 There has been some speculation on the part of some as to the effect the tapping of another stream to our water supply would have upon its purity. For the benefit of those we will say the

analysis of our water water was received Tuesday and showed it to be fully as good as it ever was. It was pronounced to be absolutely pure.

Greens Creek Community Fair.

Greens Creek's second Community Fair was held, at Greens Creek school house, on Thursday, Oct. 13. Mr. B. L. White, Pres.; Miss Mary Camp, Sec. and Tres, Miss Flentye and Mr. Gray were the efficient judges, and County Agent Sams, the guiding spirit of the whole enterprise. As usual, the women proved themselves more public spirited than the men and there were very creditable displays of canned goods, cookery, flowers and fancy work, as well as sewing. Mrs. D. H. Miller won first prize with a really remarkable collection of canned pickles, preserved, jellied and dried fruits and vegetables. An early frost doubtless interfered with the display of flowers but there were wonderful roses, dahlias and chrysanthemums and some very handsome potted plants. This scribe knows nothing about fancy work, but it was there in quantity, and the quality was no doubt good.

The men of the township, as a whole, made a poor showing, though there were some good displays, notably those of Messrs B. L. White, Herman Walker, W. E. McDade, etc. Greens Creek should have made the banner agricultural display of the county and will when our men realize the fact that these fairs have not only great educational value, but may be made excellent advertisement as well. We also fell short on livestock and poultry exhibits. There is some cause for hesitancy to bring a fine milk cow a long distance, and to transport a sow and pigs is a tough proposition, but there is no excuse whatever for our failure to make a good showing in poultry. Still, all in all, it was a pretty good fair for a hard year, and we hope to have a better one next year.

An address of welcome was made by Rev. R. M. Hunter, and short talks by several others and we were glad to see a number of visitors from Tryon, Mill Spring and other points.

Clogged Blood Withers the Body

Workers Sick and Weak from Exertion Take Gude's Pepto-Mangan.

Men and women who toil, either physically or mentally, use up energy. When they overwork they use up more energy, and sometimes the blood gets in a run-down condition. Without rest the blood cannot get back to normal, so that it becomes clogged with waste matter from over-exertion.

The clogged blood virtually withers the body. The strained looks on pale faces, the thin, bloodless arms, the sunken cheeks and necks, the dead tired feeling are results of stale blood depriving the system of life giving oxygen.

Workers go to the drug store and get Gude's Pepto-Mangan when they feel weak and run down. They take it in either the liquid or the tablet form. That makes the blood rich and red and drives the poisons. Life-giving oxygen, carried by the little red cells, renews the strength and builds up the entire system. Look for the name "Gude's Pepto-Mangan" on the package. Advertisement.
