OUR CREED

To be useful.
 To inspire increased effort.
 To maintain high ideals in the business of banking.
 To finish today's business today.
 To make tomorrow's service better as the result of today's experience.
 To render every depositor our best service, regardless of the size of the account.
 To handle every financial transaction entrusted to us with the same precision and care as though it were our own.
 To increase our circle of friends.
 The success of our Creed is evidenced by your friendship.

Peoples Bank & Trust Co's. Weekly Letter

Let's Clean Up First.

Now is the time to clean up debts. A dollar will go farther now in paying a debt than it ever will again. Lets clean up first and then spend as we like. Lets pay promptly and thereby reduce the cost of doing business. This will help bring prices down.

Modern Service

We look upon our bank as a service station. We do not limit our service to strictly banking transac-

tions. We are here to serve in any way we can. Feel free to call on us.

Burglar Proof Locks

This bank has installed a set of new Amikin Locks on its Safe Deposit Vault and the banking vaults as extra precaution against burglars. The manufacturers guarantee them to be burglar proof. Out of many attempts vaults equipped with these locks have never been entered by burglars. We will be

glad to show you how the locks operate. We have a few safe boxes left to rent as low as \$2.00 per year. Bring your valuable papers and place them in one of these boxes.

Certificates

This bank issues certificates of deposit drawing interest from date. We will pay a liberal rate of interest and will have your money when you want it. Issued in sums of \$50 and upwards. If you have idle money put it to work.

Pantry Convenience.
 In a dim light the tack or nail on which an article is hung in the pantry is nearly invisible against dark woodwork, but is at once made conspicuous if the tack be driven through a white pasteboard disk.

Nature's Color Scheme.
 Imagine the grass of the field and the leaves of the forest created blue, or magenta, or scarlet. Instead of green! Some speculative scientists think the foliage of the planet Mars is red, and that the people there are seeing red continually. It would not be difficult to believe that keeping the peace on this good green earth is not as hard as it would be had our planet been painted red in the beginning.—Minneapolis Journal.

Jud Tunkins.
 "The city man," said Jud Tunkins, "who thinks he knows all about how to run a farm is generally a chap who doesn't take the trouble to keep the grass cut in his own front yard."

Land Land

FOR THE LAND'S SAKE!

It is already a well known fact that the dark red chocolate soil in and around the village of Mill Spring, Polk County, N. C., is unsurpassed in fertility. That hard clay sub-soil is rich in potash and retains all the humus added to the soil in the way of vegetable matter. The people of this community have taken on a new progressive spirit and are interested in community clubs, fairs and roads as never before.

It is some of the above mentioned lands that are being offered at such bargains that anybody can own a farm.

One of these farms is 125 acres, situated right in the village with 3 good houses, ten, five and four rooms respectively.

Also one of 200 acres in forks of White Oak Creek that has 25 to 30 acres of bottom that's simply fine.

The price of some of this land ranges as low as \$25.00 per Acre

See or write

J. H. GIBBS, Mill Spring, N. C.

He cuts the earth to suit the purchaser. Also 2 pair mules and some cattle for sale.
