

The past five years he has been a resident at the Hospital, University of Florida at Gainesville. In June he will complete his specialty in facial plastic and reconstructive surgery, ophthalmology, and head and neck surgery.

Following the wedding, a reception was held at the Chief Petty Officers' Club, Jacksonville Naval Air Station. The couple then left for a wedding trip to an undisclosed location. They will make their home in Gainesville, Florida, until July, at which time Dr. Teachey will begin an assignment with the United States Army in Seoul, Korea.

Rehearsal Dinner
Mr. and Mrs. William R. Teachey entertained their son, Dr. William Swain Teachey, his fiancée, other members of the wedding party, out-of-town and special guests at an after-rehearsal dinner in the Royal Galley Room of the Holiday Inn in Jacksonville on Friday night at 7:00 o'clock. They were assisted by Mrs. Robert Alton Hahn of Wilmington and Mrs. Crum Conner Powers, Jr., of Spring Lake.

Dr. Teachey and Miss Linder Speak Vows

Donna Jean Linder of Jacksonville, Florida, and Dr. William Swain Teachey of Rose Hill and Gainesville, Florida, spoke their marriage vows on Saturday, March 24, at 4:30 o'clock in the Jacksonville Oak Crest United Methodist Church. The Rev. James T. Wagner, of Gainesville, Florida, officiated at the double ring ceremony.

Given in marriage by her father, the bride is the daughter of Mr. and Mrs. Leonard Wood Linder of Jacksonville, Florida. Parents of the groom are Mr. and Mrs. William Roosevelt Teachey of Rose Hill.

Wedding music was furnished by Ken Robinson, organist, and Pat Liebhauser, pianist, a college roommate of the bride. Traditional wedding marches by Longhagen and Mendelson were used for the processional and recessional. Miss Liebhauser sang "The First Time Ever I Saw Your Face", "The Wedding Song", and "Love, Look at the Two of Us."

The bride wore an ivory floor-length empire gown featuring a fitted bodice of beaded Alencon lace over satin. The full length sleeves were of Alencon lace embroidered with seed pearls with pleated satin cuffs. Her cathedral length veil of silk illusion was attached to a Juliet cap of beaded Alencon lace over satin. She carried a bouquet of white and yellow roses and peach cysanthemums centered with a white orchid.

Sandy Crabtree, a former college roommate of the bride, of New York City was maid of honor. She was attired in a yellow floor-length empire gown of flocked organza, that featured puffy long sleeves, French cuffs and a stand-up collar. Her headpiece was a

circle of peach and yellow pom-poms and baby's breath. She carried a basket of peach and yellow pom-poms, baby's breath and daisies.

Wanda Linder and Gloria Linder, sisters of the bride, were bridesmaids. Their attire was identical to that of the maid of honor except their dresses were peach colored.

William R. Teachey served as his son's best man. Ushers were Terry Linder of Jacksonville, brother of the bride, and Danny H. Teachey of Rose Hill, cousin of the groom.

The mother of the bride chose for her daughter's wedding an A-line street length dress of aqua polyester knit accented with long aqua lace sleeves and a jewel neckline. Her accessories were of a harmonizing color and she wore a corsage of yellow tea roses.

Dr. Teachey's mother designed and made for her son's wedding a street length ensemble consisting of a dress of hot pink dacron polyester crepe with a bias rolled collar. The long sleeves were overlaid with a harmonizing light pink polyester lace. The full length sleeveless cardigan jacket was also made of the lace. She wore hot pink accessories and a lavender hybrid orchid corsage.

The bride is a graduate of the University of Florida, at Gainesville, where she was a member of Alpha Lambda Delta and Sigma Theta Tau. In June she will complete her studies for a Master of Science Degree in Pediatric Nursing at Yale University, New Haven, Connecticut.

Her husband is a graduate of the University of North Carolina at Chapel Hill, where he was a member of Phi Eta Sigma and Alpha Epsilon Delta. He is also a graduate of the University of North Carolina Medical School. For

MR. WIZARD EXPLAINS WHY YOUR ELECTRIC BILL MIGHT BE HIGHER THIS TIME OF YEAR.

Some of the answers may surprise you, but they make good sense when you think about them.

Obviously, the colder weather has a big effect on your electric bill, even if you don't heat electrically. You're home more. You cook more hot meals. Watch more television. In fact, there's not a single moment that some appliances aren't using electricity around your house.

But one of the biggest items on your electric bill can be hot water. And in the winter, since the water coming into your pipes is so much colder, it can take as much as fifty percent more electricity to heat water than it does in the summer.

The bath you took in January cost more than the bath you took in July, because it takes about 50% more electricity to heat water in the winter than it does in the summer.

And when you consider that every person in the average family uses about 12 gallons of hot water a day, you can see why this can add so much to your electric bill at this time of the year. So if everybody tries to cut down on the amount of hot water they use, it can make a difference in your electric bill.

CP&L wants to sell you all the electricity you need, but they don't want to sell you more than you need. And that's a fact.

Mr. Wizard

Don Herbert, TV's "Mr. Wizard," speaks for CP&L in the company's continuing effort to help you save money on your electric bill, and at the same time help conserve our country's natural resources.

CP&L
Stop by any CP&L office for a free book filled with ways to save on your electric bill, and a READER'S DIGEST reprint on "How To Cut Your Heating and Cooling Bill."

Do you use 2,4-D?

Take a look at Liquid AAtrex 4L

It's the improved AAtrex that you can apply with most 2,4-D sprayers and get the kind of weed control you need:

Broadleaf weeds and grasses. Full season control.

Liquid AAtrex 4L pours right from the container into your tank. Spray it on preplant, preemergence, or post-emergence. With liquid nitrogen or fertilizer, it you like.

Switch to liquid AAtrex 4L this year. And get the kind of weed control you need.
