First Month of School.
 those who are interested
 in school, it will be encourag-
 ing to know that our enrollment
 reached 225 and our daily at-
 tendance is considerably above
 that. However I am very frank
 in saying that we, the teachers
 have very seriously discouraged
 the enormous number of
 tardies. On Monday of this week
 there were eleven tardies. Will
 the good people of this com-
 munity fall in line with the more
 progressive school communities
 over the state and see that
 their children get to school on
 time. Undoubtedly punctuality
 is one of the most serious prob-
 lems before us, furthermore we
 must give so many of our pupils
 not giving much of their
 energy to their studies and when
 we stop to consider your school
 the past I am sure you can
 realize that these boys and girls
 do not even hope to be promoted
 at the end of the school unless
 they apply themselves more
 earnestly than they have in the
 past.

To The Voters Of Tryon.
 Owing to the fact that there
 seems to be some misunderstanding
 in regard to the streets to be
 paved from the proceeds of the
 proposed bond issue to be voted
 upon at the election to be held on
 Nov 1, we have asked Town
 Manager Blake to give us a list
 of streets to be paved.
 Read it and see if you do not
 think it advisable to support the
 bond issue;

Chauncey Depew's First \$100 Still in Bank; Now \$800.

New York, Sept. 18.
 Along about 1950 or 1960 when Chauncey M. Depew decides to retire from
 the directorate of the New York Central railroad, and pass his declining
 years in rest and quiet at Briarcliff Manor, he will have a nice little nest
 egg laid aside for his old age. He told a reporter about it today.
 "The first \$100 I ever earned," he said "was deposited in the Peek-
 skill Saving bank at interest. That was more than sixty years ago, the
 year before the civil war started. It has been there ever since, because I
 never had the heart to draw it out, although sometimes I needed it badly.
 I always thought something might happen."
 "The other day I, was in Peekskill and dropped in at the bank. An
 official told me that my old account of \$100 was still on the books and had
 multiplied to \$800."

What Becomes of the Money You Earn?

If it goes into a bank or into an investment
 for your maintenance in the later years of life
 you are wise—also fortunate.
 If it is fritted away from day to day you
 are unfortunate now, and you will be more unfor-
 tunate when old age overtakes you.
 A savings account starts you right and
 keeps you going. It also gets you there.
