Lubrication

The life of your car is lubrication. The automotive travelling public rolling on a film of oil, as without oil not one wheel would turn. Your chassis needs oil and attention as regularly as the engine and burnt out wheel bearings or springs eaten with rust, makes hard riding harder.

Bring your car to us at regular intervals and tell us to go over it thoroughly, oil and dope every cup, bearing and frictional surface.

Draw your oil every 500 miles; bolstering the crank case with another quart is throwing good money after bad.
