Warsaw Board Awards

Municipal Park Contracts

Contracts were awarded for the completion of the Warsaw Municipal Park during the meeting of the War-saw town board, September

Recreation Director Neale Turlington presented the board with bids received on the park project. And, Turlington said, the Recreation Commission recommended the bids be awarded to A. & R. Supply Company of Kernersville who submitted a \$20,000 bid on the ballpark lights. The commission also recommended All Steel Products of Columbia, S.C., be awarded the tennis courts and fencing contracts. All Steel Products submitted a total bid for the fencing and two tennis courts of \$30,145.

The commission requested \$5,500 for playground equip-ment and \$400 for picnic tables and grills. The above items were recommended to be purchased through the recreation department. Re-maining funds after the awarding of the contracts and the payment of architectural fees would be used in a contingency fund for building a concession area, Turlington said.

A motion to authorize the awarding of contracts as requested by the recreation commission was made by Commissioner Frank Steed. However, Steed included, the contracts should be reviewed by Jown Attorney
Jene Thompson before awarded to the low bidders. Commissioner Billy Kennedy and was unanimous.

Hardison To Speak

At Graduation

The eighteenth annual graduation exercises for James Sprunt Technical College will be held Sunday, September 21 at 6 p.m. in the William Rand Kenan, Jr. Amphitheatre in Kenansville. Approximately 200 graduates will receive degrees, diplom, and certificates in general education, technical, vocational and adult diploma programs.

The public is invited to the exercises and to hear The Honorable Harold W. Hardison, Senator of the Fifth Senatorial District of Duplin, Lenoir and Jones Counties. Hardison has held public office since 1979 when he was elected to the N.C. House of Representatives. In 1972, he was elected to the N.C. Senate, where he still serves. He is presently chairman of the senate appropriations committee and vice-chairman of the state government committee. He is also a member of the agriculture, basic budget, banking, finance, natural and economic resources, public utilities and energy, rules and operation of the senate, human resources, transportation and ways and means committees.

In addition, Hardison owns Eastern United Tires in Kinston and manages the Humphrey-Hardison Oil Company which he established in 1946. He was in the U.S. Air Force for four years and served two years in the 7th Air Force in he Pacific Theater.

Hardison was raised in Deep Run where he attended public schools. He is a graduate of Atlantic Christian College. He is married to the former Arleen Humphrey. They have a daughter, Pam

Following the graduation exercises, the public is invited to attend a reception on the grounds of the amphitheatre. In the event of inclement weather, the exercises and reception will be held in Kenan Memorial

With the recreation project, the board approved payment of landscaping and grading fees for the municipal park to Good Earth Associates of Wilmington. The total fee was \$15,560. The board approved the payment of \$2,000 to Parks Recreation Consultants of Goldsboro, architects for the municipal park. An additional fee of \$7,700 will be paid the architecural firm over a period of three months.

Payments and contracts awarded by the board to-taled \$82,243.72. A budget of \$100,000 for the construction of the park is composed of a 50% matching grant from

the Bureau of Outdoor Recreation. After awarding contracts and payments a contingency fund of \$17,756.28 will remain. fund of Turlington said, the recreation commission hopes to construct a concession building for \$10,000 and use the remainder of the funds to resurface the outdoor basketball area and lay out a jogger's trail through the

Carolina Telephone and Telegraph Company representative Ruby Allsbrook appeared before the town board requesting the commissioners support of tollfree service throughout Duplin County. According to

Ms. Allsbrook, telephone customers in Duplin County would be able to call toll-free anywhere in the county if the service receives enough citizen support. However. she added, an increase in the flat rate of service would result if customers began the toll-free dialing.

Warsaw Commissioners instructed Town Clerk Alfred Herring to write a letter agreeing for Carolina Telephone to poll the area subscribers on the toll-free service. However, the board would not support the toll-free system until the increase of the flat rate was submitted for the commissioners'

A gas saving device was presented to the commissioners by Donnie Ezzell. According to Ezzell the device when installed in an automobile will save a minimum of seven percent in fuel. The product is sold by Ezzell under the name of XPCL. No decision was made on the XPCL by the board.

