**How big can a penny grow?**

How big can a penny grow? Ask one of the forty-two million people in the country who have an account with a savings and loan association like Cooperative. In the past ten years the number of savings and loan savers has tripled. Why people save might be hard to explain, but this fact is clear. More people in Eastern Carolina save at Cooperative than any other place. Why don't you open an account where thousands are saving millions.
