

**Beating The Weather At Hog-Killing Time**

At hog-killing time a lot depends on the weather and when it rains action can come to a standstill. One way to get ahead of the weather is to work indoors. Pictured above, hog-killing activities continue even though rain poured outside. Pictured left, Walter Rouse works

grinding sausage and, right, Alice Reed cuts lean meat preparing it for the grinder. Both worked in a hog-killing held on a farm outside Warsaw by Russell Killelte last week.

**Attention Area Sculptures**

Attention, all sculptors or other artists with experience in permanent outdoor projects.

The Senior Citizens Center of Morganton is requesting proposals for a permanent outdoor work which must in some way address itself to the following concerns: The piece must specifically relate to the immediate site of the Senior Citizens Center. The piece must, on some level, be influenced by, derive inspiration from, symbolize or otherwise relate to the richness in life which comes from the passage of years. The piece must, furthermore, recognize the contest of the town in

which the Senior Citizens Center is situated.

Proposals can be in any form which the artist chooses. They can be written, maquettes, models, drawings, a no more than 10-minute in length presentation to the Senior Citizens Sculpture Committee, or a combination of these.

There is at present no budget ceiling on this project. Each proposal will be judged on the basis of its appropriateness to the above stated criteria and then weighed against its projected cost.

Each proposal must contain a

realistic budget which will, if selected, be incorporated into a contract with the artist.

For obvious reasons, there is some advantage in keeping costs at a reasonable and appropriate level.

All proposals should be submitted no later than 12 noon on March 31, 1985. The Senior Citizens Sculpture Committee will review the proposals and respond in writing to each of the proposing artists within six weeks of this date.

Applications are available at the Duplin County Arts Council office in Kenansville.

**Businesses Sign Options On Land For Turkey Plant**

Options were signed Friday by representatives of Carroll's Foods of Warsaw and Goldsboro Milling Co. to purchase 600 acres of land between Blizzards Crossroads and Garner's Chapel, 13 miles north of Kenansville, for a turkey processing plant.

W.W. (Woody) Brinson Jr., Duplin County economic development director, said the next step in the companies' joint venture will be to have test wells drilled to determine the quantity and quality of

water available at the site.

The planned turkey processing plant will use up to 2 million gallons of water per day.

Several parties own the land.

The two companies have formed a business partnership for construction and operation of an \$18 million plant capable of processing 12 million turkeys a year.

When it gets into operation the plant will employ 800 to 1,000 people with an annual payroll of more than \$8 million.

F.J. "Sonny" Faison, president of Carroll's said last fall that plans call for a 200,000-square-foot plant.

Both companies are major turkey processors, each turning out about 6 million birds or 100 million pounds of live-weight turkeys a year.

The companies expect to increase production as they bring the facility into operation.

The two companies now contract with about 350 turkey growers, mostly in Duplin, Sampson and Wayne counties.

**82nd Airborne Army Chorus In Duplin Schools**

The 82nd Airborne Army Chorus is marching your way. You'll want to stand tall, sit tall and sing along as the 24 young men sing a cappella a wide selection of choral music. The men march in singing and from that first surprise on, the program is impressive.

The concert is scheduled by the U.S. Army recruiters at the Clinton Recruiting Station in cooperation with the Duplin County Arts Council. The chorus is from Fort Bragg.

This is a concert which will have

community appeal and to which the public could be encouraged and invited to attend. Perhaps you would like to send a letter home or put forth an invitation for the public and parents who can come to the performance at your school — particularly at Warsaw Junior High School, from where the new commanding officer graduated. There would likely be some interested community members to welcome Sgt. Bowdens back home!

The 82nd Airborne Army Chorus schedule is as follows: Monday, Jan 28 at North Duplin High School from 9:18-10:15 a.m.; Wallace-Rose Hill High from 1:04-2 p.m.; and on Tuesday, Jan. 29 at James Kenan High School from 9:30-10:27 a.m. and at Warsaw Jr. High School from 1:23-2:12 p.m.

Warsaw Jr. High is formerly Douglass High School, Sgt. Bowden's Alma Mater.

**Duplin County AARP Meeting**

Milton Rice will be the speaker at the Jan. 31st meeting of the AARP. His subject will be "Cut the Cost, Keep the Care," a consumer action and health promotion program. This is a program put on by the national organization to improve health of Senior Citizens without more cost. He will show slides with his talk.

This is the first regular night meeting of the organization and will be held Jan. 31 at 6:30 p.m. at the Senior Citizen Center in Kenansville. Tickets will be \$3.50 per person. Reservations must be made by Jan. 28 so the food committee will know how many to expect. Call 296-1511 and make reservations now.