After the close of the public hearing to rezone the Warsaw Apparel Co. area. Blocks 18 and 39 were zones business. The area had been zoned restricted business. No persons appeared at the public hearing to comment on the rezoning of the two

DIAGNOSTIC LAB DEDICATION - Commissioner of Agriculture James Graham presided at the dedication ceremony of the new Rose Hill Diagnostic Lab. The lab was originally located on Church Street in downtown Rose Hill, but had outgrown the

building. The new building was constructed to allow more working space and the addition of mammal disease diagnostic services, Lab Director Hugh Powell said. Commissioner Graham is pictured above with Dr. Hugh Powell, D.V.M.

for fire vehicles would take

place within the second five

years of the contract. During

the third five yers, the town

would expand the meeting

area. Upon the completion of

the two phases the building

will be jointly owned by the

fire department and town

hall with both departments maintaining the building.

The project was designed to include all necessary ex-

pansion to meet the town's

contract with the fire depart-ment, Brinson said. Bidding

the project in two contracts

will allow the town to com-

plete the expansion or build

only the portion which is called for during the second five years of the contract.

The estimated cost of the complete project is \$120,000, Brinson said, which would

mean an approximate debt of

\$9,000 a year for the town

over the next 40 years.
"I think we should drop

the idea right now, we can't afford to build right now,"

Commissioner Betty Long said. "When we were first

told about the expansion it

Animal Disease Diagnostic Lab Dedicated

The Rose Hill Animal Disease Diagnostic Laboratory was dedicated Wednesday afternoon following a meeting of the North Carolina Board of Agriculture.

The new facility replaces a poultry disease diagnosticlab which had served the area for 20 years. It is operated by the Animal

Health Division of the North Carolina Department of Agriculture. According to state Agricul-ture Commissioner Jin

Graham, the new laboratory will provide animal disease diagnostic services to south-eastern North Carolina. "Poultry is a major indus-

try here," Graham said in presiding over the dedication, "and the area has become the most intense pork producting section of the state. Added to that are beef cattle, dairy farming and horses. If ever there was a need, it was here and this new laboratory has filled it."

In the dedicatory address, state Senator Harold W Hardison (D-5th District) of Deep Run said: "This new facility by far expands for North Carolina Department of Agriculture's ability to serve the people. It increases the capability to handle and

diagnose all species of animals and thereby enhances the opportunity for farmers of this area to pro-duce livestock and poultry."

Others on the program included Ebern T. Watson. Jr. of Watson Seafood and Poultry, Rose Mill, offered the Invocation; Dr. David E. Harling, president, N.C. Veterinary Medical Association, Greensboro, remarks, and Dr. Hugh M. Powell. Rose Hill laboratory director, led a tour of the building.

The 3,500 square foot concrete structure is equipped to handle all animal species including pets. Some pro dures, however, will be re ferred to the Rollins Labora-

tory in Raleigh. The laboratory was designed by the architectural firm of Brice-Morris Associates, Inc., of Charlotte and built by Dixie General Contractors Inc. of Wallace at a

stated. "These expansion plans are designed for luxury, but we're talking about bare necessities," Commissioner Earl Hatcher said. The plans should be redrawn, and the building squared as we had originally proposed, Hatcher

Commissioner Jimmy Johnson made a motion to send the drawings back to the architect with the instructions to square the building. Commissioners Hatcher, Cordell Johnson and William Fennell voted with Johnson. Commissioner Betty Long voted against the motion.

Town Administrator Brinson recommended the Kenansville board approve Beulaville as a member of the tri-town administration. The tri-town administration was originally formed by Kenansville, Rose Hill and Magnolia sharing the services and salary of a town administrator. Magnolia pulled out of the tri-town arrangement in the spring. The Beulaville board of town commissioners voted to enter the tri-town arrangement at their September meeting. Kenansville commissioners which will replace Magnolia in the tri-town administration arrangement. Beulaville and Rose Hill will each be paying 25% of the administrator's salary and Kenansville will

furnish the remaining 50%. Travel expenses are also shared by the towns.

A report from Public Works Director Larry Hoffman

called the board's attention to the need for a new dump truck and a motor overhaul away. The dump truck had been bought second hand from the Department of Transportation Brinson said. and has served the town four years. The tractor, a gasoline powered 135 Massey Ferguson, was purchased in 1969 as a new piece of equipment. While the tractor is out of service the town will have one tractor working. Huffman said.

