

ASCS Committee Elections Complete

Community elections were completed on December 15, when delegates to the county convention elected the county ASCS committee for the coming year. Elected were G. L. Holland, Chairman; Jack D. Patterson, Vice Chairman; Joe J. Ward, regular member; George Cowan, 1st Alternate; and Willard Westbrook, 2nd Alternate.

The county ASC committee is responsible for local administration of government farm programs.

The vacancies were filled by farmer-delegates who are newly-elected ASC community committeemen for 1974. Community committees assist the county committee in farm program administration and help keep farmers informed of program provisions.

County committees are elected by the community committeemen to serve staggered three-year terms, so that ordinarily one vacancy occurs each year. The county committee alternates are elected for one-year terms.

* The newly elected county and

community committeemen take office January 1, 1974.

Community committeemen elected on December 15 for a one-year term are: A. Alburtson, Alvin Stroud, W. Coy Smith, Donald K. Outlaw, E. Cypress Creek, Hobart Brinson, Raymond Brown, Garland Whaley, C. Faison, Roy McNeill, Sam Taylor, Robt. Pate, D. Gilson, George Kelly, Larry W. Harper, and Willard Westbrook; E. Island Creek, Thomas Cavanaugh, Wilbert Hanchey and A. C. Kenansville, O. R. Sizemore, Thomas Chestnut, Jimmy Stroud, G. Limestone, George R. Cowan, Ervin Lanier, Donald Miller, H. Magnolia, Bertice Quinn, Galtha Drew, David C. Byrd, J. Ro-fish, Gibson Carr, Franklin Williams, Paul Smith; K. Rose Hill, Eugene Wells, William E. Wells, Albert Corlie, L. Smith, D. L. Smith, Lawrence Houston, Kermit Williams; M. Warsaw, Herbert West, William Costin, Edward L. Blanchard, N. Wolfscrape, C. C. Ivey, Jr., Clyde Stephens, and Marvin Brock.

Appointment Of Local Chairman

Wayne L. Hamilton was named chairman of Warsaw's First Annual Jelly Wash when by Duane Essell, president of the Warsaw Jaycees. Wayne will head the local drive during the week of January 20 through 26 to raise money for the North Carolina Dairy Center at Chapel Hill.

Jaycees and volunteers will canvass North Carolina's towns and cities that week, selling jars of jelly to aid organiza-

tions giving service to North Carolina Dairy Center. A goal of six hundred jars of jelly has been set for Warsaw. This goal is to be reached in only one short week and full cooperation from the citizens is imperative for a successful drive.

All money raised during the Jelly Wash Drive will be used for the construction and equipping of the North Carolina Dairy

Center at Chapel Hill. There are only a few of these busy centers in the nation. This particular one would serve this state with a special service.

OIL RESERVES

An estimated 2.8 trillion barrels of crude oil and more than 200 billion barrels of natural gas liquids occurred originally in place in the earth within the U. S. and its offshore areas. Proved reserves of crude oil and gas liquids amount to 39 billion and 7.7 billion barrels, respectively, including Alaska's 2.6 billion barrels.

By Warren B. Smith, Director, Energy Economics Gulf Oil Corporation

What are the possible solutions to America's long-term energy problems? There are three possible courses of action. The first one is to depend on an ever increasing volume of imports. This is easy, it requires little planning, but it's a relatively high-cost solution and foreign oil is not a secure supply for the United States. The second possibility is to cut our consumption. Now, this is a lower cost solution but it would require rationing and it would affect the American economy.

The third possibility is to develop the vast oil and natural gas reserves that are available in the United States. This is very desirable in that it provides our security and it promotes economic growth. On the other hand, it would require higher prices and it would require a technical change of attitude on the part of the U.S. Congress.
