Balanced capacity—more productivity, less maintenance

International 715/815/915 Combines

A big International combine answers the need to cover more acres a day with fewer grain losses. From cutting to unloading, balanced capacity meets varying crop conditions. Great for those extra-heavy hanging heads of maize. Plenty of grain header size from 10 to 24 feet, and the power to harvest at a fast pace with 144 to 162 hp.

- Low profile design—go through a 12-ft. door. Easier storage and transport, too.
- Fast changeover to other crop headers with Quick-Attach universal feeders.
- Hydrostatic all-speed drive and comfort-control cabs are standard.
- Big-mouth cylinder/concave space—extra room for crop to enter; exclusive fin and wire straw walkers.
- Unload grain thru 12-in. auger tube, 146 bushels in 1 1/2 minutes.

Let's arrange a demonstration. Finance plans available.
