## Submerged Vehicle

An auto driven by Lile Bea Robinson, Route 1, Teachey, was pulled from Duffs Creek Monday after it hit the bridge and plunged into the creek.

According to Trooper R. N. Johnson, the Wallace Police Bepartment got a call around 12:35 p.m. Monday from a motorist saying a car was in Duff's Creek, 2.7 miles west of Wallace on RPR 1101.

Johnson found the 1969 Ford in the creek with about five inches of the roof showing. He heard mosns coming from the auto and waded into the creek in neck-deep water. When Johnson reached the victim, she was reported to be in a semi-conscious state, holding her head above the water.

The Wallace Rescue Squad was called as well as a wrecker. The windows were up, and the doors closed in the submerged cat. The right door was pried open to six inches to help hold the woman's head above water.

As the eye sees the beauty of the fountain, the mind will be aroused with the simplicity behind its ever-continuing flow of water. "Three Fountains and Two Frogs" is the handle used by Henry West to describe the new addition to his gardens behind the Westwater Country Ham House on Highway 24, near James Kenan High School. What it is, is a water-spouting fountain — a large one, two small ones and two frogs who are also spewing forth water. complete every year . . . . with

complete every year . . . with the average person never knowing it isn't complete. Last year Henry built the windmill. It added to the beauty of the gardens, and to most it seemed complete . . . But not to Henry . . . The fountain had to be added, which he is doing, and hopes to have complete by the blooming season. . And if it is complete now, only Henry West knows for sure . . politician, when you ask him, he will smile and lead you off onto another subject.

I came to know Henry West, not because of his gardens but from his country hams. The gardens are an added pleasure. Of all the meats, cured and fresh, that are edible, the old-fashioned country ham to me is the best. If there is such as thing as a ham-a-holic, I suppose I am one. Most people crave inch-thick steaks, but I'll take country ham any day. I crave inch-thick steaks, but I'll take country ham any day. I don't know just why I have such a craving for country ham . . . maybe it is a carry-over from my youth. When young I lived on a farm, and back then there were few freezers, so meats had to be cured to keep through the summer. In fact, I remember the first freezer for homes I ever saw, and quite frankly I didn't balleve the stories told about it. They had items on display that had been kept in a freezer for over a year and claimed they 

to prop it on my ears to keep it from covering my eyes. I am sure you have seen those little funny out-of-shape dolls called Drules that hang from the rear view mirror of autos. . . Well, if you have ever wondered where they got the ideas to create them, it was from looking at new recruits in the Navy . . . . But back to the country ham. Everyone kept telling me the food in boot camp was the worst in the Navy . . . that if I would just wait until I got on a ship, the food would be better . . But they lied to me . . I think the cooks on the ship I was on got pleasure from taking good food and ruining it so no one would cat it. Did you ever try to eat providered eggs that were still day? . . Or corned beef that a fre are would not cat? . . Or (Continued to Page 6)
