Carolina Leads Cotton States.

North Carolina leads the main cotton producing belt with a condition of 82 per cent of normal, according to a statement issued by Frank Parker, Agricultural Statistician, Department of Agriculture Crop Reporting Service.

"The cotton crop is unusually promising in most parts of North Carolina as reported on a basis of July 25 conditions," continued Mr. Parker's statement.

"The damage by the boll weevil is conspicuous from Mecklenburg to the coast with several complaints showing up in the Central Piedmont and Northern coastal counties, although there is evidence that the damage in the latter area is not as great as was expected.

"The crop is late and the plants somewhat small, but they are well fruited, which after all is the valuable factor. The crop throughout the State is generally in a good state of cultivation and growing nicely.

"The condition is consistently good, but the poorest area is 79 per cent in the lower Central Piedmont counties. The next lowest is in the Southern Coastal or weevil-infected counties, where the condition is reported to be 82.5 per cent of a full crop.

Farmers Offered \$30,000 in Prizes.

Thirty thousand dollars in cash premiums are offered by the North Carolina State Fair for exhibits this fall, according to the premium list, which is being sent out by General Manager E. V. Walborn.

This booklet of 150 pages has been prepared with great care under the general direction of Mrs. Edith Vanderbilt, president of the Fair, who has given liberally of her time, and gives full and explicit information about the various departments of the Fair.

Ten county prizes in the division of agricultural products is going to produce some strong competition, according to Mr. Walborn. The first county prize is for five hundred dollars and the second is for four hundred dollars.

Altogether there are twenty-one divisions of exhibits outlined in the premium list ranging from minerals to flowers.

KILLS PESKY BED BUGS

P. D. Q.

Just think, a 35c box of P. D. Q. (Pest) Kills Devils (Cotes) makes a quart, enough to kill a million Bed Bugs, Roaches, Fleas or Cooties, and stops future generations by killing their eggs, and does not injure the clothing. Liquid fire to the Bed Bugs is what P. D. Q. is like.
