Seventh Grade Bird Project

By: Jeanette Sanderson

The Seventh Grade of Kenansville Elementary School, has been pretty busy for the past three weeks, making bird houses and bird feeders for our birds.

Some of the students have been making reports, charts, and getting up facts about birds, for their project.

The Seventh Grade is planning to make a bluebird trail from Duplin Country Club to Kenansville. Last year the

Seventh Grade put up light blue-bird houses around the golf course in which fourteen families of blue birds raised. By putting up houses for a blue-bird trail we hope to get some of these bluebirds from the Country Club to come to Kenansville.

Many of the brothers and fathers of the students are interested in the bird projects, and are helping with the bird houses.

Some of the boys are making bird houses to sell. We hope
