BAKERSVILLE - Pastures must be more than exercise grounds if the owner plans to receive a profit.

G. W. Conrad, Mitchell County extension chairman, says

He was Captain of the football, basketball and baseball teams at East Duplin. His home is Route 1, Albertson.

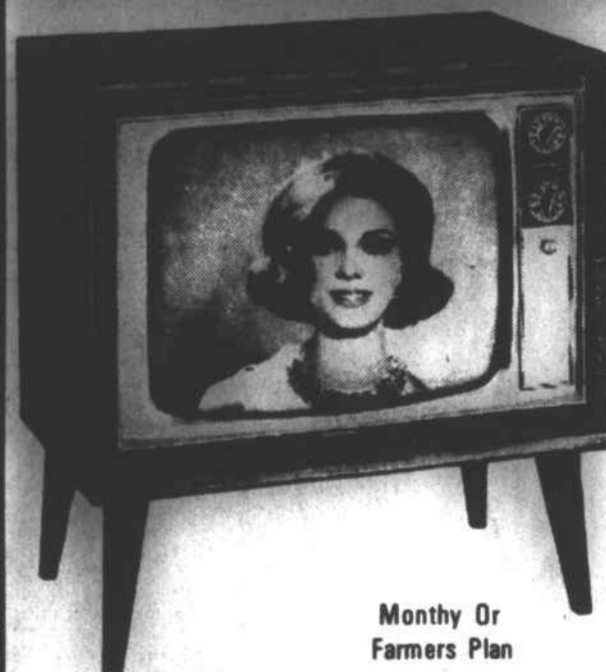

pastures must be thought of as a crop that may be sold as beef or milk. The yields of these products may be raised by good fertilization and management just as much as tobacco or grain crops, he remarks.

The first step should be to take a soil sample for lime and fertilizer recommendations, according to the county extension chairman.
