

# Inhalation Therapy Clinic for Outpatients Agriculture in Action

## At N. C. Baptist Hospital

WINSTON-SALEM — With the establishment of an Inhalation Therapy clinic for outpatients, North Carolina Baptist Hospital has become the third hospital in the country with programs in inhalation therapy for both outpatients and inpatients.

Others are in Palm Springs, California, and Atlanta, Georgia. Officials of the hospital explained that the clinic is operated for the treatment of patients suffering from chronic obstructive pulmonary disease. Emphasis is on emphysema, a slowly progressive disease causing structural damage to the lung and one for which there is no spontaneous recovery and no known cure. The purpose of treatment is to arrest its progress and relieve symptoms. Often life can be prolonged and made more useful and enjoyable. The prevalence of emphysema and the serious social and economic problems it causes are indicated in the fact that it incapacitates one out of every 14 of the nation's workers between the ages of 40 and 65 years.

The clinic occupies 19 modern, air conditioned rooms in Kemble Inn, a facility of the hospital, and can treat 14 patients simultaneously. There are four treatment rooms equipped with the latest equipment available for use in inhalation therapy and 15 private rooms for patients who need to remain all day or longer.

Dr. D. LeRoy Crandell, head of the hospital's Department of Anesthesiology, is director of the clinic and the entire program. The staff is composed of an anesthesiologist, an inhalation therapist, and a physiotherapist. The hospital began an inhalation therapy program for inpatients nearly two years ago. The service has grown rapidly as physicians prescribe it for patients suffering from emphysema, asthma, chronic bronchitis, and other chronic respiratory difficulties which obstruct breathing. The outpatient clinic is an outgrowth of this program, for patients often need continued inhalation therapy after being discharged from the hospital. It was necessary to serve such patients on an outpatient basis and the clinic was opened to take care of this problem and to extend this service to others. Patients treated in this clinic must be referred by their family doctor.

Patients are given tests to determine the degree of lung impairment, are taught special exercises, and are given intermittent positive pressure breathing to deliver drugs and oxygen to the lungs and help in the elimination of carbon dioxide and secretions.

Another phase of the hospital's inhalation therapy program is a school for the training of therapists. It is one of the seven in the nation which are approved by the American Medical Association.

Staff Therapist Bill Brown of the new Inhalation Therapy Clinic for outpatients at Baptist Hospital begins a positive pressure breathing treatment for a patient.

Specialist Five Derrell D. Davis 24 whose parents Mr. and Mrs. Walter Goodson live at 509 Steele st. Mt. Olive N. C., reenlisted in the Regular Army Dec. 8 while serving as a tank driver in Troop K of the 2d Armored Cavalry Regiment's 3d Reconnaissance Squadron in Germany.

Specialist Davis entered the Army in November 1961 and arrived overseas the following May. Davis attended Mt. Olive High School.

MAJ. LARRY P. BOSTIC FORT LEAVENWORTH, KAN. — Maj. Larry P. Bostic, whose wife, Annie, and parents, Mr. and Mrs. Stokley P. Bostic, live in Beulaville, N. C., was graduated from the U. S. Army Command and General Staff College at Fort Leavenworth, Kan., Dec. 18, after completing the fall associate course.

The class of 374 U. S. Army officers and 55 Allied officers from 21 countries was addressed by General Harold K. Johnson, U. S. Army Chief of Staff, who was commandant of the college from August 1960 to February 1963.

The 18-week associate course is designed to prepare select officers for duty as commanders and general staff officers of combat or logistical commands.

Major Bostic was last stationed at Fort Carson, Colo. The 43-year-old Major is a graduate of Beulaville High School and attended the University of Omaha, Neb.

PFC MICHAEL M. OATES 3D ARMORED DIV., GERMANY -- PFC Michael M. Oates, son of Mitchell M. Oates, Faison, participated in Exercise GALLANT SWORD, a week-long Germany-American field training exercise in Germany, that ended December 11.

The maneuvers, conducted under simulated combat conditions tested the ability of members of the 3d Armored Division and selected German troops to react quickly together to any threat or aggression. Oates, an automatic rifleman in Headquarters Company, 3d Battalion of the division's 36th Infantry near Kirch Gons, entered the Army in October 1963, completed basic training at Fort Jackson, S. C., and arrived overseas in May 1964.

The 20-year-old soldier is a 1962 graduate of Hobpton High School.

RUSSELL JENKINS III. 8TH INFANTRY DIV., GERMANY -- Russell Jenkins III, son of Mrs. Dorothy L. Jenkins, 5205 Oleander dr., Wilmington, N. C., was promoted to specialist five Nov 30, while serving with the 8th Infantry Division in Germany. Specialist Jenkins is assigned as a team chief in Company E of the division's 208th Maintenance Battalion in Germany. The 20-year-old soldier entered the Army in September 1962 and completed basic training at Fort Hood, Texas.

JAMES E. STRICKLAND FORT HOOD, TEX. -- James E. Strickland, son of Mrs. Frances A. Strickland, Route 3, Mt. Olive, was promoted to specialist four, Dec. 17, while serving with the 2d Armored Division at Fort Hood, Texas. Specialist Strickland, a jeep driver in Headquarters Company of the division's 2d Brigade, entered the Army in October 1962. The 20-year-old soldier attended Mount Olive High School.

