Boy Burglarizes Barnette

Herman Barnette's garage, located between Kenansville and Warsaw, was robbed of about \$40 Saturday afternoon. The robber proved to be an eleven year old local boy.

Mr. Barnette spent Saturday afternoon in Wilmington. Arriving home late, he decided he should fill the drink box in his garage. Approaching the building he noticed a window

was open, and on entering the building he observed the cash register was also open.

Evidently the young man decided there was no need to over do the situation, he got what he wanted, and left about half of the change in the cash register.

A suspect proved to be the right party, and \$19.35 of the money was retrieved.

Street Aid Allocations Announced

State Street Aid allocations totaling more than \$9 million will go to qualifying towns and cities in North Carolina this year under provisions of the Powell Bill. State Highway Commission Chairman J. M. Hunt, Jr. announced today.

Hunt said that 420 North Carolina towns and cities will receive proportional cash allocations amounting to \$9,322,714.20. Checks will be mailed from Raleigh the latter part of September in order that they will reach the municipalities by October 1.

The funds equal to the amount produced by one-half cent of the regular six-cents per gallon motor fuel tax levied by the State are returned annually to participating municipalities in proportional shares based on the relative non-street mileage and the relative populations of each of the municipalities.

Towns and cities qualify for participation under the Powell Bill by submitting to the Highway

Commission each year data concerning ad valorem taxes other sources of revenue, budget ordinances and municipal elections. There are some legally incorporated towns and cities which do not participate since they do not perform mu-

nicipal functions necessary to qualify under the law.

Hunt noted that the \$9,322,714.20 returned to the 420 municipalities this year is nearly twice the amount returned to 386 participating towns and cities at the beginning of the

program in 1961. During the 16 years the Powell Bill has been in effect, a total of \$108,299,284.64 has been returned to the municipalities for use on local streets.

This represents a tremendous amount of work. To receive this plaque a member must talk with many people and actually sign up 25 new members.

Mr. Cottle, past governor of the newly organized Moose Club has been a valuable member who did not mind giving his time toward helping this new organization become successful.

Blast Off-Each One Launch One

Duplin County has 8,000 boys and girls between the ages of 9 years through senior high. Four hundred of these boys and girls have taken the advantage of the opportunity and have joined the 4-H Club.

Realizing that the other 3600 boys and girls are loosing out on some valuable fun and training, the Duplin County Extension Agents have instituted a recruitment plan, "Each One, Launch One," for the month of September.

By this plan each member would bring into the club one new member. Each leader would bring a new leader and each club would organize a club. Busy young people with constructive projects seldom find time to become delinquents. Increased enrollment in this national organization will bring more programs, more activities, stronger competition, more awards, and new friends.
