day is the day set aside for or most of the world...that sless you are a football Or maybe I should say

the week on Wednesday and to end up....On the Process Sunday afternoon or Monday night.

One Coach told me, "I have a eal good team....They like to practice.....They like to put on heir uniforms and show off..... Sut when it comes to football tames, they don't want to put orth the effort it takes to vin....They want to win ..... forth the effort it takes to win.... They want to win .... They just don't want to work for it.... They go onto the field and lollygag around, hoping that by some miracle or that one big play that they will win the game.... Or better yet, they would like to show up for the game all dressed in their uni-

A group of church leaders recently met in Calypso..... am not sure if they were from all over the state, or just from the Southeastern region..... But in any case, most did not have to contend with trains at their churches..... At least, the secretary apparently didn't for it tary apparently didn't....for it was noted in the minutes, "A meeting for the train engineer to play with his whistle."....

A couple of things worth keeping an eye on ... The County Commissioners are attempting to cut overtime on ambulance transfers from Duplin General Hospital to other hospitals, and vice versa..... Additional help has been hired.... There are two persons being gaid to make these trips... But guess what?... There was only one transfer this past week and it was on a Saturday morning.... And these two employees already had their 40 hours in, and someone else had to be called in.... There were no transfers and they had put in their full week.... Sounds like something is wrong.....

Elsewhere, the Board of Education has received bids for construction of the Kenanaville Elementary School, and they are short nearly \$200.000... The bids came in at \$1.394.000...

They had one million, two hundred thousand..... It will be interesting to see how the Board will attempt to get the additional \$200.000 from the Board of Commissioners, who say they have no extra funds... Sou-of-a Gun.....

## Faison-Calypso 1-40 Link Ok'ed

A \$6 million project to link U.S. 117 from Calypso to the pro-posed Interstate 40 Corridor Extension in Faison was

approved Friday by the State Board of Transportation.

The five mile project calls for improvements to U.S. 117 between Calypso and Faison, and construction of about three miles of new two-lane roadway, on a four-lane right-of-way, to link U.S. 117 with the proposed I-40 link in Faison.

The project will start just north of Calypso and run for about two miles along U.S. 117 The excellent buildings and before veering off just north of Faison, where construction of the new two-lane stretch will

The new road, after leaving the 117 highway in the Faison area, will veer west just north of Faison, and extend for about three miles before it ties into the

The new road will be located just north of Secondary Road 1324, which is a road off Highway 403, and that construction is scheduled for the

Earlier this year DOT approved a I-40 corridor which will run from I-95 in Benson along N.C. 50 through Newton Grove

and Suttontown to Faison, and then down U.S. 117 to Wil-

mington. Funding for the Raleigh to 1-95 Benson leg of 1-40 has already received apparent. It is hoped that the entire 1-40

project might be completed efore the end of the 1980' Warsaw

Duplin County Board Of Commissioners Meet

Over \$7 Million

The FriHA approved some \$7.4 million of loans and grants in Duplin County for housing, farming, and municipal water and sewer systems during fiscal year 1978, J.M. Mills, Jr., County Supervisor, announced Monday.

Mills pointed out that the housing program, not only assists many families, but plays an important role from an economic standpoint. The benefits include job opportunities, additional businesses, and broader tax base.

A total of \$352,300 was looped for water and sewer systems to the Towns of Greenevers, Magnolia, and Teachey. Grants totaling \$467,500 were approved for the above towns, plus, a grant of \$8,500 was made to the Town of Kennowville.

The Commissioners also requested the Airport Commission to look for a capable person to manage the Airport and to have the Personnel Director of the Airport Commission, met with the Board of Commissioners Monday to discuss the Airport. He reported that the Airport Manager-Operator has left the facility.

Rand said the Commission have the Personnel Director check applications on file for a person who might be interested in this type of work.

Jerry Pruitt, Joe Neely and Lethco Wrenn appeared before the Board to explain the services of the Vocational Rehabilitation

left the facility.

Rand said the Commission had discussed the problem of not having someone at the Airport at all times for the purpose of security and gasoline. He requested the Commissioners hire someone to operate the Airport and to have gasoline put in the tank, since there is no fuel for the planes. Commissioner Hoffler explained that arrangements have been made to have the ground around the airport maintained. After discussion, it was agreed to have the Chairman request the Sheriff to patrol the area to check the airport on a schedule. The grounds will be maintained by the county maintenance, and the buildings will be cleaned by the Housekeeping department. The Chairman instructed the County Accountant to set up a revolving gas account and order 4,000 gallons of fuel and to contact Rand regarding the charge to users. He was also advised to set up a \$50 petty cash fund for James Rusher to make change for purchasers of fuel and monies are to be turned into Accountant Bussell Tucker. of the Vocational Rehabilitation Program. The Commissioners discussed temporarily moving the offices out of the south wing of the hospital due to the cost of heating the building during the winter months, and also because of renovating the building for Mental Health building for Mental Health offices. It was agreed to temporarily house the Vocational Rehabilitation offices at the Duplin County Office Complex on Highway II. Pruitt said there is a need for a rall on the ramp, and a ramp of some sort for a person to be able to get into a wheelchair from a car. Arrangements will be made to move the two offices.

the rental of space in the C.W. Dobbins School in Wallace to James Sprunt Institute for \$100

A report on uncollected

A report on uncollected taxes as of September 30, 1978, was presented to the Board.

Also presented was a report on the cost of hauling industrial waste from July 1, 1978, through September 30, 1978.

The Board agreed to begin the meeting of November 6th at 9 a.m. due to the presence.
