IH lets you adjust from high to low as you mow.

Lawn mowing is a lot faster and more fun if you don't have to stop every time you want to make an adjustment.

Before you invest in any new lawn cutting equipment, make sure what you're buying will do the job. Not become part of it.

And with an IH Cub Cadet Lawn Tractor, you don't. You can raise or lower the mower height while you're mowing. So you save time and bother.
