Management Guide

On Dec. 20, Farmers Home Administration (FmHA) circulated a draft natural resource management guide for review and comment to appropriate federal and state agencies, state and regional review agencies assigned the consultation requirements of Executive Order 12372, as well as interested localities, groups and citizens. The guide is a brief document of major environmental standards and review requirements that have been promulgated at the federal level as well as those that are particular to the state. It provides a listing of natural opportunities and constraints for various land use activities against which proposals for development can be evaluated. Copies can be obtained by writing or telephoning the state office.

Any person or organization desiring to make comments and suggestions for deletions, additions or corrections is invited to do so.

You should be aware that a 30-day period for the submission of public comment will follow the distribution date of the draft guide. This period expires Jan. 21.

Contact the State Director, attention: State Environment Coordinator if you desire copies of the Draft Guide. Forward comments to the same address. The Telephone number is (919) 755-4640 and the address is Farmers Home Administration, 310 New Bern Ave., Raleigh, NC 27601.
