Frederick's invites you to see the Regent . . .

The Hammond Time Machine

Here's a genuine horseshoe styled console with the nostalgia of yesterday and the electronics of tomorrow. The new Hammond Regent offers extraordinary theater design and performance with the reliability and flexibility found only in Hammond's new space age technology. The electronic breakthrough that put man on the moon. The Regent covers the gamut from the yesteryear sounds of weeping tibias, shimmering strings, a plaintive oboe, a noble post horn and a delicate chrysolott to pizzicato, sustain for chimes, orchestral bells and music box. And don't overlook the exclusive Hammond arpeggiator that plays broken chords and scales automatically with a twist of the wrist. The cove lights even have a dimmer switch and an in-built cassette is included for play along and recording fun. Drop by today and see why the Hammond Regent turns back the clock.
