

## The New Tariff Law Makes Future Prices Higher ---All Our Present Stocks Were Bought on the Old Low Price Basis.

**Thrifty People will Buy Now and Avoid the New Tax.**

The new tariff law was passed with the admirable purpose of protecting American workmen from the threatened deluge of cheap foreign merchandise. Everybody hopes that it may mean large future prosperity for our people. Its immediate effect will be to greatly increase the prices that must be paid for many kinds of merchandise.

Our vast Fall and Winter stocks have been purchased ahead of these new tariff increases, and while many stocks of goods will be marked up to meet the new tariff prices, our stocks will **NOT** be so marked. **ALL GOODS NOW OWNED BY US WILL BE SOLD ON THE OLD LOW PRICE BASIS.**

People who know the facts about this new condition and who wish to lay in the supplies that will be required in the near future will need no argument from us to realize that such purchases should be made while **Present Stocks are Available** in full, complete assortments.
