earl W. Whitaker of Wallace, will serve as Duplin County March of Dimes Director for the 1965 campaign which will be held in the month of January, according to B. R. Batts, Chairman of the Duplin County Chapter of The National Foundation-March of Dimes. al Foundation-March of Dimes. In announcing the appointment, Mr. Batts said, "We are fortunate in having a man of Mr. whitaker's leadership abilities to direct the Duplin County's efforts against birth defects which affilict one out of every ten American families."

Mr. Whitaker is a native of Mr. Whitaker is a native of Alamance County and was with the Highway Patrol for eight years. He has been Chief of Police in Wallace for the past thirteen years. Mr. Whitaker is a member of the Shrine Club and has served as president of the Lion's Club, Mr. and Mrs. Whitaker, and their three sons, attend the Presbyterian Church in Wallace.

In accepting the appointment,
Mr. Whitaker said, "Birth defects kill and cripple more American children than any other
human disorder. The March of
Dimes in leading the fight against birth defects because it be-

st birth defects because it believes the people are ready to
join in an all-out campaign
against this tragic waste of
human life."

Mr. Whitaker pointed out
that the March of Dimes for
the past six years has made
important advances in the fight
against birth defects. Through

the 50 March of Dimes financed Centers including the Special Treatment Center at the University of North Carolina at Chapel Hill-trained medical teams are providing the best medical care available for birth defects children and working to develop new techniques which will enable many more of them to live a useful life,

"Scientist, supported by March of Dimes grants, are also at work in laboratories here and abroad seeking the causes of these fearful conditions and

ways of preventing them," said Mr. Whitaker,
"Seventy-six percent of all funds raised in all the March of Dimes campaigns has been spent in the State of North Car-olina for patient aid, research or public and professional ed-ucation, what better reason could anyone want for support-ing this important campaign, concluded Mr. Whitaker.

MAY MEETING

The N. C. Sweet Potato Assn. will hold their annual meeting at the Wayne Agricul-tural Center, Goldsboro, Thu-rsday, January 14. Registration begins at 8:00 s. m.

CAREER MILESTONE-Mar vin F. Teachey Jr. has completed five years under the Newport News Apprentice School program, two of them spent at the University of Michigan on a Homer L. Ferguson scholarship. Qualifying as a hull designer, Teachey also worked on the Binnacle as sports editor in 1961, was a member of the Cavalier Club and Pi Sigma Phi fraternity. The new career shipbuilder is the son of Mr and Mrs. M. F. Teachey Sr of 200 Regent St., Hampton.

Mr. Teachey is the grandson of the late Jake Teachey of Rose Hill, and the son of Mr. and Mrs. Marvin (Small) Teachey, formerly of Rose Hill.

CLASS REUNION The Class of 1962, James Kenan High School, reunion will be held Saturday nigrt. December 26 at 8 p. m. in the Warsaw Armory. All former class members, their wives or husbands are cordially invited to attend. If you plan to attend notify Miss Mary Lou Reynolds, Kenansville, N. C.

> THREE STILLS NEAR WARSAW

Jimmy and Wayne Harper had their plans to obtain a little extra money for the hol-idays unset when Sherrif Dep-uties Glenn Jern 21 and Ervin Outlaw discovered and destroy-ed their 100-gailon till some two miles south of Warsaw. Destroyed were 8 barrels of mash and 16 gallons of white lightn-ing were confiscated. The two are charged with possession of material for the manufacture of non-tax-paid whiskey and manufacturing same.

Deputies E. G. Crestnutt and Ervin Outlaw destroyed two 300-gallon vat stills in Warsaw Township ,some two miles southwest of town and 400 gallons of mash in another sald

COUNTY OFFICES CLOSE FOR CHRISTMAS

The Board of County Com-missioners designated Thurs-day, December 24, Friday, December 25 and Monday, Dec. 28, as Christmas Holidays for county offices. The offices are not normally open on Saturday and Sunday. The Duplin County Farm

Bureau advises that their office will be closed December 24 and 25 for the holidays.

HOLIDAYS FOR LOCAL DRAFT BOARD

The office of the Duplin County Draft Board will be closed on December 24, 25, and 28, 1964, for the Christmas holidays and on January 1 ,1965 for the New Year holiday.

