

Timely Poultry Tip

By: Snodie E. Wilson
Agricultural Extension Agent

A tidy egg room helps the producer to market top quality eggs. Therefore, the egg room should be managed in such a way to keep the room in a sanitary condition. The best eggs deserve to be kept in a clean place. The egg image can be increased by good egg room sanitation. Here are some suggestions for the egg room:

- (1) Clean the work room at the end of each day's operation.
- (2) Disinfect the holding room and work room at least once a week or more often. A good practice to follow is to disinfect the work room each day and disinfect the holding room or cooler room each time all the eggs are sent to market.
- (3) Use a clear and odorless disinfectant. Quaternary ammonia and chlorine compounds are recommended for disinfecting the egg room and equipment.
- (4) Make sure the floor and equipment is clean before applying a disinfectant. Broken eggs, dirt, or other material on the floor will keep the disinfectant from being effective.
- (5) Handle eggs with clean hands. Both hot and cold water should be provided for washing hands and equipment.
- (6) Keep dogs, cats, rats, and flies out of the egg room. Follow a good campaign to con-

trol rats and flies. They can be carriers of disease.

(7) Provide containers for broken eggs. A container placed under the brush type washer or grader where an occasional egg falls will save time and labor in cleaning.

(8) Do not place fruits, vegetables, kerosene, disinfectants, or products with objectionable odors in the egg room. KEEP THE EGG ROOM FOR EGGS ONLY. EGGS WILL ABSORB ODORS.

(9) Prevent molds from growing in the egg room. Molds can cause the eggs to have a musty odor and taste. Paints that contain a mold inhibitor can be applied to the egg room. Copper sulfate (Bluestone) is inexpensive but very effective in controlling molds. Mix one ounce of copper sulfate in two gallons of water and then spray or paint on walls or floors where the molds are growing.

(10) Burn torn, damaged and discarded egg cases, flats, and cartons. Don't leave them outside the egg room. They create an eyesore and well as a place for rats to harbor. If the premises outside the egg room is kept clean, it will give the impression that the inside is also clean.

(11) The floor drain should have a trap and be kept clean. The drain can be a source of odors. To prevent this from happening, add a sanitizer into

Construction has been started in the Ramblewood Club House. The foundation of the building has been completed, and clearing and grading is under way on the nine hole golf

course that hopefully will be ready for use by early fall.

Construction Underway At Ramblewood

The drain at least once a week during the summer.

(12) A clean egg room is attractive. The walls and ceiling can be painted with a light colored, washable and mildew resistant paint. This will give a good impression to the egg buyers. Producers should make the inside and outside of the egg room attractive. After all, eggs are a delicious and nutritious foods. An attractive egg room can help sell eggs and create a good egg image.

Some of the above suggestions are applicable to grocery stores in storing or displaying eggs.

2 4-H'ers

Continued From Front Page
Betha, 16, is the son of Mr. and Mrs. Frank Betha of Magnolia.

Newton, who on previous occasions has raised funds for many 4-H activities, says the Wallace merchants contributed heavily toward Arnetta's scholarship. In Magnolia the newly organized Community Development Club sponsored various activities to raise the necessary funds for Charles.

The 4-H'ers will leave June 23 by chartered bus for the week long activity.

"The Short Course offers unique training for 4-H Club Foundation," said R. E. Wilkins, Extension Agent for Duplin County. "It is designed to help 4-H'ers develop a greater understanding and appreciation of the American heritage; learn the basic functions of government at the national level; gain an appreciation and understanding of the international aspects of citizenship; deepen their commitment to the democratic way of life; and develop skills for practicing and teaching citizenship in their local 4-H Clubs."

Assembly and discussion programs are given in the aspects of citizenship—the nature of freedom, confidence for leadership, world horizons of 4-H citizenship.

The Nation's Capital is the workshop for this citizenship experience. Personal visits will be arranged to many historic shrines and points of interest including the U. S. Capitol, Supreme Court, White House, Washington Monument, U.S. Department of Agriculture and State National Archives, Jefferson Memorial, Smithsonian Institute, Library of Congress, Mount Vernon, National Gallery of Art, Lincoln Memorial, and the Arlington National Cemetery.

The Duplin 4-H'ers will join 4-H club members at the National 4-H Center from Arizona, Florida, Indiana and New Jersey as well as other North Carolina counties.

The foundation of the Club House at Ramblewood Country Club has been poured, and construction of the building is expected to get under way soon, assuring a dream come true for many people in the area. The Clubhouse faces rural road 1709 which leads off from Rural paved road 1005 connecting Beulaville and Pink Hill.

The 140 acre tract of land selected for the golf course is centrally located about three and one half miles south of Pink Hill, five miles north of Beulaville and nine miles South of Deep Run.

The swimming pool, also under construction was scheduled to open July 31st. However the water system installation will determine completion of this fa-

cility.

The fairways are now being cleared and graded. This project, including seeding, is scheduled for completion by August 31. The turf will require an additional thirty days development with a target date now set for use October 1st. Mr. Russell Bostic, secretary of Ramblewood, Inc. said "So many things enter into the picture, but overall we are very well pleased with the progress. If the weather will allow continued work we will surely hit our target date. Too much rain could really set us back."

The charter membership drive ended May 31 with some 215 Charter resident members. In addition to this there were some

25 or more non resident charter members. Membership, either resident or non resident, entitles a member and his family to all club privileges.

With the end of the drive membership stood at 260 residents and 75 non residents. Contractor for the project is Godwin Building Company of Warsaw. The clearing and grading was subcontracted to Ernest Taylor Company of Faison.

Cotton is used more than any other fiber in producing fabrics of all textures and weights.

Cotton terry towels are ideal because of high absorbency and ability to create friction for a good rubdown.

