 Your
 Production
 Costs**

Farming, like every other business, must cut
 down the overhead.

It is not a question of being able to afford a
 Fordson; it is a question of being able to con-
 tinue farming on the old too-costly basis.

The farmer's problem is not all a sales problem;
 it is also a production problem. He must cut
 down the cost of production.

The Fordson does more work at a lower cost
 and in less time than the old hand methods.

Let us give you the proof. Write, phone or
 call today.