James Sprunt Enrolls 574

The James Sprunt Institute enrolled 574 students during the Fall Quarter ending November 30. Courses of instruction included practical Nurse Education, Automobile Engines, Introduction to Business, Business Law, Salesmanship, Credits and collections, Business Math, Business English, Typing, Shorthand, Business Reading and Writing for adults, Oil Painting, Nurses Aide, Telephone Courtesy, Peace Officer Training, Advanced Hair Cut-ting and Advanced Hair Styling for licensed Beauticians, General Math Firemanship Training, Administrative Managem-

In addition to two-year degree programs in business education and one-year diploma programs in Practical Nursing and Automotive Mechanics, school provides extension-type courses in a variety of subjects throughout the county upon request. During the past three months, the school has operated seven days a week from 8 a.m. until 10 p.m. Monday through Friday and Sunday afternoon. Classes in reading and writing for adults who cannot read are affered on Sunday,

Strawberry Variety

Plants in a new strawberry variety, Earlibelle, will be available for spring planting in 1965. The variety was developed through the cooperative efforts of the Crops Research Division, USDA, and the North Carolina Agricultural Experiment Station. Earlibelle ripens earlier than

the Albritton variety in eastern North Carolina and the Yields have been better. At the Coastal Plain Experiment Station at Willard, Earlibelle averaged 1,665 quarts per acre in the first week of harvest as compared with 681 marts per acre for Albritton, Over a five year

period, the Earlibelle variety has outyielded Albritton by 25 per cent.

The fruits of Earlibelle are medium-large and average 62 berries per pound as compared with 66 for Albritton. The skin color is bright red turning to a deeper red at maturity. The flesh color is uniformly bright red. The surface of the berries is glossy and firm. In shape, the berries are long-conic with few rough or misshapen fruits.

The flavor is tart and good. Plants of Earlibelle are comparatively small but they set runners so freely in most soils that fruiting beds must freq-uently be thinned. The leaves are resistant to leaf spots and leaf scorch,

The variety has not been productive at Beltsyille. Marvland, and northward. While no tests have been conducted in the mountain regions of North Carolina; it would probably not do well at the higher elevations. Earlibelle is recommended primarily for planting in the

primarily for planting in the

primarily for planting in the lower Piedmont, eastern North Carolina and southward.

The seedling selection has been named and is being introduced to commercial growers and home gardeners because of its attractive appearance, firm fruit, early maturity, and greater yielding ability than the Albritton.

During the past three months, the school has expanded its program in the areas of business education, general adult education, community cultural service, library services, and guidance and testing for new applicants into one of its fulltime programs. Four new staff members have been employed full-time.

One of its newest programs is the learning lab which offers programmed instruction and machine teaching to students who cannot attend regularly scheduled classes but wish to come in anytime, day or night to take a variety of courses in

a self-teaching program.

Pressing needs of the institute are building space to nouse existing programs in a central location and expand its services to include liberal arts education for transfer, commerical art and design, building crafts, diesel mechanics, tractor mechanics, medical secretarial training, legal secretarial training, Electronics, drafting and design, agriculture, and others.

Costs for full-time programs study is only \$10 per month with the costs of extension courses ranging from no cost to \$6 per course. In addition to a buy his books and supplies. Students may enroll four times ayear at the beginning of each Fall, Winter, Spring, and Summer quarter.

Nurses Score ductions infederal incometaxes High On State Exam

Graduates of the Nursing Program of James Sprunt Institute continue to score high on the State licensing examination, according to an announ-cement by Dixon Hall, director of the Institute. The 1964 grad-uates, like the previous class, scored well above both the National and State averages on the standardized examination administered by the State Nursing Board. All graduates of the Duplin program have been licensed as practical nurses.

"In any educational program it is just as important to achieve quality as it is to achieve quantity." Mr. Hall said in announcing the success attained by the sudents, "It is axiom-atic that anything worth doing is worth doing well and in ed-ucation this depends upon the students as well as their teachers. We are proud of the success of our students and their teachers and we appreciate the splendid support every-

one in the County is giving us."

The 1964 graduates of the
Nursing Program ar as follows: Mrs. Peggy W. Hammond,
Mrs. Annie Barwick Hawes,
Mrs. Estelle Thomas Hawes, Mrs. Agnes Mercer Kennedy, Mrs. Janice Bostic King, Mrs. Nannie B. Lanier, Mrs. Ruby Wood Lanier, Mrs. Hazel Rhodes, Mrs. Julia Gavin Vann, and Mrs. Dorothy K. Willoughby.

All Eleven graduates of the Practical Nurse Education Pro-gram of the James Sprunt Insttute passed the State Board Ricensing examination in Oct-ober. Within a minimum passing score of 350 required on the exam, the average score for the class was 533, more than 100 points above the min-

"Play it cool." Another sings nursery rhymes, and a sportsminded doll roller-skates in circles. One versatile youngster speaks 216 words in French, Spanish, Russian, Italian, German, English, and Japanese thanks to tiny phonograph discs that can be played within the doll.

