10 CENTS PLUS TAX

An item that has caused much controversy, pro and con, came to an end this week. . . Well, actually it was made retroactive, actually it was made retroactive, so it really ended July 1st. And that was the salary supplement for Dr. Carl Price. President of James Sprunt Institute. The County had supplemented for two years the salary of \$25,000 with \$4,000, for a total of \$29,000. This was done to keep Dr. Price at the for a total of \$29,000. This was done to keep Dr. Price at the salary he was making before being appointed President of JSl. He had time in grade, so to speak, in his previous position, but had to begin at the beginning in the position of President. . The State, however, has seen the error of its ways so seen the error of its ways, so they have changed their rules, thus allowing payment of equal salary, in this case, . .

I have been attending the James Kenan Junior Varsity Football games this year, and have seen some very green young men turn into a wellyoung men turn into a well-trained team. . . To appreciate that statement, one would have to have seen the first and the last game. . . The first gan

the service. The drift in-structor yells, "Left Face," and some turn to the left, and some turn to the right, and some just stand still. All the D.I. had was a crowd. But in this last game. Coach Mickey Benton. at kest in the beginning of the game. . . had these young men molded into a well-operating team. . The usual propaganda preceded the Clinton JVs. . The JK jayvees were told they would not even score on the Clinton . . But the JK JV's put 6 Tige points on the scoreboard before

ints on the scoreb the Dark Horses got their blinders off. . The game was very hard-fought, with few penalties, and the score was either tied or JK was ahead. Then, with only five or six minutes left in the game, JK had Clinton whipped on the scoreboard. . and in spirit, and the Dark Horses were hanging their heads in shame. JK back, James Frederick (22), with some excellent broken field running, moved the score to two touchdowns ahead of Clinton. . But, in one of the worst calls I But, in one of the worst calls I have seen a referee make this year, clipping was called with all 27 football players on their feet. . . . No one was on the ground. How a clipping penalty can be called when no one is down is questionable to me. But this was the turn-around. From here a the well-planned, well-played ame went all to pot. The team, rather than acting with cool, calm determination, began to act instinctively. They simply gave Clinton the ballgame with only some four to five minutes to go. Clinton did not beat the JK Jayvees. They gave them the game. But the best part was the fact that JK beat Clinton in acore and spirit before they decided to stop playing - and act like a crowd again.

igain... The Warsaw Veterans' Day Committee will honor Dr. and Mrs. Edwin Patterson Ewers at the S7th annual Veterans' Day Celebration Saturday.

The committee selected Dr. Ewers for his devoted service to the people of Duplin County through his practice of medicine. THE KNOWLES BUILDING

According to my information, the Great Pumpkin had three little goblins working with him Halloween night. These three were apparently disappointed that there is only a Worthington Building, and not a Knowles Building, so they did something about it. Or at least there was a sign saying so. As the three told the story, they were successful the story they were successful the story, they were successful the story they disappointed the story did something about the story they disappointed the story did something about the story they disappointed the story did something about the story they disappointed the story did something about the story di THE KNOWLES BUILDING

dealer said he would teach him.

. One day, while the lessons were going well, it was determined it was time to learn to park. So the pair did their practicing behind the hospital. The new driver parked and was told to back out. Well, he forgot to put the auto in reverse (it was still in forward gear). The auto, when accelerated, raised up onto the curb. The new driver excitedly mashed the brake to the floor to stop, but he missed and hit the gas pedal, and rammed the accelerator to the floor. Not only did the auto climb the curbing, but it also climbed up onto the rear of an auto across the curbing. The two autos appeared to be playing leap frog. And the question to Elmore Bell is Ane you sure you were parking, or were you landing?. Son-of-a-Gun.
