Rural Women - What county do you live in? Excellent earning opportunity for rural women selling to their farm neighbors. Choose your own selling time so that it doesn't interfere with farm duties. No obligation to inquire. Immediate openings. Call 762-2963 after 5:00 or write Mrs. Pauline Culbreth Avon Manager, Box 192, Wilmington, N. C.

Lord made Heaven and earth, he had a small piece of heaven left over and some how, he found a little spot down on the Neuse River in Wayne County, where he placed it and after a long time, it was named Seven Springs.

Yesterday, I went down there and wandered around among the dog-wood blossoms, hanging moss, and wisteria. It is a place for memories and dreams. The peaceful atmosphere makes you wonder why you've stayed away so long.

As you know, there are seven mineral springs. All have different analysis. Young Gilbert Maxwell, with his fascinating smile is there to serve you the kind you need. I believe there is one to improve your disposition.

Social Security

Dr. James P. Temple, District Manager

The premium for the doctor bill insurance part of medicare increases from \$4 to \$4 in April.

Persons 65 and over who are enrolled for the supplementary medical insurance and receiving monthly social security benefits will find the checks delivered to them on April 3 a dollar less than last month's payment. For an elderly couple receiving a combined benefit check, the reduction will be \$1 each, or a total of \$2.

All social security benefit check amounts were changed last month, as a 13 percent benefit increase became effective. The amount of the increase in benefits was considerably more than the \$1 by which the medical insurance premium is increased.

The Government will continue to match the increased premium, so the doctor bill insurance will continue to be worth twice the amount of the premium paid by the individual older person.

The medicare law provides for the periodic review of the costs of the medical insurance program and for any necessary adjustments in the premium rate.

The following elements accounted for the \$1 increase in the rate, beginning this month:

About 20 cents to finance the program at the level of the past 18 months. Recent estimates indicate that the protection provided by the program was worth \$6.40 per month during the past period, and the premium rate therefore should have been \$3.20.

About 23 cents for the increased benefit protection provided by the 1967 amendments.

About 27 cents to cover the expected increase of about 5 percent per year in physicians' fees.

About 11 cents because it is expected that people under medicare will use more services covered by the medical insurance.

About 14 cents because the deductible which the patients pay will be a smaller proportion of the total covered medical charges in the future.

About 5 cents as a margin for contingencies.
