Lenoir To Observe National Lunch Week

The Lenoir County schools will be joining others across the nation in celebrating National School Lunch Week, Oct. 14-20. This special observance marks the 22nd year of the American School Food Service Association's emphasis on the national school lunch program in the public schools.

"Many things have changed in the past 22 years, and our school lunch programs have changed, too," explained Mrs. Marva Brown, child nutrition director. "Many schools now have multiple choice menus as well as food service programs featuring salad bars, soup bars, sand-

wich bars, potato bars, a-la-carte lines and self-serve lines."

Students now have input into the program, she also noted, for many students are involved in YAC programs — Youth Advisory Council groups — that work with food service personnel. Various nutrition education programs are also offered in the classrooms.

This year's theme, "Champions of Nutrition," is the third year of a year emphasis on "School Lunch: America's No. 1 Energy Source." The theme focuses on the idea that true champions are well-rounded in all areas of life with athletic ability, an appreciation of the arts, scholastic

ability, a blue-ribbon winning attitude and tender loving care. The National School Lunch Menu features food to "fuel a growing body" with items named to reflect

the emphasis on becoming true champions: Marathon spaghetti, an Honor roll, Maestro tossed salad, Blue Ribbon fruit, Honey-Oatmeal-Raisin cookies and TLC milk.