MRS. MARION CARLYLE HERRING

### Miss Kornegay Becomes Bride Of Mr. Herring In Woodland Church

Albertson - Miss Judith Elaine Kornegay and Marion Carlyle Herring were married on Sunday afternoon December 27 at Woodland Methodist Church. The bride is the daughter of Mr. and Mrs. Carl Winy Kornegay, Sr. The bridegroom is the son of Mr. and Mrs. Leland Carlyle Herring of Mt. Olive. The Rev. W. E. Howard, pastor of the bride and groom officiated using the double ring ceremony. Prior to the ceremony a program of nuptial music was presented by Edgar J. Wells, Jr., of Teachey. Mrs. Charles Bell of Albertson was soloist and sang "Entreat me not to leave thee", "Dedication" by Widmung and "Wedding Prayer". The traditional procession and recessional were used. Vows were pledged before an altar attractively decorated with a background of palms, center arch candelabra, tree candelabra, and standing baskets of white gladioli, chrysanthemums, snapdragons and carnations. White satin bows tied with clusters of wedding bells, marked pews for the family members. Given in marriage by her father, the bride wore a formal sheath gown of Peau de Soie and re-embroidered alencon lace. The gown was designed with a portrait neckline, long petal-point sleeves, a full flowing chapel train with motifs of lace. Her miniature pill box of matching material and seed pearls had a soft flowing bodice veil. She carried a cascade of white butterfly roses centered with a corsage. The bride's only ornament was a string of pearls, a gift from the bridegroom.

Mrs. Sandra Lee of Kinston, sister of the bridegroom, was matron of honor. She wore a floor length gown of poinsetta crepe, fashioned with empire bodice, bow lined with red satin. Her matching head piece was a circle of red satin ribbon with a back bow and veil. She carried long stem white butterfly roses with white streamers. Miss Jean Teal of Raeford, a friend of the bride, was maid of honor. Bridesmaids were Miss Carol Lorraine Hunter of Sanford and Mrs. Patricia Turnage of Biscoe. Their dresses and accessories were styled identical to those of the matron of honor. They carried a long stem white rose with white streamers.

Christie Reel Herring, sister of the bridegroom, served as flower girl in a white dress fashioned identical to those of the bridesmaids. She carried a white basket of red roses. Leland Carlyle Herring was his son's best man. Ushers were Prentice Herring of Mt. Olive, brother of the groom, Carl Kornegay, Jr. of Albertson, brother of the bride, Donnell Kornegay of Mt. Olive who is a cousin of both the bride, and groom, and Nick Lee of Kinston, brother-in-law of the groom.

The acolytes were Lynn Dickson of Morehead City, cousin of the bride, and Curtis Herring of Mt. Olive, brother of the groom. Lynn Smith of Albertson cousin of the groom, was ring bearer. They all wore strollers with white boutonnieres.

For her daughter's wedding, Mrs. Kornegay chose a winter white suit. She wore a matching hat and a corsage of red roses. Mrs. Herring, the groom's mother, chose a blue wool suit with a hat of blue net and a corsage of white roses. Mrs. D. L. Scott, Jr. of Greensboro, a former classmate of the bride directed the wedding. Mrs. Herring changed to a blue wool suit of original design and brown skin accessories for traveling. She wore the corsage from her bridal bouquet. Mrs. Herring is a senior at the University of North Carolina, Greensboro. Her husband attended the University of North Carolina, Chapel Hill and is now employed with Kay Jewelry Company in Greensboro. After a wedding trip to Sea Island, Georgia, the couple will make their home in Greensboro.

### RECEPTION

Immediately following the ceremony the bride's parents entertained at a reception in the social hall of the church. Guests were greeted in the entry by Mr. and Mrs. Harold D. Kornegay of Albertson. They introduced them to the receiving line, composed of the bride and groom, and grandmother of the groom, Mrs. R. A. Smith. The bridal table was covered with a white cloth overlaid with handmade white lace. White tapers burned in an arrangement of carnations, snapdragons and fern. Bridal squares were served by Mrs. Vernon Ferrell, aunt of the bride, and punch was served from a crystal bowl by Mrs. Bill Dickson, also the bride's aunt. Crystal dishes held white mints and mixed nuts. Mrs. Willard Westbrook presided over the bride's book. Mrs. K. J. Smith, Mrs. Remus Outlaw, Mrs. Donnell Kornegay, Mrs. Dwight Walker, Mrs. Zollie Kornegay, and Misses Marilyn Kornegay and Brenda Westbrook assisted in serving. Mr. and Mrs. Emmett Herring said good-bye to the guests.