To bring out the nurse in every litle girl, there is even a sick doll. She comes equipped with three faces-an ill one (complete with red spots), sleepy, and happy. She is dressed in pajamas, and has her own adjustable hospital bed.

One of the most lifelike dolls has "hair that grows." The hair can be washed, set, then combed out in high-fashion style. The flick of a switch changes the hair length from short to medium to long.

Two Baltimore brothers have perfected a doll that can get suntan. Dressed in blue "Sandy" freckles. swimsuit, then turns a golden brown after a minute in the sun. The secret is a special coating which makes the body sensitive

Many toy manufacturers believe clothes sell the doll. Consequently, high-fashion dolls may have 100-piece wardrobes, including monogrammed pa-jamas and miniature mink

coats, sneakers and swim tins "It costs more to clothe the doll than my child!" moaned

To make doll housekeeping easier, there are such appliances as whistling tea kettle, sizz) ling skillet, and perking percolator. For the career-girl doll there's a desk and two-way telephone with "liteup" dial. For the outdoor type there are

PRICE 10c PLUS TAX

golf clubs, sports cars, and boats. WIND-UP WRITER Mechanization of dolls is not new. American dolls were walk

ing and talking a hundred years ago. And as far back as the 18th century, two Swiss watchmakers built three incredible dolls that still write, draw, and play for visitors to the History Museum in Neuchatel, Switzerland. When wound up, the little author dips a quill pen in ink and writes "Wel-come to Neuchatel" in French. The artist sketches pencil portraits of Louis XVI of France

and Marie Antoinette. The lady

musician sits at the keyboard

of a miniature 18th-century organ, and plays simple minuets, gavottes, and quadrilles, Though a doll's life h as never been better, there are spofl-sports. A Czechoslovakian Communist youth newspaper blamed dolls for spreading "bourgeois ideas of a refect lady." The newspaper wa ned: "Girls will grow up to be more

interested in fashion than in the production of synthetic ch-

Henderson Foundation **Makes First Distribution**

Mount Olive College has re-ceived \$6,707 from the first distribution of earnings of the Henderson Memodial Foundation, President W. Burkette Raper has announced. The foundation was created in the will of the late Dr. C. C. Henderson of Mount Olive.

The allocation of Mount Olive College represents 35 per cent of the income of the foundation for the fiscal year following the death of Dr. Henderson on Oct-

ober 8, 1963, Dan H. Outlaw, trust officer of the Bank of Mount Olive who is the executor of the estate of Dr. Henderson, reported that the total distributions from the foundation this year were \$19,162.

President Raper announced that Mount Olive College would place \$5,000 of its income from the Henderson Foundation in the development fund for dormit-

development fund for dormitories on the new campus.

From the opening of Mount
Olive College in 1954 until his
death in 1963, Dr. Henderson
served without charge as physician to the college. During
this time, he was also the leading benefactor of the college
with gifts in excess of \$50,000.
The first academic building on
the new campus will be named the new campus will be named in his memory.

ial customers, and savings totaling \$55,000 a year on municipal pumping and street light-

is follows \$1,150,000 made by CP&L last May, and is its 25th reduction in the past 30 years. Sutton said "CP&L's rates

are low in comparison with rates of other companies in the national level. With larger generating units, power pooling arrangements and other operational economies we hope to continue this favorable position, notwithstanding probable inflation."

He referred to a current Federal Power Commission report that draws a comparison between the 1962 national average retail power price of 1.7 cents per kilowatt-hour and a projected 1,2 cents in 1980.

"Our average kilowatt-hour price in 1962 was 1.48 cents per kilowatt-hour, and with our present reduction in rates is estimated at around 1.36 cents for 1965, or within 12 per cent of the average price projected by the FPC for 1980, "he said.

Jack Johnson, Jr. Named Naval Acade my Alternate

Congressman David N. Henderson today announced that he has named Jack Johnson, Jr., an alternate nominee to the United States Navel Academy.

Annapolis, Maryland.
The son of Mr. and Mrs.
Jack Johnson of Route 1, Wallace; young Johnson is a senior at Wallace-Rose Hill High School where he is a member of the FFA and the Beta Club as well as having an outstanding scholastic record.

Henderson noted that as an alternate, whether Johnson will actually be admitted to the academy will necessarily be dependent upon whether other no-minees can meet the qualific-ations, but pointed out that in the past the majority of cadits actually admitted to the academies from the Third District have been alternates rather than principal nominees. Johnson will take both written

and physical examinations in the spring and if finally admitted to the academy will enter in the summer of 1965.
