Flames leaped skyward in this pre-dawn fire that hit Ramsey's Feed Mill in Rose Hill, Friday morning. Firemen from several adjoining towns battled the blaze which was brought under control by mid morning but continued to spew forth smoke from the smoldering remains for days. (Photo by Gene Pierce)

Flames of undetermined origin swept through a feed mill here early Friday, causing damage estimated at \$300,000 before being brought under control by six fire departments.  
Smoke from the mill, owned by Ramsey Feed Co., was still visible at noon. Firemen from the Rose Hill, Wallace, Teachey, Magnolia, Warsaw and Kenansville departments extinguished the blaze within one hour after it was discovered at 5 a.m.  
Dennis Ramsey, owner, said the cause of the fire had not been learned, but added that it apparently began in the old section of the mill built in 1955.  
"We don't know how it happened," he said. "The old part was an iron-clad, wooden structure, and it was very dry inside."  
The feed mill, he said, had just been inspected by insurance agents who apparently found it in good condition.  
Ramsey, noting that several finished feed tanks, each holding 100 tons of feed, were still standing, said that it wasn't a total loss. The extent of damage to the metal tanks and contents, however, had not been determined.  
According to a statement issued by Mr. Ramsey, as soon as is possible, plans will be made to rebuild the mill. "We are immediately beginning to make plans to rebuild," he said. "The chickens dependent upon this mill for feed are now being fed by the good work of our neighbors, who are manufacturing our own form of a feed in their mills. Nash Johnson, Aycock Milling, Ravenbank (Wallace FCX) and Upchurch Milling are to be commended for their wonderful cooperation."  
Mr. Ramsey also expressed appreciation to the Fire Departments of Rose Hill and surrounding areas for their alertness, speed and efficiency.

### Series of Break-Ins

Duplin County Sheriff's Department reported a series of break ins in the Warsaw area Monday night.  
Ghaynelle's Drive in, about one mile south of the Warsaw City limits of highway 117, was broken into for the second time in two weeks. Entry was again obtained through the service window which was broken completely on this time. Inside the restaurant, the cash register was cleaned out, the piccolo broken into and all the money removed and also the cigarette machine money was removed. Deputy Graham Chestnut said an estimated \$50 was stolen.  
Just up the road about 1/4 mile nearer Warsaw, the new building of H & B Milling was broken into. The glass in the side door of the building was broken out and the door was unlocked from the inside. The owner "Bo" Herring estimated merchandise stolen at \$20. The door damage was greater than the goods stolen.  
The next stop by apparently the same vandals was at Hurst Station inside the City Limits of Warsaw. Deputy Chestnut said the Warsaw Police De-

partment was handling that and he did not have an estimate of damages.

## National Retarded Children's Week

National Retarded Children's Week, beginning November 13th, will be observed here and all over the country through Thanksgiving Day to express thanks and educating the public on achievements made for our retarded.  
Just a few years ago, parents of mentally retarded children were victims of superstition,

tears and taboos. There was a widespread belief that mental retardation was hereditary. Parents and families of the retarded were regarded suspiciously and often neighbors whispered behind their backs. Now, we know of literally hundreds of causes of mental retardation. We know too that much can be done to help the

retarded lead more productive, happier lives. We know that more research will help prevent some retardation. Measles only gives most children spots, but 500 children in this country die from measles encephalitis each year - of the 4,000 children who develop measles encephalitis.