On Saturday night after the rehearsal for the Herring-Kornegay wedding, a cake cutting was held in the fellowship hall of the church for the bridal party and invited guests. The bride's table was covered with a pink cloth overlaid with white lace. It was centered with an arrangement of white mums, pink carnations and lighted pink tapers. After the bride and groom cut the wedding cake, Mrs. Kenny Page assisted by Mrs. Douglas Powell served the guests. Punch was served by Mrs. Gerald Cottle. Crystal dishes held mints and mixed nuts. Mr. and Mrs. Douglas Powell of Raleigh, friends of the bride and groom, made movies of the wedding rehearsal on Saturday evening and of the ceremony and reception on Sunday afternoon to present as a picture story book to the couple. The bride presented her attendants with attractive gifts. Guests called at the home of the bride's parents to see the wedding gifts.

CAKE CUTTING

### Windows Keep Pace With Times

Any resemblance between today's wood windows and those prized by the Colonists is purely intentional. They are meant to look alike because of the universal appeal of the original designs. But "looking" alike is where the manufacturers draw the line. For example, to keep a double-hung unit open a Colonist either propped it open or stuck a peg in a hole drilled in the frame. Today, the same type of window can be raised or lowered effortlessly and stopped in an infinite number of positions. A variety of systems are used, including compression plates and clock-spring balances.

Other improvements in modern windows made of ponderosa pine include: 1. Insulating glass - Nearly all styles of stock wood windows are now available with double glazing to keep the loss of heat to a minimum. Insulating glass consists of two sheets of glass welded together at the outer edges with a space left between them for air. It's this layer of dead air that acts as insulation. 2. Weather-stripping - Modern wood windows are equipped with factory-installed weather-stripping that virtually eliminates the leakage of heat and the infiltration of cold air. 3. Removable grilles - Traditional styling calls for multiple panes of glass. Removable grilles now available in either a rectangular or diamond pattern can be placed over a single pane to give a multiple-pane effect. 4. Removable sash - Sash that can be lifted out of its frame is now available on many stock windows. This makes washing and painting easier. 5. Preservative treatment - Most wood windows today are made of ponderosa pine, which is noted for its dimensional stability, workability and durability. For even greater life, it is treated with chemical preservatives.

The word "carnival" originally was the name given the season of merrymaking held of the three days before Lent in Roman Catholic countries.

AIRMAN CALVIN M. STEVENS SAN ANTONIO, TEX. -- Airman Calvin M. Stevens, son of Mr. and Mrs. Matthew L. Stevens of Rt. 2, Faison, N.C., has completed Air Force basic military training at Lackland AFB, Texas. Airman Stevens has been selected for technical training as an aircraft maintenance specialist at the Air Training Command (ATC) school at Amarillo AFB, Tex. His new unit is part of the vast ATC system which trains airman and officers in the diverse skills required by the nation's aerospace force. The airman is a 1962 graduate of Hargrove High School.

Lee's Stores, Inc. Wallace - Burgaw

costs, and pocketed \$13.2 billion. During the fourteen-year span which followed, farmers noted a substantial boost in gross proceeds. The 1964 gross tally was a remarkable \$41.9 billion! But the man of the soil was bleeding from "backward progress", for in 1964 he realized only \$12.4 billion in profit--actually a decrease of some \$800 million below his 1950 net income. His costs, which had risen to \$29.5 billion, were eroding the bottom out of his pocket. Much of what Farm Bureau does, then, has roots in a basic need for bettering the financial lot of the farmer. That need, in a so-called "time of plenty", was never more pronounced. The effort continues for market expansion and increased sales. But little good is reaped when the cost seepage multiplies and then overtakes gains made at the market place. Prominent among 1965 Farm Bureau policies are statements demanding fiscal responsibility to arrest a rampant inflation spiral. Others demand the elimination of taxes discriminatory against agriculture. Present, too, are those aimed at gearing the farm operation to a greater efficiency of production. Farmers know that they can't have their cake... when somebody else is eating it.

By VERNE STRICKLAND N. C. Farm Bureau Federation

FARM COSTS UP

The American farmer is caught in the peculiar circumstance of earning more and enjoying it less. It would be more accurate to say, perhaps, that he is enjoying less of it. Simply because there's less left over. Back in 1950, the nation's farmers brought in a gross income of \$32.5 billion. They paid out \$19.3 billion in production costs, and pocketed \$13.2 billion. During the fourteen-year span which followed, farmers noted a substantial boost in gross proceeds. The 1964 gross tally was a remarkable \$41.9 billion! But the man of the soil was bleeding from "backward progress", for in 1964 he realized only \$12.4 billion in profit--actually a decrease of some \$800 million below his 1950 net income. His costs, which had risen to \$29.5 billion, were eroding the bottom out of his pocket. Much of what Farm Bureau does, then, has roots in a basic need for bettering the financial lot of the farmer. That need, in a so-called "time of plenty", was never more pronounced. The effort continues for market expansion and increased sales. But little good is reaped when the cost seepage multiplies and then overtakes gains made at the market place. Prominent among 1965 Farm Bureau policies are statements demanding fiscal responsibility to arrest a rampant inflation spiral. Others demand the elimination of taxes discriminatory against agriculture. Present, too, are those aimed at gearing the farm operation to a greater efficiency of production. Farmers know that they can't have their cake... when somebody else is eating it.

Specialist Davis entered the Army in November 1961 and arrived overseas the following May. Davis attended Mt. Olive High School.
