## NC Wildflower Thrives At Duplin Library.

The seeds of the cardinal flower (lobelia cardinalis) came from the North Carolina Botanical Garden in Chapel Hill. # WE'VE FACED AN ENERGY SHORTAGE AT THE GAS PUMP, BUT NEVER AT THE WALL OUTLET.

CP&L customers have never had to get in line to use electricity. One reason is 97% of the electricity we generate comes from two fuels that are subject to neither foreign politics nor pricing. Coal is one of those fuels. In fact, the U.S. has more coal than the Mideast has oil.

Uranium, used to generate nuclear power, is our other primary fuel source. And once again, America has ample reserves. Both fuels help assure that, for years to come, you'll still be able to take our product for granted.