State Market Hog Show Set June 25-26

The dates for the North Carolina Market Hog Show and Sale have been set for June 25 and 26 at the Lenoir County Livestock Arena, Kinston.

The event, limited to North Carolina entries only, is the oldest show of its kind in the state, according to 1968 chairman Dr. J. R. Jones, North Carolina State University.

"This one should draw the best quality animals we have ever had," said Dr. Jones, extension swine specialist.

The show and sale are co-sponsored by the N. C. Agricultural Extension Service and the N. C. Pork Producers Association.

In announcing the dates for this year's event, Jones also

announced some changes in rules and regulations. One of these is a change in the weight classification from 190-230 lbs. to a range of 180-220 pounds.

Only barrows and gilts are eligible. Each exhibitor will be limited to two entries in each class.

Individual breed shows will again be held for adult exhibitors. Animals will be shown in this order: Yorkshire, Duroc, Hampshire, other breeds and crosses, Poland China and Spotted swine.

Junior exhibitors will show by weight classification only and not by breed.

Animals will be weighed and catalogued between 7 a.m. and noon on June 25. The show will begin with hoof carcass class on the first day.

On the second day, beginning at 8 a.m., the schedule will follow this order: junior show, adult truckloads of six, adult pens of three, adult individual entries, carcass show results and presentation of awards and sale of market hogs, the sale beginning at 8 p.m.

Dr. Jones said a supper of charcoaled pork cuts will be served, sponsored by the N. C. Pork Producers, at 6:15 p.m.

Francis Callahan, Milford, Illinois, will be the judge. "He has judged in all the major swine shows," said Jones. "We are fortunate to have him for our state market show."

Pope To Replace

He is married to the former Margaret Simpson of Stokesdale N. C. and they have one son, Melvin Jr. now serving with the U. S. Air Force at Pope Field, Fayetteville, N. C.

Lanier Family Reunion Set Sunday

The annual Lanier family reunion, held on the fourth Sunday in June, will be held at Laniers Chapel Church at Chinquapin on Sunday, June 23. Ray Lanier is moderator; Leonard Lanier is treasurer; Mrs. Warren Lanier is publicity and program chairman. All are of Chinquapin. A picnic lunch will be enjoyed at 1:00 p.m. with each family asked to carry a basket lunch and a quart of tea.

A "sing" and a period of fellowship will be held in the afternoon. All choirs, groups and individuals are invited to participate.

Last year, 168 registered at the Lanier Reunion; in 1966 there were 213 who registered. "It's hoped that there will be a record turnout this year." Each family is asked to see that members of their family who are living out of the Chinquapin area are notified concerning the reunion, with all relatives and friends invited to attend.

Three talent entries were chosen as winners at the County 4-H Activity Day held in Kenansville Elementary School on June 12. These winners were front row, left to right: Gayle Sloan, piano, and Linda Smith, solo. A band known as the Alley Cats which is composed of four boys, left to right: Ralph Hunter, Wayne Houston, C. A. Miller, Jr., and Milton Houston. Each was presented an engraved trophy by Coastal Production Credit Association.

RALEIGH--A Duplin County coed has proved again that young ladies can win honors at a former citadel of male education--North Carolina State University.

Miss Sarah Sheffield, daughter of Mrs. Lois Sheffield of Wallace, was recognized for outstanding academic achievement during the spring semester at the Raleigh campus.

A sophomore majoring in wildlife biology, Miss Sheffield also earned the coveted Dean's List for honor grades in the fall.

She is one of a rapidly growing coed enrollment at NCSU which is expected to reach the 1,500 mark this fall.

Seven Duplin students earned averages of "B" or better at NCSU this spring.

Chancellor John T. Caldwell announced that the Duplin students were among 1,651 NCSU men and women earning the honors.

That total represented 16 percent of the spring enrollment of 10,300.

In contrast, Dr. Caldwell noted, 482 students were suspended for academic difficulties--a ratio of less than

a third of the number winning honors.

Following are the other Duplin students to earn Dean's List honors this spring, their classes, courses, parents and addresses:

Douglas W. Brinson, a junior in economics and son of Mr. Waddell Brinson of Beulaville.

Dwight D. Grady, a senior in biological and agricultural engineering and son of Mr. and Mrs. James E. Grady, Sr., Rt. 2, Mt. Olive.

Terry Hatcher, a sophomore in civil engineering and son of Mr. and Mrs. Herman Hatcher of Rt. 1, Chinquapin.

Freddy R. Horne, a sophomore in mathematics education and son of Mr. and Mrs. Norman L. Horne of Rt. 1, Richlands.

Phillip W. Longest, junior in textile technology and son of Mr. and Mrs. Beaufort B. Longest of Rose Hill.

Cecil D. Raynor, a junior in electrical engineering and son of Mrs. Elizabeth Raynor of Rt. 1, Chinquapin.

In addition to Miss Sheffield four others from Duplin earned the honor for the fall semester, also. They are Brinson, Grady, Horne and Raynor.

Rev. and Mrs. Charles E. Owens and their children, Bobby, Rosa Mae and Eddie, who are now making their home in Warsaw at

to Mrs. Owens. Since she adopted it as her home her family has done likewise. Her parents now live in Raleigh and her only sister lives in Louisiana.

Rev. and Mrs. Owens have three children. They are: Eddie, 10 a rising fifth grader; Bobby, 9, a third grader; and

Rosa Mae, 7 and a second grader.

The entire family is looking forward to their residency in Warsaw. They find the people friendly, warm and responsive, and are very happy to be in this area.

To give new cotton draperies a trim, tailored look, pin pleats vertically at the bottom hem. Tie the pleats loosely together with a lightweight cotton cord and let them "set" for four or five days.