The board voted unanimously to purchase another used dump truck from the DOT for approximately \$1000-\$2000 and place the town's name on a waiting list for used flatbed trucks. The board voted to fix the engine in the tractor.

Over the past two weeks the air-rater at the waste treatment plant has been torn up, Huffman said. Because of the problems with the aerator the plant has not maintained state standards, he said. And, until the plant reaches state standards the treatment plant will be inspected each week by a representative from the Environmental Management Commission, Huffman explained.

The public works director also reported four major water leaks in the town of Kenansville and mentioned an indefinite amount of smaller leaks along the town roads. Huffman reported the removal of the fire hydrant used by farmers to get water. The hydrant had been left partially opened, he said, and drained across the town park and ball field.

A request by Dr. Clark Hanmer to continue parking a small travel trailor at his home as a home for his mother was denied by the

Dedication Of Beulaville And Magnolia Housing Units

The Eastern Carolina Re-gional Housing Authority dedicated two housing units in Duplin County last week. The projects will serve the low to moderate income fam-

Both projects, 26 units containing one, two, three, and four bedroom apartments, are owned and managed by the Housing Authority. The apartments are designed to be energy efficient and rents are based on family

Architect for the Mercer Court in Beulaville and the Magnolia Court in Magnolia was Billy Griffin of Goldsboro. The cost of constructing the two projects was \$1,720,000.

During the dedication Housing Authority Attorney David Ward said the Beulaville project began in 1978 and is the fastest completed housing project undertaken

The Eastern Carolina Regional Housing Authority was organized in 1911 and serves 10 counties which includes Duplin. The authority has housing projects in operation or under allocation in seven counties and they are making efforts to help small communities and towns obtain housing needs, Ward said. Before the dedication of the Beulaville and Magnolia units the Housing Authority had 490 units in operation the Duplin projects increased the total to 540, the

attorney said. He added.

another 143 units are under construction or allocation.

Applications for the projects will be taken September 23 in Magnolia, September 24 in Beulaville, and folowing weeks, each Tuesday in Magnolia and Wednesday in Beulaville. Occupation of the projects will begin the first of October, Ward said.

Contractors for the hous-ing project are: general con-struction, Site, Inc.; electri-

Co.; plumbing contractor, Kinston Plumbing and Heating Co., Inc.; and heating

BLOODMOBILE

The Bloodmobile will be at the Kenansville Fire Station next Tuesday, September 23, from 10 a.m. to 4 p.m.

AUTHORIZE WATER AND SEWER IMPROVEMENTS - Magnolia Mayor Melvin Pope is pictured above authorizing the wastewater treatment plant and sewer system improvements and water system and distribution improvements. The sewer improvements will require \$1,125,000, and the

water system improvements will be con-structed for \$355,000. The town will be borrowing a total of \$192,900 from Farmers Home Administration for the projects: The remainder of the funds is grants. Pictured with the Mayor is Town Clerk Mrs. Dennis

Annual Grape Stomp The third annual Grape

Stomp, sponsored by the N.C. Grape Growers Asso-ciation and Duplin County Wine Cellars, will be held September 27 on the grounds of Duplin County Wine Cellars in Rose Hill.

Defending Grape Stomp Champion Dennis Rogers, columnist for the Raleigh News and Observer, will be on hand to try to retain his title against 11 other challengers. The participant who extracts the most juice from 15 pounds of grapes within

them, wins the contest.

The Grape Stomp is part of the third annual Grape and Wine Day which includes such activities as: wine tasting, a tour of the wine cellars and vineyard, a wine auction and a grape product judging contest along with other grape exhibits and games.

The affair begins at 1 p.m. Last year the Grape and White Day attracted some 1,200 from throughout the state.

two minutes by stomping board.

Grove Creek Apartments was classified as a business, meeting developer Tom Rabon's request for trash pick-up within the apartment parking area at two locations.

sioners voted to accept the Board of Education's offer to rent the ballfield known as Turkey Stadium to the town. The town will be renting the field for a dollar a year for the next 10 years.
