

**Whaley Rest Home**

Continued From Front Page  
and Pam, are quite frequently seen running errands for the residents who feel themselves quite fortunate to reside in such a home-like atmosphere.

As you walk down the hall, you may see Mrs. Annie Hule of Warsaw diligently working a cross word puzzle or playing solitaire.

Mrs. Rebecca Rivenbark amuses herself by turning out garments with her sewing machine. She sews beautifully, but says she doesn't sew for other people, just her own pleasure.

Mr. John H. Bland of Teachey says it is just one of the finest places he ever saw. He is very interested in genealogy and if you talk with him long, you will find that he knows your family. You will also find that he thanks the management and employees are just the very best. He is really enjoying his stay.

Mr. Coy Turner of Beulaville has been a resident of other homes and he is happy to be back here where in his words "the food is just wonderful".

Miss Glennie Miller of Beulaville has been a resident of the home for about five years. She is close enough that it is convenient for her family and friends to visit her and she appreciates the fact that all the personnel is so kind and considerate.

Mrs. Christine Sanderson is day floor supervisor and Mrs. Sudie Farrow is night supervisor. They are assisted by Mrs. Beaford Outlaw, Mrs. Louise Fulwood, Mrs. Georgia Herring, Mrs. Mary Ethel Miller and Mrs. Fannie Smith.

The cooks producing the food that the residents associate with their own mothers cooking, are Mrs. Marie Casteen and Mrs. Dossie Miller.

The Whaley Rest Home with its new wing is indeed another giant step in the progress of Kenansville and Duplin County.

Mr. John Bland of Teachey, and now a resident of Whaley Rest Home enjoys TV which Mrs. John Hall, is adjusting for him. (Photo by Ruth Wells)

Mr. Coy Turner formerly of Potters Hill finds life very pleasant at Whaley Rest Home. He especially enjoys the good hot-sun food. (Photo by Ruth Wells)

**Visits Schools**

Members of the Duplin County Board of Education recently met with Superintendent C.H. Yelverton in Kenansville and toured the various school plants in the Duplin County School System. Mr. D. D. Blanchard, Mr. Russell Brock and Doctor E.L. Boyette represented the Board. It was impossible for Mr. J.F. Strickland and Mr. E.E. Rogers to attend because of business commitments.

The nine hour tour covered 125 miles and 24 school plants.

The trip provided the Board of Education members with moments of encouragement and moments of depression. There are many school plants and facilities which are up-to-date and educationally sound. The majority of the school plants and facilities are not designed for

the program which they now house, plus the fact that the life of the building has already been over extended.

The Duplin County School Board began meeting with Advisory Committees on September 10 to discuss these problems and future school organization.

**Large Group**

Continued From Front Page  
enthusiastically received by the group. He said that this was his first visit to Duplin in thirty years, and that he was representing the American Party which is Gov. Wallace's party. He told the group that the picking of the Democratic Candidate and the Republican Candidate had been done long before the "Charade in Miami and the Window dressing in Chicago". He further said, "We do not have a two party system in this country, we have only one party, and this condition will persist until we get George C. Wallace for President."

He further stated, "It is time to recognize who and where the enemy is. The United States is committing suicide. Study the platform and see they have no intention of stopping it. The only man who recognizes the enemy is George C. Wallace and he is going to deal with them."

He pointed out the conditions in Washington, D. C., the Federal Court, and he stated George Wallace's ideas on Foreign Policies and that he would bring "a quick close to the War." He

Mrs. Rebecca Rivenbark formerly of Warsaw brought along her sewing machine when she became a resident of Whaley Rest Home. She enjoys creating pretty garments. Right now she is making the backs for draperies she has already completed. (Photo by Ruth Wells)

said Gov. Wallace promises to get control back to the states and individuals. Woodrow Hudson, chairman of the Third Congressional District made a few remarks, after which the meeting was closed.
