

# THIS WOMAN RELIEVED FROM SUFFERING

By Lydia E. Pinkham's Vegetable Compound. A Remarkable Story

Dover, Del.—"I wish every woman would take your wonderful medicine as it has done so much good to me. I had cramps and faint spells and very bad pains. One day I was over to my neighbor's house and she told me I ought to take Lydia E. Pinkham's Vegetable Compound. So I went to the store on my way home and got a bottle, and took the first dose before supper. I have been taking it ever since, and you can hardly believe how different I feel. I had just wanted to lie in bed all the time, and when I started to brush up I would give out in about ten minutes. So you know how badly I felt. I used to go to bed at eight and get up at seven, still tired. Now I can work all day and stay up until eleven, and feel all right all the time. My housework is all I do in summer, but in winter I work in a factory. I have told a good many of my friends, and I have had three come to me and tell me they wouldn't do without the Vegetable Compound."

—Mrs. SAMUEL MURPHY, 219 Cecil St., Dover, Delaware.

No Kissing in South Seas. Another "close-up" finale is being attacked. The South Sea islands are often the scene of romantic stories and scenarios, but a traveler from there has remarked on the fact that there are no customs there which include kissing among the savages.

## THAT LITTLE COLD MAY START A BIG TROUBLE

Stop It Now With Cheney's Expectorant and Save Needless Suffering.

That little cold you took yesterday may seem a small matter to you now; but if you don't do something to check it and get it out of your system there's no telling how it will end. Many a severe, if not fatal, case of pneumonia or tuberculosis began in just the same way.

How foolish then to take any sort of risk by neglecting that cold till it fastens itself on your vitals, and becomes so deep-seated that nothing but the most severe treatment will serve to get you back to health.

You can stop it now with Cheney's Expectorant. A dose every few hours will knock it right out and end the trouble almost before it has begun. It expels the germs from your system and you feel fresher and stronger and better.

Three generations of people have been brought up on Cheney's Expectorant and have an abiding faith in its efficiency because they know what it will do.

Cheney's Expectorant expels the cold by reaching and correcting the cause. It is equally effective for coughs, bronchitis, croup, whooping cough, and all other affections of the throat and lungs.

### Sticking to His Story.

Jenkins told his wife he was going fishing, but instead went to a football match. On his way he entered a fish-ponger's and told them to send some fish home at a certain time.

But fish was scarce that day, and some cods' heads were sent instead.

"Well," exclaimed Jenkins when he arrived home, "did you get the fish I sent?"

"I got a lot of cods' heads," replied the wife.

"That's right," said Jenkins, cheerily. "The fish were that strong that before I could land 'em I had to pull their heads off."

### Electric Chair First Used in 1890.

The electric chair was not, strictly speaking, invented. It was known that electric current would kill, and experiments in killing animals by this means had been made. A New York commission was appointed to investigate humane ways of inflicting the death penalty. The commission reported in 1888, and in that report suggested the construction of a chair in which the criminal could be placed for electrocution. Such a chair was devised by the state electrician of New York, E. F. Davis, and appears to have been first used in 1890.

## Rosicrucians Secret Order of 14th Century

The Rosicrucians were a secret fraternity alleged to have been founded during the latter part of the fourteenth century by Christian Rosenkreuz, German mystic, who dwelt for a time in India and Egypt, where he acquired a profound knowledge of the occult arts.

The Rosicrucians, like the alchemists, pretended to transmute metals, to prolong life and to possess knowledge of what was occurring in distant places. They first became known to the world early in the seventeenth century, through the publication of certain documents said to have been issued by them; but according to many authorities, their existence was extremely doubtful.

The Rosicrucians were also called the Brothers of the Holy Cross, from the notion that the name is derived from "crux" (cross), and "rosa" (rose). Brewer, however, says that the word Rosicrucian comes from "ros" (dew) and "rosa" (rose). "Dew was considered by the ancient chemists as the most powerful solvent of gold, and cross in alchemy is the synonym of light, because any figure of the cross contains the letters L X V ('light')."

### "Old Stuff" From Arabia.

A New York barber recently got some valuable publicity because he regaled his customers with tea and music. "It was 'old stuff,'" comments William H. Ukers in his new book, "All About Coffee," just published by the Tea and Coffee Trade Journal company, New York. "The Arabian and Turkish barber shops have been serving coffee, tobacco and sweetmeats to their customers for centuries. In Arabia and other oriental countries coffee is part of the ritual of business; shopkeepers serve it to the customer before the argument begins."

The whole merit of virtue consists in the practice of virtue.
