NFO Chartered 1969 ACP Signup For Duplin County

The president Alton Powell of the Duplin County unit National Farmers Organization has reported that Duplin is a Chartered County.

This is part of the structure that is necessary to make NFO an effective organization. With the cooperation of the great farmers of this county, they expect to get a better price for their productions. They believe that they should have some say about the price they receive for the products they produce.

For this reason they are soliciting the help and support of all farmers in the county by urging them to join NFO.

Farmers are probably in a class by themselves in that they ask "What will you give me for my produce?" Everyone except the farmers holds his wares for a certain price.

Only through organization can this situation be remedied, and the NFO proposed to set prices.

NFO is a legal, fair and effective organization with county wide meeting at the Court House in Kenansville every first Tues-
