

Along the Way

Duplin's school system received some much-needed assistance from the New Deal programs during the 1930s. More than \$61,000 in contracts were awarded for new construction and renovations to the schools in 1937.

Under the New Deal's Public Works Administration, Duplin was able to make many needed repairs to the school buildings, which created jobs for the county citizens during the Depression. According to the December 2, 1937 edition of the DUPLIN TIMES, contracts were awarded by the Duplin Board of Education with the approval of the N.C. Board of Education and the regional director of the Public Works Administration, H.T. Cole.

The following contracts were listed in the above-mentioned issue of DUPLIN TIMES as awarded by the county Board of Education: W.L. Jewell of Sanford, construction of two rooms at both Chinquapin and B.F. Grady and a four-room addition to the Calypso school. Total cost, \$18,335.

W.A. Simon, Inc. of Wilmington was awarded con-

struction of a new auditorium at Beulaville and division of the 1937 assembly hall into five classrooms. Simon also received a contract to build a new auditorium at Magnolia. The total of contracts awarded Simon was \$36,116.

Heating contracts were awarded at a total cost of \$4,959. Minor Plumbing Co. of Fayetteville was awarded heating contracts for Chinquapin and B.F. Grady; Ideal Plumbing and Heating Co. of Wilmington, the Beulaville school; the Magnolia school, Albemarle Plumbing and Heating of Albemarle; and W.M. Wiggins and Co. of Wilson, the Calypso building.

Plumbing at the Chinquapin and Magnolia schools was awarded Minor Plumbing. The Beulaville plumbing contract was awarded to Ideal Plumbing and Heating, and A.E. Cumber received the Calypso plumbing contract. The total cost of plumbing contracts was \$932.

All electrical jobs were awarded to the Electrical Maintenance Co. of Wilmington at a total cost of \$1,000.

Duplin Corn Farmers State Meeting

Duplin corn farmers are encouraged to attend the annual Corn Growers Association of North Carolina, Inc. meeting on Dec. 10 at the McKimmon Center on the North Carolina State campus in Raleigh. Registration starts at 9 a.m.

U.S. Senator Jesse Helms will be the featured guest speaker at 9:30 a.m. Farmers attending will hear reports of Association-funded research projects including interactions of starter fertilizers and insecticides, maximum yield studies, and new crop corn syndrome in broiler breeders.

Following the complimentary luncheon, corn yield contest awards will be presented to the top yielding corn growers in the state.

According to J. Michael Moore, Duplin County extension agent, local growers had unusually good yields this summer, but he doubts they will be able to capture that number one yield trophy for the state. Moore estimates the local corn yield to average 105 bushels per acre for 1982.

Additional items on the agenda include an address by Dr. Bruce Poulton, chancellor of the university, and an update on the National Corn Growers Association. The public and especially corn growers are invited to attend.

For additional comments on the meeting, call Jack Williams, 267-3971, a member of the board of directors from Faison.

Some people think an IRA won't help until retirement. Nonsense. A BB&T IRA helps every April 15.

An IRA, you see, is more than a fast-growing retirement fund. It's a tax shelter.

Now, the tax-wise have been taking advantage of tax shelters for years, contributing money to charity, for example, so they can take big deductions and pay smaller income taxes.

Well, we think it's about time working people got a piece of the action. And they can with BB&T's Individual Retirement Account, a tax shelter that's yours when you make a contribution to the charity closest to your heart: you and your family.

YOU CAN DEDUCT AS MUCH AS \$2,000 A YEAR FROM YOUR GROSS INCOME.

You're allowed to invest as much as \$2,000 a year in your IRA (\$2,250 if you're married and only one of you is a wage earner, \$4,000 if you both are). And every penny is deductible. Which means big tax savings. If you're in the 25% tax bracket, for example, and you and your working spouse put \$4,000 into an IRA, your refund check from Uncle Sam will be \$1,000 fatter than it would be otherwise.

YOU DON'T EVEN PAY TAX ON THE INTEREST YOU EARN UNTIL YOU RETIRE.

Which is nice, because at BB&T, you'll be earning at a rate that's tied to money market rates, with a guaranteed minimum of 8%. What's more, we don't compound that interest annually or quar-

COMPARISON OF INTEREST COMPOUNDING METHODS

Years	Amount Deposited @ \$2,000/Year	Daily Compounding*	Annual Compounding*	Net Gain With Daily Compounding
10	\$20,000	\$ 32,097	\$ 31,291	\$ 806
20	\$40,000	\$104,323	\$ 98,846	\$ 5,477
30	\$60,000	\$266,846	\$244,692	\$22,153
40	\$80,000	\$632,553	\$559,562	\$72,991

*Based on 8% interest rate

terly as some banks do. We compound daily, which can make a difference of thousands of dollars in interest over the years.

And all your interest is tax-deferred. You pay no tax on it until you begin withdrawing funds between 59½ and 70½ years of age, when you'll probably be in a lower income tax bracket and, therefore, required to pay less.

YOU CAN BUILD UP ENOUGH IN YOUR IRA OVER THE YEARS TO RETIRE RICH.

If you start an IRA in your early thirties, a \$2,000-a-year investment, with all the interest it earns, will turn into a really tidy sum by the time you're sixty-five. And even if you were born too soon to start that early or can't afford an investment that large, you'll still pile up a sizeable retirement fund.

Call or visit any BB&T office and get your IRA started before another day goes by. After all, how can you pass up a plan that gives you big bucks in the September of your life and a bigger refund check every April?
